Jump-rope Rhymes Roger D. Abrahams, 2014-02-15 I had a little brother. His name was Tiny Tim. I put him in the bathtub To teach him how to swim. He drank all the water. He ate all the soap. He died last night With a bubble in his throat. Jump-rope rhymes, chanted to maintain the rhythm of the game, have other, equally entertaining uses: You can dispatch bothersome younger siblings instantly—and temporarily. You can learn the name of your boyfriend through the magic words Ice cream soda, Delaware Punch, Tell me the initials of my honey-bunch. You can perform the series of tasks set forth in Teddy Bear, Teddy Bear, turn around and find out who, really, is the most nimble. You can even, with impunity, conk your teacher on the bean with a rotten tangerine. This collection of over six hundred jump-rope rhymes, originally published in 1969, is an introduction into the world of children—their attitudes, their concerns, their humor. Like other children's folklore, the rhymes are both richly inventive and innocently derivative, ranging from on-the-spot improvisations to old standards like Bluebells, cockleshells, with a generous sprinkling of borrowings from other play activities—nursery rhymes, counting-out rhymes, and taunts. Even adult attitudes of the time are appropriated, but expressed with the artless candor of the child: Eeny, meeny, miny, moe. Catch Castro by the toe. If he hollers make him say I surrender, U.S.A. Though aware that children's play serves social and psychological functions, folklorists had long neglected analytical study of children's lore

because primary data was not available in organized form. Roger Abraham's Dictionary has provided such a bibliographical tool for one category of children's lore and a model for future compendia in other areas. The alphabetically arranged rhymes are accompanied by notes on sources, provenience, variants, and connection with other play activities.

Oppenheimer Is Watching Me Jeff Porter,2007-09

When he discovers that his father worked on missiles for a defense contractor, Jeff Porter is inspired to revisit America's atomic past and our fallen heroes, in particular J. Robert Oppenheimer, the father of the atomic bomb. The result, *Oppenheimer Is Watching Me*, takes readers back to the cold war, when men in lab coats toyed with the properties of matter and fears of national security troubled our sleep. With an eye for strange symmetries, Porter traces how one panicky moment shaped the lives of a generation.

Jumping at Shadows Sasha Abramsky,2017-09-05 Why is an unarmed young black woman who knocks on a stranger's front door to ask for help after her car breaks down perceived to be so threatening that he shoots her dead? Why do we fear infrequent acts of terrorism more far more common acts of violence? Why does a disease like Ebola, which killed only a handful of Americans, provoke panic, whereas the flu--which kills tens of thousands each year--is dismissed with a yawn? *Jumping at Shadows* is Sasha Abramsky's searing account of America's most dangerous epidemic: irrational fear. Taking readers on a dramatic journey through a divided nation, where everything from immigration to disease, gun control to health care has become fodder for fearmongers and conspiracists, he delivers an eye-popping analysis of our misconceptions about risk and threats. What emerges is a shocking portrait of a political and

cultural landscape that is, increasingly, defined by our worst fears and rampant anxieties. Ultimately, Abramsky shows that how we calculate risk and deal with fear can teach us a great deal about ourselves, exposing deeply ingrained strains of racism, classism, and xenophobia within our culture, as well as our growing susceptibility to the toxic messages of demagogues.
