The Girl in the Basement Ray Garton,2022-07-31 A terrifying tale from a Bram Stoker Award-nominated author who “has consistently created some of the best horror ever set to print” (Cemetery Dance). Foster care is like Russian roulette, says fifteen-year-old Ryan Kettering, who’s spent most of his young life in largely abusive homes. Sometimes the hammer clicks and you’re fine. Sometimes it’s a bullet to the brain. This time it seems the hammer has clicked. Living with the Prestons in a rambling two-story house in Shasta County, the chores are split between Ryan and five other foster kids. Not counting nine-year-old Maddy. Not much is expected of her. She stays in the basement. The other children don’t know much about Maddy. But what they do know, they don’t like. She’s just not right. She speaks in a strange, gravelly adult voice. Maybe Ryan can make a difference. Spend time with her. Get acquainted. He understands what it means to be lonely. That’s when he decides to do what no other child in the house dares: Ryan’s going down to the basement. From the author of Live Girls and The Loveliest Dead, a recipient of the World Horror Convention’s Grand Master Award, this is a chilling story of supernatural terror.

The Secret History of Mac Gaming Richard Moss,2018-03-22 The Macintosh challenged games to be more than child’s play and quick reflexes. It made human-computer interaction friendly, inviting, and intuitive. Mac gaming led to much that is now taken for granted by PC gamers and spawned some of the biggest franchises in video game history. It allowed anyone to create games and playful software with ease, and gave indie developers a home for their products. It welcomed strange ideas and encouraged experimentation. It fostered passionate and creative communities who inspired and challenged developers to do better and to follow the Mac mantra ‘think different’. Drawing on archive material and interviews with key figures from the era – and featuring new material from Craig Fryar, Apple’s first Mac games evangelist and the co-creator of hit game Spectre – The Secret History of Mac Gaming is the story of those communities and the game developers who survived and thrived in an ecosystem that was serially ignored by the outside world. It’s a book about people who followed their hearts first and market trends second, showing how clever, quirky, and downright wonderful video games could be.

The Key B. M. Griese,2018-10-22 Randy Harbin is trying his best to maintain his family secret while trying to solve a mystery of missing and murdered young women. They were killed or abducted on, or shortly after, their twenty-fifth birthday. Randy had a few ideas, but he could not do it alone. Monica Taylor worked a few odd jobs while living at home with her mother, not unlike most young individuals trying to make it in the job market. With her life changing drastically in a matter of days, will she be able to understand and accept the changes? An accident brings these two individuals together. Will their differences be too much, or will they be able to work together to solve the mysteries that have plagued generations and save their worlds?

Eddie Shore and that Old-Time Hockey C. Michael Hiam,2010-10-12 Eddie Shore was the Babe Ruth and Ty Cobb of hockey, a brilliant player with an unmatched temper. Emerging from the Canadian prairie to become a member of the Boston Bruins in 1926, the man from Saskatchewan invaded every circuit in the NHL like a runaway locomotive on a downgrade. Hostile fans turned out in droves with a wish to see him killed, but in Boston he could do no wrong. During his twenty-year professional career, the controversial Shore personified that old time hockey like no other,

playing the game with complete disregard for his own safety. Shore was one of the most penalized men in the NHL, and also a perennial member of its All Star Team. A dedicated athlete, Shore won the Hart Trophy for the league's most valuable player four times — a record for a defenseman not since matched — and led Boston to two Stanley Cups in 1929 and 1939. In 1933, Shore was the instigator of hockey's most infamous event, the tragic Ace Bailey Incident, and during his subsequent sixteen-game suspension the fans chanted, We want Shore! After retiring from the NHL in 1940, Shore's passion for the game remained undiminished, and as owner and tyrant of the AHL Springfield Indians, he won championship after championship. This is an action-packed and full-throated celebration of the mighty Eddie Shore — and also of the sport of hockey as it was gloriously played in a bygone age.

