JELD-WEN*, *Viamedia v. Comcast*, *SC Innovations v. Uber Technologies*, and the *Alston NCAA* litigation Expanded treatment of advanced antitrust economic theory in a substantially revised Appendix, including a full examination of bargaining theory and other developing models, and their performance before the courts. *The Fictions of American Capitalism* Jacques-Henri Coste, Vincent Dussol, 2020-02-26 *The Fictions of American Capitalism: Working Fictions and the Economic Novel* introduces a new way of thinking about fiction in connection with capitalism, especially American capitalism. These essays demonstrate how fiction fulfills a major function of the American capitalist engine, presenting various formulations of American capitalism from the perspective of economists, social scientists, and literary critics. Focusing on three narratives—fictitious capital, working fictions, and the economic novel—the volume questions whether these three types of fiction can be linked under the sign of capitalism. This collection seeks to illustrate the American economy's dependence on fictitiousness, America's ideological fictions, and the nation's creative literary fiction. In relation to what the credit and banking crisis of 2007–2008 exposed about the “unreal” base of the economy, the volume concludes with a call to recognize the economic humanities, arguing that American fiction and American literary studies can provide a useful mirror for economists.
