The Andromeda Project Jason Primrose, 2016-03-08
The Cluster Chronicles is a series detailing the
events that lead to fall of the Universe as we
know it. It begins on Earth where an alien has
escaped a war raging in the Andromeda Galaxy and
sought temporary refuge in the Milky Way, 2.5
million light years from his enemies. But his
arrival into the Sun System means our immediate
future has one of two results, human evolution or
extinction. The fallen King warns of ancient power
hidden beneath Earth's crust. The world's
strongest governments form the Andromeda Project
to fund an initiative to obtain a power they can't
UNDERSTAND or CONTROL. This power holds the key to
much needed advancement in human capabilities.
Time is running out, we must evolve. In 2026 A.D.,
over thirty years after the arrival, Allister
Adams faces all of the woes of young adulthood;
Amnesia from childhood trauma, an emotionally
distant mother and the loss of purpose that comes
with being stifled by peers and authorities. In a
final effort, the secret organization has
approached Allister to see if he qualifies for
their group of recruits tasked with locating the
alien gems hidden on Earth. But the Andromeda
Project isn't the only organization after the gems
and they aren't the only organization after
Allister either. How do you decide between who's

right, who's wrong and what's necessary? THERE ARE NO HEROES. THERE ARE NO VILLAINS. THERE IS ONLY SELF-PRESERVATION. *Print Version Features Illustrations! We encourage honest reviews!

Ovid's Metamorphoses Elaine Fantham, 2004-07-15 Oxford Approaches to Classical Literature (Series Editors: Kathleen Coleman and Richard Rutherford) introduces individual works of Greek and Latin literature to readers who are approaching them for the first time. Each volume sets the work in its literary and historical context, and aims to offer a balanced and engaging assessment of its content, artistry, and purpose. A brief survey of the influence of the work upon subsequent generations is included to demonstrate its enduring relevance and power. All quotations from the original are translated into English. Ovid's Metamorphoses have been seen as both the culmination of and a revolution in the classical epic tradition, transferring narrative interest from war to love and fantasy. This introduction considers how Ovid found and shaped his narrative from the creation of the world to his own sophisticated times, illustrating the cruelty of jealous gods, the pathos of human love, and the imaginative fantasy of flight, monsters, magic, and illusion. Elaine Fantham introduces the reader not only to this marvelous and complex narrative poem, but to the Greek and Roman traditions behind Ovid's tales of transformation and a selection of the images and texts that it inspired.

Journey to Andromeda Giacinto Pira, 2000-01-01 Explore humanity's futuristic attempt to control destiny, at all costs, in a time that is plagued

by individuals having no scruples when it comes to getting their way, especially when commanding the technology to quite possibly achieve it. It is now the Twenty-Sixth Century. Although humanity has overcome the average, everyday problems associated with life on Earth and abroad, some annoyances still remain. 'Abnormal' human behavior, including racial and religious prejudices, are controlled by the oppressive World Government, but are still a part of the human condition. Mankind's environment has changed, but the human heart has not. Space travel is widespread and common-place throughout the Milky Way Galaxy. Numerous habitable and adaptable planets are populated with humans from Earth. Great efforts had been undertaken to find alien life, but the only ones found were the beasts within humans.

The Andromeda Incident R. J. DeNardo, 2012-05-28
This Sci-Fi fantasy gives a whole new meaning to the word "Galacti-sexual." Emrys Myrddin Calyx was born aboard the Starship Americus to a weak-willed and somewhat frail earthling father and a black panther-like humanoid, Myrddissian mother. Emrys was created experimentally to be double-sexed, and can change sexes at will, via a telepathic command. The Andromeda Incident (or Out of Chaos Comes Hope!) tells all about the mixed-up life Emrys lives, and his adventures and misadventures in the 12th. and 21st. centuries. Wander the universe with Emrys as he uses a time/space continuum device to journey to the devastated planets of Mars and Earth, just before both human and alien-caused cataclysmic events occur. This startling adventure was 900 years in the making!

