Michael Hosking

Rescued from Vietnam Michael Hosking,2016-04-12

Following his service as an Intelligence Infantryman with the Australian Army, Michael Hosking relates his engrossing journey of recovery from PTSD. Honouring the valour of the original 7th Battalion, he recounts his experiences during the Vietnam War and pays homage to the brave who fell in many battles. The narrative includes his early years during a colourful, larrikin youth, and how the Army plucked him from civilian life, trained him to fight, and sent him sailing to Vietnam on the great adventure. But he discovers confusion, fear, and resentment in Vietnam, as he survives the jungle and enjoys mateship, but fights internal struggles, pain, and guilt over the war. Troubles upon returning home are myriad, death and grief follow him, and seeking peace, he journeys overseas to recover his identity, make sense of life, and be released from the effects of PTSD. Humorous adventures unfold across Europe and east along the Hippie Trail through Central Asia, where intriguing and gradual recovery from PTSD takes place in his heart. His spiritual journey of discovery, release, and outreach includes life-changing travels to impoverished African countries.

Capitalism and Disability Marta Russell,2019-08-06 Spread out over many years and many different publications, the late author and activist Marta Russell wrote a number of

groundbreaking and insightful essays on the nature of disability and oppression under capitalism. In this volume, Russell's various essays are brought together in one place in order to provide a useful and expansive resource to those interested in better understanding the ways in which the modern phenomenon of disability is shaped by capitalist economic and social relations. The essays range in analysis from the theoretical to the topical, including but not limited to: the emergence of disability as a "human category" rooted in the rise of industrial capitalism and the transformation of the conditions of work, family, and society corresponding thereto; a critique of the shortcomings of a purely "civil rights approach" to addressing the persistence of disability oppression in the economic sphere, with a particular focus on the legacy of the Americans with Disabilities Act of 1990; an examination of the changing position of disabled people within the overall system of capitalist production utilizing the Marxist economic concepts of the reserve army of the unemployed, the labor theory of value, and the exploitation of wage-labor; the effects of neoliberal capitalist policies on the living conditions and social position of disabled people as it pertains to welfare, income assistance, health care, and other social security programs; imperialism and war as a factor in the further oppression and immiseration of disabled people within the United States and globally; and the need to build unity against the divisive tendencies which hide the common economic interest shared between disabled people and the often highly-exploited direct care workers who provide services to the former.
