The Book of Talismans, Amulets, and Zodiacal Gems William Thomas Pavitt,Kate Pavitt,1922

The Book of Talismans, Amulets and Zodiacal Gems William Thomas,Kate Pavitt,2023-11-23 This is the study of the symbolic meaning of precious stones and how they have been used as magical objects in various eras, whether in essence or as a vehicle for symbolic carvings. This book covers the history of gems from the prehistoric times, through the meaning of valuable talismans of China, Tibet, India, Japan... the sacred gem stones of Judaism, Egypt, Rome, Gnosticism and Christianity. This work also includes the history of many important, often cursed gems, and practical advice on buying gems. For anyone interested in the symbolic meaning of precious stones, this is a good reference book and a fascinating reading.

Talismans, Amulets and Zodiacal Gems William thomas,Kate Pavitt,2014-12-21 The subject of Talismans and Gems of the Zodiac covers a wide area, and the difficulty of arriving at a definite conclusion is increase because of the varying opinions between writers on these subjects as to the stones referred to, or intended by the Ancients, complicated still further by the different languages from which these records have been translated, and where Month or Zodiacal gems are referred to many of the writers are obviously unacquainted with Astrology or Astronomy. The present volume, being the result of many years of study and research, it is not easy in all cases to specify the original source of our information, which has been collected, not only from ancient and modern writings, but also from personal experience and experiments, noted at the time they occurred, long before this book was contemplated

For millennia, magicians and astrologers, familiar with celestial magic, knew that precious stones held an important key for the maintenance of health and wellbeing. During the Age of Reason this knowledge was lost. Now, nearly 400 years later drawing from ancient sources, Peter Stockinger's astro-magical lapidary invites you to re-discover this long-lost knowledge and to learn how to utilise the magical and therapeutic powers of gems. - Read the in-depth descriptions of 30 gemstones and crystals revealing their hidden lore, and discover their practical use from antiquity; - Study real-life cases that demonstrate

how to use the beneficial powers of crystals and gemstones; - Learn how to find your perfect gem, create gemstone talismans and manufacture lucky fixed star rings. The lapidary also contains a thorough introduction to the subject of traditional astrology, a therapeutic index and a detailed glossary.

The Book of Talismans, Amulets and Zodiacal Gems (Classic Reprint) William Thomas, 2018-04-23 Excerpt from The Book of Talismans, Amulets and Zodiacal Gems We have endeavoured throughout to make the subjects dealt with as interesting as possible, believing that the symbols expressing the faiths of bygone days form the basis of occult forces, a proper understanding of which is becoming more and more recognised by scientists as necessary in the interests of progress at the present day. It will be noticed that many of the gems have similar qualities attributed to them which, according to the ancient authorities, were specifically arranged for the benefit of those types whose planetary aspects brought them into harmony with the particular stone specified. The Magic and Science of Jewels and Stones Isidore Kozminsky, 1922

The Healing Power of Gemstones Harish Johari, 1996-09-01 Drawing on the ancient Hindu disciplines of Tantra and Ayurveda, as well as astrology and his own family tradition of gemology, Harish Johari offers practical methods to utilize the power stored in gems to maximize physical and psychological balance and well-being. The origins of gem healing can be traced to the earliest Sanskrit scriptures, in which gems are valued for their ability to absorb and transmit vital life forces. Ayurvedic healers, Indian astrologers, and Tantric alchemists all made use of gem formulas in their various practices. The author describes these in vivid detail as well as the attributes and powers of the sun and planets according to Hindu astrology and legend as they relate specifically to the use of gems. Here they play a critical role in enhancing the positive power of the planets and reducing their negative influence. Charts are included that determine the appropriate gems to be worn according to one's astrological sun sign and ascendant. Detailed instructions necessary for the creation of gem talismans and the rituals that use gems to obtain desired effects are also supplied by the author. The Healing Power of Gemstones, the most comprehensive survey of this subject available today, is both a practical guide to the chemical and subtle nature of gemstones and a traditional overview of their use throughout the ages.

The Book of Talismans, Amulets, and Zodiacal Gems William Thomas Pavitt, 2012-01 Unlike some other reproductions of classic texts (1) We have not used OCR (Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Celestial Gems and Sigils - De Lapidibus and Liber Sigillorum - Talismanic Lapidaries of Damigeron and Techel Regulus Hess,Christopher Warnock,2023-05-21 Celestial Gems & Sigils is a comprehensive translation of the variant manuscripts of De Lapidibus, On Stones and the Liber Sigillorum, the Book of Sigils the most important medieval magical lapidaries. Lapidaries are key esoteric texts giving the physical characteristics as well as medical, magical and spiritual powers of stones and minerals. While the manuscripts used for the translation date to the Middle Ages, the origin of these texts is much older. Lost in the mists of antiquity they are a priceless source of ancient esoteric lore. The translator, Regulus Hess, consulted many sources and parallel texts to provide a comprehensive and definitive edition of De Lapidibus and the Liber Sigillorum with over 400 footnotes and an exhaustive discussion of the relevant sources. The wisdom of the ancients regarding the occult virtues and magical powers of over 100 gems and minerals is now laid open in Celestial Gems & Sigils. But in addition to the properties of stones, Celestial Gems & Sigils provides extensive astrological attributions and magical talismanic images. An astrological magic commentary is provided by Christopher Warnock, who has been called the father of the traditional astrological magic revival and the elder statesman of astrological magic and has written and published many books on astrological magic and traditional astrology. In his commentary Warnock traces the use of images from the Liber Sigillorum for astrological talismans in Picatrix and Cornelius Agrippa's Three Books of Occult Philosophy. Also included is Warnock' Grimoire of the Seven Planets, containing talisman recipes inspired by the Liber Sigillorum with special talismanic images by Holly Ellis. Warnock explains how contemporary practitioners of medieval/Renaissance astrological magic can use the Liber Sigillorum & the Grimoire of the Seven Planets to create astrological talismans that are new, yet firmly within the tradition. Celestial Gems & Sigils is an exciting product of the 21st century Hermetic Renaissance of esoteric arts, yet firmly rooted in this ancient tradition.
