ALFRED MARSHALL MAYER

🔖 **The Funny Man** John Warner,2011-09-27 This dark comedy about celebrity is from the author who is “among the most perceptive and edgy chroniclers of an increasingly coarse American culture” (New York Journal of Books). The funny man is a middling comic in an unnamed city. By day he takes care of his infant son; by night he performs in small clubs. His wife waits tables to support the family. It doesn’t sound like much, but they’re happy, more or less. Until the day he comes up with it. His thing. His gimmick. And everything changes. He’s a headliner, and the venues get bigger fast. Pretty soon he has a starring role in a Hollywood blockbuster, all thanks to the gimmick. Which is: He performs with his fist in his mouth. Jokes, impressions, commercials—all with his fist in his mouth. The people want him—are crazy for him—but only with his fist in his mouth. And the funny man is tired of having his fist in his mouth. Thus, as the novel begins, his career is in tatters, his family has left him, and he’s on trial for shooting an unarmed man six times. His lawyer argues that he is not guilty by reason of celebrity. It remains to be seen whether he can be saved . . . A smart satire of our absurd culture, The Funny Man documents one individual’s slide from everyman to monster—even as it reveals the potential for grace and mercy in his life.

🔖 **The Last Lecture** Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he’s learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can’t help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn’t have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn’t about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

🔖 **Making Democracy Fun** Josh A. Lerner,2014-02-21 Drawing on the tools of game design to fix democracy. Anyone who has ever been to a public hearing or community meeting would agree that participatory democracy can be boring. Hours of repetitive presentations, alternately alarmist or complacent, for or against, accompanied by constant heckling, often with no clear outcome or decision. Is this the best democracy can offer? In Making Democracy Fun, Josh Lerner offers a novel solution for the sad state of our deliberative democracy: the power of good game design. What if public meetings featured competition and collaboration (such as team challenges), clear rules (presented and modeled in multiple ways), measurable progress (such as scores and levels), and engaging sounds and visuals? These game mechanics would make meetings more effective and more enjoyable—even fun. Lerner reports that institutions as diverse as the United Nations, the U.S. Army, and grassroots community groups are already using games and game-like processes to encourage participation. Drawing on more than a decade of practical experience and extensive research, he explains how games have been integrated into a variety of public programs in North and South America. He offers rich stories of game techniques in action, in children’s councils, social service programs, and participatory budgeting and planning. With these real-world examples in mind, Lerner describes five kinds of games and twenty-six game mechanics that are especially relevant for democracy. He finds that when governments and organizations use games and design their programs to be more like games, public participation becomes more attractive, effective, and transparent. Game design can make democracy fun—and make it work.

🔖 **Only The Light Moves** Francis A Doherty,2023-11-01 Only the Light Moves tells the story of a twenty-four-year-old US Army pilot who volunteered to fly covert S.O.G., or Studies and Observations Group, reconnaissance missions over the Ho Chi Minh Trail, a region that came to represent not only the United States’ war with Vietnam, but also the “secret war” with Laos and Cambodia. But this is not simply a war story; it is a love story about flying. Captain Francis A. Doherty spent every day for ten months above the jungle battlefield in a Cessna O-1 Bird Dog. The first all-metal fixed-wing aircraft ordered for and by the United States Army following the Army Air Forces’ separation from it in 1947, the single-engine Bird Dog was a liaison and observation aircraft. And for this role, it was completely unarmed. It was from the cockpit of a Bird Dog that Captain Doherty observed this illusive war, perhaps searching out enemy troop movements or calling down waiting F-4 Phantoms to strike a new target. It was a war in which he followed his father’s footsteps in his dream to become a pilot, and where he learned a compassion that extended both to his comrades and the civilians caught in the middle of that terrible war. In Only the Light Moves Captain Doherty only reveals the highs and lows of his year at war in Vietnam but expands beyond his time in the conflict. He explores the emotional struggle he and his comrades faced after they returned home, reconciliations with lost faith, and the incredible impact of war on families. We are also given an insight into Francis’ subsequent journey to becoming a commercial airline pilot. His story makes no effort to glorify the violence that took the lives of so many. There are no broad stroke proclamations about the war, only a very personal, sensitive account of a terrible conflict seen through the eyes of a then young pilot in the air, illuminating the reality and the cost of when one’s country decides to go to war.
