Branding on the Eastern Front: The Quest of a Brand Consultant in the New Europe Aneta Bogdan,2019-04-10 Branding on the Eastern Front is both a testimony of how Western-born approaches must adapt to emerging economies, and a crash course in branding and leadership for entrepreneurs, marketers, and contemporary consumers of any kind. The late great branding master Wally Olins said in the Foreword to the book What is fascinating about the work that my very good friend Aneta Bogdan has been doing for the last dozen years or so is that it seeks not only to create brands in a country in which they had no existence at all for fifty or more years, but that she has done it with such verve, intelligence and creativity. The book is a premier, Eastern view on the debate around the transformative power of branding, including relevant case studies, and an insight into the emergent corporate and entrepreneurial milieus. The author is never average: cynical and idealistic, authoritarian and inspirational-a fresh, break-the-rules storyteller with a speculative and passionate discourse. All in all, the book is a keen practitioner's candid account about the assimilation and development of brands and branding in post-communist Eastern Europe and other emergent markets - in a time when Western-born principles of branding are being tried and tested, not only by their new grounds, but also by the changing times.

Welcome to America LINDA BOSTROM. KNAUSGAARD,2019-10-05 Ellen's stopped talking. She thinks she may have killed her dad. Her brother's barricaded himself in his room. Their mother, a successful actress, carries on as normal. We're a family of light! she insists. But darkness seeps in everywhere and in their separate worlds each of them longs for togetherness. Welcome to America is a scintillating portrait of a sensitive, strong-willed child and a young mind in the throes of trauma, a family on the brink of implosion, and the love that threatens to tear them apart.

Can't Buy My Love Jean Kilbourne,2012-06-26 When was the last time you felt this comfortable in a relationship? -- An ad for sneakers You can love it without getting your heart broken. -- An ad for a car Until I find a real man, I'll settle for a real smoke. -- A woman in a cigarette ad Many advertisements these days make us feel as if we have an intimate, even passionate relationship with a product. But as Jean Kilbourne points out in this fascinating and shocking exposé, the dreamlike promise of advertising always leaves us hungry for more. We can never be satisfied, because the products we love cannot love us back. Drawing upon her knowledge of psychology, media, and women's issues, Kilbourne offers nothing less than a new understanding of a ubiquitous phenomenon in our culture. The average American is exposed to over 3,000 advertisements a day and watches three years' worth of television ads over the course of a lifetime. Kilbourne paints a gripping portrait of how this barrage of advertising drastically affects young people, especially girls, by offering false promises of rebellion, connection, and control. She also offers a surprising analysis of the way advertising creates and then feeds an addictive mentality that often continues throughout adulthood.

Brands and Branding Rita Clifton,2009-04-01 With contributions from leading brand experts around the world, this valuable resource delineates the case for brands (financial value, social value, etc.) and looks at what makes certain brands great. It covers best practices in branding and also looks at the future of brands in the age of globalization. Although the balance sheet may not even put a value on it, a company's brand or its portfolio of brands is its most valuable asset. For well-known companies it has been calculated that the brand can account for as much as 80 percent of their market value. This book argues that because of this and because of the power of not-for-profit brands like the Red Cross or Oxfam, all organisations should make the brand their central organising principle, guiding every decision and every action. As well as making the case for brands and examining the argument of the anti-globalisation movement that brands are bullies which do harm, this second edition of Brands and Branding provides an expert review of best practice in branding, covering everything from brand positioning to brand protection, visual and verbal identity and brand communications. Lastly, the third part of the book looks at trends in branding, branding in Asia, especially in China and India, brands in a digital world and the future for brands. Written by 19 experts in the field, Brands and Branding sets out to provide a better understanding of the role and importance of brands, as well as a wealth of insights into how one builds and sustains a successful brand.

