*e-Services* Alfredo M. Ronchi,2019-04-17 This book explores various e-Services related to health, learning, culture, media and the news, and the influences the Web and related technologies have had and continue to have in each of these areas, both on service providers and service users. It provides insights into the main technological and human issues regarding healthcare, aging population, recent challenges in the educational environment, the impact of digital technologies on culture and heritage, cultural diversity, freedom of expression, intellectual property, fake news and, last but not least, public opinion manipulation and ethical issues. Its main aim is to bridge the gap between technological solutions, their successful implementation, and the fruitful utilization of the main set of e-Services mostly delivered by private or public companies. Today, various parameters actively influence e-Services' success or failure: cultural aspects, organisational and privacy issues, bureaucracy and workflows, infrastructure and technology in general, user habits, literacy, capacity or merely interaction design. This includes having a significant population of citizens who are willing and able to adopt and use online services; as well as developing the managerial and technical capability to implement applications that meet citizens' needs. This book helps readers understand the mutual dependencies involved; further, a selection of success stories and failures, duly commented on, enables readers to identify the right approach to innovation in areas that offer the opportunity to reach a wide audience with minimal effort. With its balanced humanistic and technological approach, the book mainly targets public authorities, decision-makers, stakeholders, solution developers, and graduate students.

*AC/E Digital Culture Annual Report* Robin Good,Roberto Carreras,Eva Snijders,Antonio Rojas Castro,Pedro Diezma,Ximo Lizana,Clara Fernández Vara,David Ruiz Torres,2017-05-22 Acción Cultural Española's fourth edition of the AC/E Digital Culture Annual Report follows an editorial policy of familiarising professionals of the culture sector with the main digital trends they need to be aware of over the coming years. Since 2015, a committee has been advising us on the choice of subjects and authors for the first part of the report. This year, a group of experts analyse issues such as content curation as a means of tackling digital overload, neuroscience applied to technology, the latest advances in artificial intelligence, the Internet of Things and Big Data applied to culture, and the use of digital technology in music. Each year's edition also includes a field study: the Focus, which reports on cases of good practice in digital technology in a specific discipline. The first edition examined the impact of digital in the world of the performing arts; the second focused on museums; and the third on the use of digital devices at fifty Spanish and international culture festivals. This fourth edition surveys in depth the use of digital technology in the conservation, analysis and dissemination of our cultural heritage. This sector is rapidly growing, leading to a radical change in methodologies and formats which the author, David Ruiz Torres, analyses exhaustively.

**Rude Awakenings** Turquoise Grace, There's no one in her life that Kate Grayson despises more than Colton James; he's inconsiderate, rude, irresponsible and perverted, and yet he has an effect on her she can't even begin to explain. Determined not to fall for the resident bad boy, Kate falls into a vicious cycle of being pulled into his attractive charm before forcing herself to stay away. For his part, Colton finds Kate intriguing and when he warns his friend away from her, he realizes that perhaps her lack of desire for him only enhances his own desire for her.

*Hadrian and the Triumph of Rome* Anthony Everitt,2009-09-01 “A fascinating insight into the mind of the Roman emperor.”—Sunday Telegraph (London) Born in A.D. 76, Hadrian lived through and ruled during a tempestuous era, a time when the Colosseum was opened to the public and Pompeii was buried under a mountain of lava and ash. Acclaimed author Anthony Everitt vividly recounts Hadrian’s thrilling life, in which the emperor brings a century of disorder and costly warfare to a peaceful conclusion while demonstrating how a monarchy can be compatible with good governance. What distinguished Hadrian’s rule, according to Everitt, were two insights that inevitably ensured the empire’s long and prosperous future: He ended Rome’s territorial expansion, which had become strategically and economically untenable, by fortifying her boundaries (the many famed Walls of Hadrian), and he effectively “Hellenized” Rome by anointing Athens the empire’s cultural center, thereby making Greek learning and art vastly more prominent in Roman life. By making splendid use of recently discovered archaeological materials and his own exhaustive research, Everitt sheds new light on one of the most important figures of the ancient world.

**The Heretic** Miguel Delibes,2007-03-27 A young man’s fate is tied to the Protestant Reformation—and the violent upheaval that follows—in this prize-winning novel of sixteenth-century Spain. On October 31st, 1517, Martin Luther nails his ninety-five theses to a church door and launches the movement that will divide the Roman Catholic Church. On that same day, a child is born in the Spanish city of Valladolid. The young Cipriano Salcedo's fate is marked by the political and religious upheaval taking root across Europe. Cipriano grows up to become a prosperous merchant and joins the Reformation movement, which is secretly advancing on the Iberian Peninsula, the historical bastion of the Catholic church. But before long, the Spanish Inquisition will drive the Reformers to put their lives at stake. Through Cipriano’s story, Delibes paints a masterful portrait of the time of Spain's Charles V and recreates the social and intellectual atmosphere of Europe at one of history's most pivotal moments. Winner of Spain’s Premio Nacional de Narrativa
