*Hidden History* Jim Willis, 2020-05-01 Investigates and questions the scientific consensus on the

origins of civilization Do we, the human species, really know who we are or where we came from or how we originated or our place in the cosmos? Or is much of what we have been taught wrong or misguided or possibly even blatant lies intended to keep people in power and everyone else in line? Exploring alternative theories on the establishment of society and civilization, *Hidden History: Ancient Aliens and the Suppressed Origins of Civilization* looks at a variety of dissenting, suppressed, and forbidden accounts of history and the origins of humanity. It takes a broad and inclusive survey of historical documents, various theories, and a wide array of perspectives to explore what conventional wisdom might have gotten right and wrong. The book serves as a useful introduction into the suppressed accounts of the origins of modern civilization. It combines cutting-edge science with metaphysical, spiritual, and even paranormal views, daring to ask whether there might be a better explanation for humanity's existence and the origins of civilization than the current scientific consensus. *Hidden History* looks at the multiverse and parallel dimensions, the ancient alien theory, metaphysics, and hypotheses beyond physical perception, the eleven dimensions of string theory, radio telescopes that penetrate to the event horizon of our universe, mathematical equations that take us where no one has gone before, and the world-wide sharing of experiences old and new that speak of long forgotten ancient mythologies that reveal historical truths. With more than 120 photos and graphics, this tome is richly illustrated. Its helpful bibliography provides sources for further exploration, and an extensive index adds to its usefulness. This fascinating book is a thorough investigation and examination of the mysteries surrounding early civilizations, their myths, legends, histories, monuments—and lasting legacies.

*The Young Investigator's Guide to Ancient Aliens* History Channel, 2015-07-21 As a tie-in to the wildly successful History Channel show, here's a book filled with fascinating tales, ancient folklore, and compelling evidence of the role extraterrestrials may have played in human history. What really happened to the dinosaurs? Who actually built the ancient pyramids in Egypt? Are airplanes really as modern as we think they are? This book takes a close look at landmark events throughout history and asks the question: What if aliens were involved? Spanning history, from the earliest of human civilizations to the modern period, this book exposes evidence of the presence of extraterrestrials in some of our most triumphant and devastating moments.

***Ancient Aliens Exposed*** Vernon Macondald, 2014-06-24 *Ancient Aliens Exposed! A Skeptical Look At The TV Phenomenon* Or otherwise titled *A Critical Look at Ancient Aliens and other Galactic Bunk*

Ancient Aliens is an American television program that premiered on the so-called History Channel on April 20, 2010. The show supports the ancient astronaut theory, which believes that many historical texts, archeological sites and legends contain evidence of past alien contact. Ancient Aliens Exposed takes a skeptical look at some of the main claims made by this show and finds them wanting. If you or anyone you know has ever been taken in by the sheer hokum of this series, consider this little book the antidote.

*Aliens, Gods and Human Civilizations* Antariksh, Ancient humans created many incredible things that could not have been possible with their not-so-advance technology. These amazing structures and things make us believe that gods might have helped humans to build them. Who are gods? Where did they come from? These questions are answered by different religions. All religions state that gods came from heaven, but a question – Where is heaven and is it a planet? – arises from this statement. This book tries to answer this question with evidence of aliens in different civilization, close encounters of aliens with humans and alien technology.

**Ancient Aliens and Secret Societies** Mike Bara,2015-03-17 Did ancient “visitors”—of extraterrestrial origin—come to Earth long, long ago and fashion man in their own image? Did they then lift the human race out of the ashes of a great global catastrophe around 10,500 BC? Were the science and secrets that they taught the ancients intended to be a guide for all humanity to the present era? Was this crucial information about our future and our true past hijacked by secretive cabals, some with bad intent and some with altruistic designs, who have held these secrets over the millennia? New York Times bestselling author Mike Bara says the answer to each of these questions is “yes.” He examines ancient documents, including the Bible, to delve into the true story of the beginnings of mankind. He establishes the reality of the major catastrophe that jolted the human race, and traces the history of secret societies from the priesthood of Amun in Egypt to the Templars in Jerusalem and the Scottish Rite Freemasons. He shows how the spiritual wisdom and scientific knowledge the ETs sought to bestow on all humanity were kept by these secret societies for their own benefit. The influence of these sects and their extraterrestrial ties are said to be the stuff of myth, but Bara will show readers that this influence is all too real, extending even into the political arena. He has

a very interesting take on the Kennedy assassination! Bara also reveals the true origins of NASA and exposes the bizarre triad of secret societies in control of that agency since its inception. In the end, Bara shows how NASA is manipulating the space program to fulfill occult purposes—which may lead to our meeting the very ETs we have been inextricably linked with since the beginning.

**Ancient Aliens** Philip Coppens, 2014-12-15 Ancient civilizations generated many innovations that are difficult to explain, such as the remarkable mathematical accuracy of the pyramids of Giza, the man-made fertile soil of the Amazon known as terra preta, and massive stone monuments too heavy to move in Peru and Lebanon, among other places. Given that modern science cannot explain these mysterious phenomena, one theory holds that ancient aliens were responsible for them. This volume examines the credibility of various paranormal hypotheses, giving readers the opportunity to explore the greatest puzzles of antiquity.

