The American Beauty Industry Encyclopedia Julie Willett, 2010-05-11 This is the first encyclopedia to focus exclusively on the many aspects of the American beauty industry, covering both its diverse origins and its global reach. The American Beauty Industry Encyclopedia is the first compilation to focus exclusively on this pervasive business, covering both its diverse origins and global reach. More than 100 entries were chosen specifically to illuminate the most iconic aspects of the industry's past and present, exploring the meaning of beauty practices and products, often while making analytical use of categories such as gender, race, sexuality, and stages of the lifecycle. Focusing primarily on the late-19th and 20th-century American beauty industry—an era of unprecedented expansion—the encyclopedia covers ancient practices and the latest trends and provides a historical examination of institutions, entrepreneurs, styles, and technological innovations. It covers, for example, the 1911 Triangle Shirtwaist Factory fire, as well as how Asian women today are having muscle fiber removed from their calves to create a more Western look. Entries also explore how the industry reflects social movements and concerns that are inextricably bound to religion, feminism, the health and safety of consumers and workers, the treatment of animals, and environmental sustainability.

Bodylore Katharine Young,1993 The term bodylore was coined for the American Folklore Society in 1989 to focus concerns with body language, costumes and accoutrements, movement, discourses, and representations, considering the human body as a cultural artifact rather than a natural object. Ten essays from various panels since then explore such topics as women in the American spa culture, body puns in Hamlet, quilts and women's bodies, and medical discourse. Spas Tom O'Dell,2010-07-27 From 17th-century Sweden to the present time, this remarkable volume provides a historical perspective on the manner in which hospitality has developed from a private right and obligation to a commercialized product. Examining the ways religion, belief, and notions of health and wellness have been intertwined in the world of spas, this account argues for an appreciation of the role that magic, serenity, and rejuvenation play as a facilitator of economic processes and as a source of perceptions of health.
