*Tales from Firozsha Baag* Rohinton Mistry,2011-03-11 In these eleven stories, Rohinton Mistry opens our eyes and our hearts to the rich, complex patterns of life inside Firozsha Baag, an apartment building in Bombay. Here are Jaakaylee, the ghost-seer, and Najamai, the only owner of a refrigerator in Firozsha Baag; Rustomji the Curmudgeon and Kersi, the young boy whose life threads through the book and who narrates the final story as an adult in Toronto. We see their passions, their worst fears, their betrayals, and their humorous acts of revenge. Witty and poignant, in turns, these intersecting stories create a finely textured mosaic of lives and illuminate a world poised between the old ways and the new.

**Students at Risk of School Failure** José Jesús Gázquez,José Carlos Núñez,2018-10-18 The main objective of this Research Topic is to determine the conditions that place students at risk of school failure, identifying student and context variables. In spite of the fact that there is currently little doubt about how one learns and how to teach, in some countries of the “developed world,” there is still there is a high rate of school failure. Although the term “school failure” is a very complex construct, insofar as its causes, consequences, and development, from the field of educational psychology, the construct “student engagement” has recently gained special interest in an attempt to deal with the serious problem of school failure. School engagement builds on the anatomy of the students’ involvement in school and describes their feelings, behaviors, and thoughts about their school experiences. So, engagement is an important component of students’ school experience, with a close relationship to achievement and school failure. Children who self-set academic goals, attend school regularly and on time, behave well in class, complete their homework, and study at home are likely to interact adequately with the school social and physical environments and perform well in school. In contrast, children who miss school are more likely to display disruptive behaviors in class, miss homework frequently, exhibit violent behaviors on the playground, fail subjects, be retained and, if the behaviors persist, quit school. Moreover, engagement should also be considered as an important school outcome, eliciting more or less supportive reactions from educators. For example, children who display school-engaged behaviors are likely to receive motivational and instructional support from their teachers. The opposite may also be true. But what makes student engage more or less? The relevant literature indicates that personal variables (e.g., sensory, motor, neurodevelopmental, cognitive, motivational, emotional, behavior problems, learning difficulties, addictions), social and/or cultural variables (e.g., negative family conditions, child abuse, cultural deprivation, ethnic conditions, immigration), or

school variables (e.g., coexistence at school, bullying, cyberbullying) may concurrently hinder engagement, preventing the student from acquiring the learnings in the same conditions as the rest of the classmates.

**100 Birds and How They Got Their Names** Diana Wells, 2001-10-30 How did cranes come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers--from Coleridge's albatross in *The Ancient Mariner* to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its bad moral character, (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means unmarried, are called bachelor birds because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into 100 Birds and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.

Cooney, 1982 This is the colorful and dramatic biography of two of America's most controversial entrepreneurs: Moses Louis Annenberg, 'the racing wire king, ' who built his fortune in racketeering, invested it in publishing, and lost much of it in the biggest tax evasion case in United States history; and his son, Walter, launcher of TV Guide and Seventeen magazines and former ambassador to Great Britain.--Jacket.

**Critical Theory Today** Lois Tyson, 2012-09-10 Critical Theory Today is the essential introduction to contemporary critical theory. It provides clear, simple explanations and concrete examples of complex concepts, making a wide variety of commonly used critical theories accessible to novices without sacrificing any

theoretical rigor or thoroughness. This new edition provides in-depth coverage of the most common approaches to literary analysis today: feminism, psychoanalysis, Marxism, reader-response theory, new criticism, structuralism and semiotics, deconstruction, new historicism, cultural criticism, lesbian/gay/queer theory, African American criticism, and postcolonial criticism. The chapters provide an extended explanation of each theory, using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.

*The Little Devil and Other Stories* Alexei Remizov, 2021-04-13 In a dilapidated and isolated old house, something peculiar seems to happen whenever the town's bestial exterminator visits. On a seemingly bucolic country estate, the head of the household is a living corpse obsessed with other corpses. An adolescent boy who passes his days in private dream worlds experiences a sexual awakening spurred by his family's scandalous tenant. In these and other stories, the modernist writer Alexei Remizov offers a panorama of Russian mythology, the supernatural, rural grotesques, and profound religious faith in fiery revolutionary settings. Alexei Remizov was one of the greatest writers of the Russian symbolist movement of the early twentieth century. In the thirteen stories collected in this volume, his exceptional stylistic achievements are on full display. Equally drawing on rural colloquial speech, the language of Russian fairy tales, and the customs of the Old Believers and Russian Orthodoxy, they transport the reader into a mysterious world in between uncanny folktales and encroaching modernity. *The Little Devil and Other Stories* includes works from across Remizov's career, encompassing his thematic preoccupations and stylistic experimentation. Antonina W. Bouis's translation captures Remizov's many registers to offer English-language readers a sampling of a remarkable Russian writer.

*Psyche and the Literary Muses* Martin S. Lindauer, 2009-06-11 *Psyche and the Literary Muses* focuses on the psychology of literature from an empirical point of view, rather than the more typical psychoanalytic position, and concentrates on literary content rather than readers or writers. The book centers on the author's quantitative studies of brief literary and quasi-literary forms, ranging from titles of short stories and names of literary characters to clichés and quotations from literary sources, in demonstrating their contribution to the topics of learning, perception, thinking, emotions, creativity, and especially person perception and aging. More broadly, *Psyche* bears on literary studies, art, and psychology in general, as well as interdisciplinarity. This book deepens the understanding and appreciation of literature for scholars, academics and the general reader.
