Twenty Million Angry Men James M. Binnall,2021-02-16 Today, all but one U.S. jurisdiction restricts a convicted felon's eligibility for jury service. Are there valid, legal reasons for banishing millions of Americans from the jury process? How do felon-juror exclusion statutes impact convicted felons, jury systems, and jurisdictions that impose them? *Twenty Million Angry Men* provides the first full account of this pervasive yet invisible form of civic marginalization. Drawing on extensive research, James M. Binnall challenges the professed rationales for felon-juror exclusion and highlights the benefits of inclusion as they relate to criminal desistance at the individual and community levels. Ultimately, this forward-looking book argues that when it comes to serving as a juror, a history of involvement in the criminal justice system is an asset, not a liability.

Outlaw Women Susan Dewey,Bonnie Zare,Catherine Connolly,Rhett Epler,Rosemary Bratton,2019-08-06 A journey into the experiences of incarcerated women in rural areas, revealing how location can reinforce gendered violence Incarceration is all too often depicted as an urban problem, a male problem, a problem that disproportionately affects people of color. This book, however, takes readers to the heart of the struggles of the outlaw women of the rural West, considering how poverty and gendered violence overlap to keep women literally and figuratively imprisoned. *Outlaw Women* examines the forces that shape women's experiences of incarceration and release from prison in the remote, predominantly white communities that many Americans still think of as "the Western frontier." Drawing on dozens of interviews with women in the state of Wyoming who were incarcerated or on parole, the authors provide an in-depth examination of women's perceptions of their lives before, during, and after imprisonment. Considering cultural mores specific to the rural West, the authors identify the forces that consistently trap women in cycles of crime and violence in these regions: felony-related discrimination, the geographic isolation that traps women in abusive relationships, and cultural stigmas surrounding addiction, poverty, and precarious interpersonal relationships. Following incarceration, women in these areas face additional, region-specific obstacles as they attempt to reintegrate into society, including limited social services, significant gender wage gaps, and even severe weather conditions that restrict travel. The book ultimately concludes with new, evidence-based recommendations for addressing the challenges these women face.

Essentials of Clinical Psychopharmacology Alan F. Schatzberg, Charles B. Nemeroff, 2013 This third edition of *Essentials of Psychopharmacology* is, like its predecessors, based on the premier textbook in the field, *The American Psychiatric Publishing Textbook of Psychopharmacology*, now in its fourth edition. The *Essentials* format is designed to deliver core knowledge to the busy trainee or practitioner in a succinct and accessible manner. *Essentials of Psychopharmacology* provides a complete overview of clinically focused pharmacotherapeutic principles of vital interest to psychiatry residents, primary care physicians, and other health care professionals. Updated with the latest research findings since the publishing of the fourth edition, *Essentials* features new chapters on recently introduced medications and updated chapters on others. The book is divided into two parts: *Classes of Psychiatric Treatments*, which systematically reviews psychotropic medications within each drug class (e.g., antidepressants and anxiolytics, antipsychotics), and *Psychopharmacological Treatment*, which outlines current pharmacotherapeutic approaches in the major psychiatric disorders as well as in specific patient populations. Although the latter part has been streamlined in this new edition, coverage of critical information such as approved indications, drug interactions, side effects, and other prescribing factors remains comprehensive. Clinicians seeking a reliable reference and guide to the core knowledge base and practice of clinical psychopharmacology can do no better than this new edition of *Essentials of Psychopharmacology*.

German Secret Flight Test Centres to 1945 Heinrich Beauvais, 2002 This is a major piece of research by a group of German authors, some of whom were involved at the time, into the establishment and activities of government flight-test centres in Germany from the resumption of flight testing in the 1920s until the end of the Second World War. Their work will be of outstanding interest to students of the Second World War and the

Luftwaffe. The authors begin with the secret testing in co-operation with the Red Army in the 1920/30s. The book deals with the major locations where testing was conducted including Johannisthal, Lipetsk, Rechlin, Travemunde, Tarnowitz and Peenemunde-West. Other less well known locations including early experimentation at Doberitz and Danzig are also covered. The book draws on an extensive collection of photographs and documents, many taken from hitherto unpublished sources. There are also comprehensive listings of the aircraft used, with such details as Werknummern, markings and engines. There are similarly detailed lists of personnel and the various research and test units. There is still enormous interest in the Luftwaffe and especially in the experimental aircraft which were produced and tested in Germany during the period of the Third Reich. This book will appeal directly to this market and achieve the same success of other Midland titles dealing with this area of aviation history.

The Queen of Technicolor Tom Zimmerman, 2022-07-26 Best known for her appearances in the six Technicolor Neverland movies, Maria Montez is a film icon. Growing up as one of ten children in the Dominican Republic, her rise as a film star in the United States seemed unlikely. In 1939, Montez set off on her own to New York City to fulfill her aspirations of movie stardom. Despite having no substantial acting experience, Montez managed to sign with major agent Louis Schurr who helped her secure a contract with Universal Studios before she moved out to Hollywood. Following her arrival in Los Angeles, Montez began cultivating the larger-than-life persona for which she is known. Her beauty, personality, and series of publicity antics, including dramatic restaurant entrances, endeared her to the press. She even created her own fan club—The Montez for Stardom Club. Her ambitious self-promotion bolstered the success she found with her first big lead in *Arabian Nights*, released in 1943. From then on, the studio referred to her as The Queen of Technicolor. Author Tom Zimmerman puts Montez's life in historical context, including her role as a cultural icon and a living representation of the United States' Good Neighbor Policy with Latin American countries. With her thick Dominican accent, Montez struggled to make herself intelligible to an American audience. However, unlike some of her Latin contemporaries, she did not present a caricature of her culture or use her accent for comedic purposes, giving her credibility with a Latin American audience. Zimmerman skillfully recounts the story of Montez's fiery ambition and her ascent to Hollywood fame, giving her the opportunity to live on in public memory.