The Science and Art of Branding Giep Franzen,Sandra E. Moriarty,2015-02-12 This innovative work provides a state-of-the-art overview of current thinking about the development of brand strategy. Unlike other books on branding, it approaches successful brand strategy from both the producer and consumer perspectives. The Science and Art of Branding makes clear distinctions among the producer's intentions, external brand realities, and consumer's brand perceptions - and explains how to fit them all together to build successful brands. Co-author Sandra Moriarty is also the author of the leading Principles of Advertising textbook, and she and Giep Franzen have filled this volume with practical learning tools for scholars and students of marketing and marketing communications, as well as actual brand managers. The book explains theoretical concepts and illustrates them with real-life examples that include case studies and findings from large-scale market research. Every chapter opens with a mini-case history, and boxed inserts featuring quotes from experts appear throughout the book. The Science and Art of Branding also goes much more deeply than other works into the core concept of brand equity, employing new measurement systems only developed over the last few years.

Consensus Design Rosie Parnell,Christopher Day,2007-06-07 Consensus Design offers a practical step by step guide to co-design; an increasingly important consideration for architects as they compete for work. The text moves from identifying the methodology of the process to developing a series of principles and practical steps which illustrate how consensus design can be established. For easy reference, flow charts show the process of achieving consensus design and include variations for different types of project and different groups of people. It gives clear timings so that agreements can be reached within a specific time frame, and also features a number of case studies to illustrate consensus design principles in practice. Case studies include projects in the UK, US, and Sweden. Consensus design isn't just a utopian ideal. It's the only meaningful way in which people can be involved in shaping where they live and work. It can have an influence on social stability, crime-reduction, personal health and building longevity, all of which in turn have monetary and environmental cost implications. Its consideration can also greatly help architects win work and commissions. Day argues that when places are designed by professionals for people, many things obvious to the residents are overlooked. When they are designed by lay people, the design can suffer from the lowest common denominator factor. When places are designed by both it tends to end up in conflict. However, Consensus Design shows that co-design is not doomed to either conflict or banality if it is managed correctly.

All the Lives We Never Lived Anuradha Roy,2019-10-15 From the Man Booker Prize-nominated author of Sleeping on Jupiter and “one of India’s greatest living authors” (O, The Oprah Magazine), a poignant and

sweeping novel set in India during World War II and the present day about a son’s quest to uncover the truth about his mother. In my childhood, I was known as the boy whose mother had run off with an Englishman. The man was in fact German, but in small-town India in those days, all white foreigners were largely thought of as British. So begins the “gracefully wrought” (Kirkus Reviews) story of Myshkin and his mother, Gayatri, who rebels against tradition to follow her artist’s instinct for freedom. Freedom of a different kind is in the air across India. The fight against British rule is reaching a critical turn. The Nazis have come to power in Germany. At this point of crisis, two strangers arrive in Gayatri’s town, opening up to her the vision of other possible lives. What took Myshkin’s mother from India and Dutch-held Bali in the 1930s, ripping a knife through his comfortingly familiar universe? Excavating the roots of the world in which he was abandoned, Myshkin comes to understand the connections between the anguish at home and a war-torn universe overtaken by patriotism. Evocative and moving, “this mesmerizing exploration of the darker consequences of freedom, love, and loyalty is an astonishing display of Roy’s literary prowess” (Publishers Weekly).

Market-Driven Management Jean-Jacques Lambin,Isabelle Schuiling,2012-07-19 Market-Driven Management adopts a broad approach to marketing, integrating the strategic and operational elements of the discipline. Lambin's unique approach reflects how marketing operates empirically, as both a business philosophy and an action-oriented process. Motivated by the increased complexity of markets, globalisation, deregulation, and the development of e-commerce, the author challenges the traditional concept of the 4Ps and the functional roles of marketing departments, focusing instead on the concept of market orientation. The book considers all of the key market stakeholders, arguing that developing market relations and enhancing customer value is the responsibility of every member of the organization, and that the development of this customer value is the only way for a firm to achieve profit and growth. New to this edition: - Greater coverage of ethical issues and corporate social responsibility; cultural diversity; value and branding and the economic downturn - Broad international perspective - Thoroughly revised to reflect the latest academic thinking and research With its unique approach, international cases and complementary online resources, this book is ideal for postgraduate and upper level undergraduate students of marketing, and for MBAs and Executive MBAs.

4-D Branding Thomas Gad,2001 This work offers a universal model (4-D branding) which can be used to create new brands or revitalise existing ones. It identifies four brand characteristics - functional, social, mental and spiritual.