Andromeda's Chains Adrienne Munich, 1989 Applying feminist theory to some lesser-known works by well known authors and painters, Munich (English, SUNY, Stony Brook) explores the psychological and cultural implications of the Victorian (male) treatment of the Perseus and Andromeda myth and its medieval analog, the legend of St. George and the dragon. With 31 photographs of the works discussed. Annotation copyright by Book News, Inc., Portland, OR

Andromeda's Choice William C. Dietz, 2013-12-03 Andromeda McKee rebuilt her life in the violent embrace of the Legion of the Damned in the days when cyborgs were first being introduced. Now she must choose between her conscience and her desire for vengeance... In a different world, Lady Catherine "Cat" Carletto would never have left her pampered life behind. But when Princess Ophelia became Empress Ophelia in a coup that claimed the lives of the princess's brother and all who supported him, including the Carletto family, Cat had to hide—or die. She became Legionnaire Andromeda McKee, and now she's a battle-scarred veteran who knows how to kill. Summoned to Earth to receive the Imperial Order of Merit from the empress herself, Andromeda learns that she isn't the sole surviving Carletto—her uncle Rex is not only still alive but also the leader of a resistance group determined to overthrow Ophelia. Caught up in a web of intrigue, Andromeda realizes that the moment is coming when her revenge will be at hand. But will she be able to act, or will she be betrayed by those she has come to trust?

Lost Children of Andromeda Jason Primrose,2018-04-12 An alien refugee. An infinite energy. An approaching apocalypse.The Lost Children of Andromeda begins in 2052 AD. Allister Adams, a young superhuman, lives in a post-apocalyptic Earth where compassion has been left behind with understanding and perspective. Natural

Allister searches for Zosma Caster, a missing intergalactic refugee, and the vessel for an otherworldly energy source from the Andromeda Galaxy. According to C20, this energy source promises our planet's salvation. But at what price? As he fights his way to the truth about Zosma's power and C20's motives, he realizes there is no truth, only perception.

Daughter of Gods and Shadows Jayde

Brooks, 2015-02-03 Life can be tough sometimes for Eden Moore. Still shy and awkward at twenty-four, she hoped she would grow out of some of the traits that always defined her. Like not knowing what to say to attractive men. Or not being the reincarnation of an ancient being. But despite her wishes, Eden's destiny has been set in motion thousands of years before her existence. A demon her previous-self defeated millennia ago is now back on Earth and regaining strength. In order to keep her world from being annihilated out of

existence, she is going to have to dig deep for her powers and unite with Prophet, a dangerously-handsome Ancient with whom her past and future are forever linked. Challenges abound and the battles rage on, and only Eden can keep the world firmly on its axis.--

The Thread of Andromeda Henry Smith,2012-02-09
The Clins have been at war with the final moral people of the universe for millennia, and have long ago driven them from their home galaxy to Andromeda, then confined them to a small group of planets orbiting a small number of stars, where they formed the Republic of Andromeda. The Clins evil intent is to finally destroy the Republic of Andromeda. Two fleets recently went out to intercept a Clin force moving toward the Republic of Andromeda, and its two principle planets, Roma and Greeco. These fleets were not heard from since, and presumed lost.

Gene Roddenberry's Andromeda: Waystation Steven E. McDonald,2007-04-01
The Andromeda Ascendant is the last surviving ship of the long-dead Systems Commonwealth interstellar empire. It's captain, Dylan Hunt, with the crew of the Eureka Maru, has

been trying to contact outlying planets who might rejoin the revived Commonwealth. But one such planet responds to the Andromeda's friendly advances with an all-out attack that cripples the Andromeda. Fleeing on the limited power that the ship can muster, Hunt, Beka Valentine and the rest of the crew seek a resupply depot, but none is near enough for them to reach before repairs, except for an abandoned station, uninhabited since the collapse of the empire. When Hunt, systems analyst Seamus Harper, and Andromeda's AI Rommie get into the station, they find it's not quite uninhabited. Strange presences assail them. Something very dark, evil, and entirely unknown. And while they try to get what they need without being killed by whatever is lurking on the station, something is attacking the Andromeda itself. There's plenty of action and suspense before this routine resupply mission can be finished . . . if it can be finished.
