Amul's India : Based On 50 Years Of Amul Advertising By daCuncha Communication Gujarat Co-operative Milk Marketing Federation Ltd,2012-05-10 The Amul campaign tells the stories of India, a hoarding at a time. The hoardings are markers of the 'popular' history of India and have been followed by fans for decades. Timeless and ageless, this long-running campaign has captivated Indians of all ages. The key character in this saga is the little girl in polka dots, who helped Amul Butter win over an entire nation. This book celebrates her journey through the eyes of prominent writers, public figures and the subjects of the hoardings themselves. It contains a series of vignettes, creating a patchwork quilt of essays, snippets and selections of classic hoardings. It offers us an inside peek into the back story of the creation of the ads. Amul's India is a celebration that would be of enormous interest to an observer of contemporary India, be it a brand manager, a management student or a fan of Amul. Or just somebody who wants a rollicking good time.

The Language of Humour and Its Transmutation in Indian Political Cartoons Vinod Balakrishnan,Vishaka Venkat,2023-08-14 This book develops a model to examine the language of humour, which is multimodal and accounts for the possibility of transmutation of humour as it is performed through editorial cartoons. By transmutation is meant the transition in the language of humour when it crosses its own boundaries to provoke unprecedented reactions resulting in offensiveness, disappointment or hurt sentiment. The transmutability about the language of humour points to its inherently diabolical nature which manifests in the performance of controversial cartoons. The model is built by borrowing theoretical cues from Roman Jakobson, Roland Barthes, George Lakoff and Mark Johnson. The integrated model, then, is developed to examine the cartoons which were recommended for deletion by the Thorat Committee, following a cartoon controversy in India. Through the cartoon analysis, the model discerns the significance of context and temporality in determining the impact of humour. It also examines how the ethics of humour; the blurred lines of political correctness and incorrectness are dictated by the political atmosphere and the power dynamics.

Amul's India 3.0: Based on 50 Years of Amul Advertising Various,2016-11-15 When a butter brand becomes the barometer of a nation. Chronicling the kaleidoscopic stories of India, one ad at a time, the Amul girl, with her wry wit, is both mascot and mapper of the history of contemporary India for over half a century. This edition is her third excursion into the minds of our finest writers and social commentators, many of them new contributors to the Amul's India series. Their essays and interviews offer the most interesting angles on the freshness as well as lasting impact of the world's longest-running outdoor advertising campaign. The writers look at how the Amul girl has over the years covered the nation's concerns and obsessions, specially politics, Bollywood and cricket. They marvel at how, even in these times of intolerance, the Amul girl retains her sense of innocence and fun, and continues to hold a mirror to our high hopes and troubling lows. Amul's India 3.0 is an archival celebration that will engage brand gurus and media pundits, as well as regular fans and admirers of Amul.

Advertising Language Keiko Tanaka, 2005-07-05 Keiko Tanaka offers an analysis of the linguistic devices that are used in advertisements, looking at the strategems which advertisers employ to gain and retain the attention of their audience. Using relevance theory as a framework, she sets out its key aspects and applies them to the language of written advertising in Britain and Japan. Particular emphasis is placed on 'covert communication', puns and metaphors, and the book contains a unique chapter on images of women in Japanese advertising. It is fully illustrated throughout with recent contrasting advertisements drawn from the two countries. Lost Enlightenment S. Frederick Starr, 2015-06-02 The forgotten story of Central Asia's enlightenment—its rise, fall, and enduring legacy In this sweeping and richly illustrated history, S. Frederick Starr tells the fascinating but largely unknown story of Central

Asia's medieval enlightenment through the eventful lives and astonishing accomplishments of its greatest minds—remarkable figures who built a bridge to the modern world. Because nearly all of these figures wrote in Arabic, they were long assumed to have been Arabs. In fact, they were from Central Asia—drawn from the Persianate and Turkic peoples of a region that today extends from Kazakhstan southward through Afghanistan, and from the easternmost province of Iran through Xinjiang, China. *Lost Enlightenment* recounts how, between the years 800 and 1200, Central Asia led the world in trade and economic development, the size and sophistication of its cities, the refinement of its arts, and, above all, in the advancement of knowledge in many fields. Central Asians achieved signal breakthroughs in astronomy, mathematics, geology, medicine, chemistry, music, social science, philosophy, and theology, among other subjects. They gave algebra its name, calculated the earth's diameter with unprecedented precision, wrote the books that later defined European medicine, and penned some of the world's greatest poetry. One scholar, working in Afghanistan, even predicted the existence of North and South America—five centuries before Columbus. Rarely in history has a more impressive group of polymaths appeared at one place and time. No wonder that their writings influenced European culture from the time of St. Thomas Aquinas down to the scientific revolution, and had a similarly deep impact in India and much of Asia. *Lost Enlightenment* chronicles this forgotten age of achievement, seeks to explain its rise, and explores the competing theories about the cause of its eventual demise. Informed by the latest scholarship yet written in a lively and accessible style, this is a book that will surprise general readers and specialists alike.

Ants Among Elephants Sujatha Gidla, 2017-07-18 Like one in six people in India, Sujatha Gidla was born an untouchable. While most untouchables are illiterate, her family was educated by Canadian missionaries in the 1930s, making it possible for Gidla to attend elite schools and move to America at the age of twenty-six. It was only then that she saw how extraordinary -- and yet how typical -- her family history truly was. Her mother and uncles were born in the last days of British colonial rule. They grew up in a world marked by poverty and injustice, but also full of possibility. The Independence movement promised freedom. Yet for untouchables and other poor people, little changed. In rich, novelistic prose, *Ants Among Elephants* tells Gidla's extraordinary family story detailing her uncle's emergence as a poet and revolutionary and her mother's struggle for emancipation through education.