Ethan Marcus Makes His Mark Michele Weber Hurwitz, 2019-11-26 "A thoughtful next step for readers of Andrew Clements." —BCCB (about Ethan Marcus Stands Up) Ethan and Erin go to Tech Camp and try to win a chance to "make" a difference in classrooms everywhere in this hilarious follow-up to Ethan Marcus Stands Up. Ethan and Erin Marcus may only be eleven months apart age-wise, but they are a million miles apart in every other respect. Ethan's laid back and takes things in stride. Erin's a little more...intense and doesn't really like to go with the flow. So when these two polar opposites are both invited to attend a prestigious invention/maker camp during winter break it seems almost impossible. Even though Erin and Ethan have reached a kind of truce, Erin thinks that his invitation to the camp was a mistake. And for that reason, Ethan decides to go. He has something to prove to everyone—but mostly to himself—and he's convinced that his desk-evator idea has great potential...if he can do it right. But the Marcus siblings are going to have to find new partners. This is especially important to Erin whose rival, Romanov, is also attending the camp. Erin's never forgiven him for his comment about "girls" having no place in science. She's determined to beat him. But then she overhears someone talking about Romanov's project, and decides that she'll never be able to compete with his game-changing invention. So, what now? What if the Marcus siblings combine their ideas, their brains, and their teams, and make something spectacular? With only one day left, can Erin and Ethan actually create a workable model of their idea, and is it enough to win?

Through The Hourglass and Into The Future: Volumes One and Two ,

Caller 107 Matthew S. Cox, 2019-07-09 Natalie Rausch said she'd die for a chance to meet DJ Crazy Todd, but she didn't mean to be literal. A bitter divorce shattered her family and turned her into a thirteen-year-old weapon in the hands of two people who want nothing more than to destroy each other. Once an accelerated student looking at early college, Natalie let anger at her parents lead her down a desperate path of self-destruction.

No amount of rebellion gets her mom or dad's attention—or stitches up the hole inside her where love used to be. She still listens to actual radio because her stupid mom won't let her have an iPhone. Whenever WROK 107.1 ran a contest, she and her best friend would always try to call in, but even that lost its fun. Her wildest attempt to send her parents a message, falling in with a dangerous group of older teens, goes as wrong as possible. Karma comes full circle in the form of her favorite DJ. He gives her a few hours to make up for two years' worth of mistakes... Or be forever lost.

Beware the Woman Megan Abbott, 2024-05-07 An NPR Best Book of the Year By the master of thinly veiled secrets often kept by women who rage underneath their delicate exteriors (Kirkus Reviews), *Beware the Woman* is Megan Abbott at the height of her game. Honey, I just want you to have everything you ever wanted. That's what Jacy's mom always told her. And Jacy felt like she finally did. Newly married and with a baby on the way, Jacy and her new husband, Jed, embark on their first road trip together to visit his father, Dr. Ash, in Michigan's far-flung Upper Peninsula. The moment they arrive at the cottage snug within the lush woods, Jacy feels bathed in love by the warm and hospitable Dr. Ash, if less so by his house manager, the enigmatic Mrs. Brandt. But their Edenic first days take a turn when Jacy has a health scare. Swiftly, vacation activities are scrapped, and all eyes are on Jacy's condition. Suddenly, whispers about Jed's long-dead mother and complicated family history seem to eerily impinge upon the present, and Jacy begins to feel trapped in the cottage, her every move surveilled, her body under the looking glass. But are her fears founded or is it simply paranoia, or cabin fever, or—as is suggested to her—a stubborn refusal to take necessary precautions? The dense woods surrounding the cottage are full of dangers, but are the greater ones inside?

Into Everywhere Paul McAuley, 2016-04-21 The Jackaroo, those enigmatic aliens who claim to have come to help, gave humanity access to worlds littered with ruins and scraps of technology left by long-dead client races. But although people have found new uses for alien technology, that technology may have found its own uses for people. The dissolute scion of a powerful merchant family, and a woman living in seclusion with only her dog and her demons for company, have become infected by a copy of a powerful chunk of alien code. Driven to discover what it wants from them, they become caught up in a conflict between a policeman allied to the Jackaroo and the laminated brain of a scientific wizard, and a mystery that spans light years and centuries. Humanity is about to discover why the Jackaroo came to help us, and how that help is shaping the end of human history.