*Ancient Aliens: Marradians and Anunnaki* Gary Morgenstein, Ilil Arbel, 2016-12-13 Welcome to the human history you didn't know. A history which the governments of the world don't want you to learn, where humans were pawns of an advanced extraterrestrial race which reshaped our evolutionary cycle through inter-breeding, science and technology. All of us have their DNA. Thirty thousand years ago, two great ancient alien civilizations, the Marradians and the Anunnaki, lived in peace. As much peace as two rivals could muster carving up the Galaxy. Living on the planet Nibiru, they were cousins before the Great Parting, a brutal war fueled by the Anunnaki's insistence that inferior life forms, if gently guided, could thrive in their own endemic image, while Marradians only believed in fealty, the boot and the death stick, or S'ar. The Anunnaki who had visited Earth thousands of years ago were impossibly handsome. They were considered Gods among the ancient Sumerians, and are mentioned in the Bible as the Nephilim - The Fallen Angels. The Marradians are not all that handsome, but they look human

and intermingle easily with us. The Anunnaki do not currently live on Earth. The Marradians, on the other hand, have created stations on Earth. Many of them lived here, mostly underwater, for thousands of years. In their minds, the Marradians own the Earth, and the humans are interlopers. They have bases underwater, in the Pacific, near Puerto Rico, and under Alaska's glaciers. The objects we call USO (Unidentified Submerged Objects) are their dangerous crafts. This is just a sliver of the wealth of knowledge we'll be sharing with you. We'll use ancient texts and new research to finally bring the history, culture, traditions, religion, politics, food, science, technology, songs, sexual practices and customs of the Marradians, along with parallel information about the Anunnaki race since the two cousins' story is so bitterly entwined.

**Ancient Alien Question, 10th Anniversary Edition** Philip Coppens, 2021-03 . . . an important and outstanding contribution. --Erich von Däniken, bestselling author of *Chariots of the Gods* The Ancient Alien Question provides a captivating adventure around the world and sheds an interesting perspective on the Ancient Astronaut Theory. --Giorgio A. Tsoukalos, producer of *Ancient Aliens: The Series* Philip Coppens covers all the bases on this controversial topic. His research is thorough and he addresses each topic with a balanced overview that cuts through the jungle of confusion with a very sharp machete of reason. --David Hatcher Childress, author of *Technology of the Gods* The Ancient Alien Question reveals an array of astonishing truths, including: A radically different understanding of the pyramids and how they were constructed The extraordinary stories behind monuments such as the Nazca lines and Puma Punku How extraterrestrials came to our planet and the evidence that supports this Analyzing the historical and archaeological evidence, Philip Coppens demonstrates that there is substantial proof that our ancestors were far more technologically advanced than currently accepted,

and that certain cultures interacted with nonhuman intelligences. Our ancestors were clearly not alone. Fifty years after Erich von Däniken posed these questions in *Chariots of the Gods*, Coppens provides clear, concise answers to the great historical enigmas in an accessible, readable format. Your view of human history will never be the same again!

*Ancient Aliens on the Moon* Mike Bara, 2012-03-27 Best-selling author and Secret Space Program researcher Bara brings us this lavishly-illustrated volume on alien structures on the Moon. He looks into the history of lunar anomalies and the early NASA programs. He gives us an examination of ruins on the Moon in the Sinus Medii region using images from the Surveyor, Lunar Orbiter and Ranger missions. He looks at the Apollo lunar missions to the Moon and the photographic evidence supporting the theory that transparent domes exist at the edge of craters on the orb. Did the domes encompass settlements of humans or other beings who lived there? He looks at further anomalies in the Mare Crisium region, including the hexagonal shape of the Crisium region itself. In this area, domes over the craters resemble watch-crystals. See the evidence in pictures of Cleomedes F and Cleomedes F/a, and an historical image of a giant shard of transparent material that was whitewashed from later versions of the same image. Bara discusses the popular theory that the film “2001 –A Space Odyssey” was used as a training ground for Stanley Kubrick to develop the technology to fake the footage of the moon landings. He also explores the curious mission of Apollo 17-possibly a technology salvage mission, primarily concerned with investigating an opening into a massive hexagonal ruin near the landing site. Bara details how the astronauts managed to get nearly 30 minutes of “off camera” time to investigate an entrance into the ruin and then later proceeded to a nearby crater to retrieve technological objects. He examines evidence from the Russian Zond series of lunar probes, as well as the more current Clementine and Lunar Reconnaissance Orbiter data, including an in-depth study of

strange objects in Tycho crater. Also included: a look at the current politics of the new race to return to the Moon and what hidden agendas may be behind it. Finally, Bara looks at the various arguments that the entire Moon is an artificial object. Bara shows how the Moon would have been an ideal place for an alien species involved in genetic experimentation on Earth to have set up a base. 292 Pages. 6x9 Paperback. Illustrated. Weapons of the Gods Nick Redfern, 2016-04-25 In 1945, the Japanese cities of Hiroshima and Nagasaki became the first and last victims of the atom bomb, the most destructive man-made force our planet has ever known. Or were they just the latest in a long line of Armageddon-level events? Is it possible that our civilization is, in reality, just one of many? Did previous cultures blossom, develop, and thrive, only to destroy themselves, tens or hundreds of thousands of years ago, with the same atomic technology? These are the controversial and thought-provoking questions at the heart of Nick Redfern's *Weapons of the Gods*, which argues that many ancient civilizations cracked the secrets of the atom, only to become the victims of its awesome, terrifying power. Still others may have been destroyed by hostile aliens with their own nuclear arsenals. Where is the evidence? The answer is shockingly simple: it's everywhere. It's just a matter of knowing where to look for it, from the biblical cities of Sodom and Gomorrah and the ancient Pakistani culture of Mohenjo-daro, Pakistan, to the Lonar Crater in India and the revelations in the Ramayana and Mahabharata, two ancient Sanskrit texts that describe nuclear warfare thousands of years ago.
