Building Blocks of Tabletop Game Design Geoffrey Engelstein, Isaac Shalev, 2022-03-02 If games were lands to be explored, they would be far too large for one explorer to master. Building Blocks of Tabletop Game Design is a much-needed atlas for the explorer—giving a framework of what to look for in a game, and a focus for game play that will be useful for understanding the whole. The game scholar will find this invaluable. —Richard Garfield, creator of Magic: The Gathering People talk about the art of game design or the craft of game design. Engelstein and Shalev hone in on the science of game design with a razor-sharp scalpel. This book will be within arm's reach as I work on games and I expect it to be consulted often. —Rob Daviau, creator of Risk: Legacy and Chief Restoration Officer of Restoration Games The most comprehensive and well-researched encyclopedia of game mechanisms that I've seen to date. —Matt Leacock, creator of Pandemic Building Blocks of Tabletop Game Design: An Encyclopedia of Mechanisms, Second Edition compiles hundreds of game mechanisms, organized by category. The book can be read cover-to-cover and used as a reference to solve a specific design problem or for inspiration and research on new designs. This second edition collects even more mechanisms, expands on and updates existing entries, and includes color images. Building Blocks is a great starting point for new designers, a handy guidebook for the experienced, and an ideal classroom reference. Each Game Mechanisms Entry Contains: The definition of the mechanism An explanatory diagram of the mechanism Discussion of how the mechanism is used in successful games Considerations for implementing the mechanism in new designs Geoffrey Engelstein is a game designer and educator. His designs include the Space Cadets series, The Dragon & Flagon, The Expanse, and Super Skill Pinball. He has published several books on game design, including GameTek: The Math and Science of Gaming, Achievement Relocked, and Game Production. He is on the faculty of the NYU Game Center as an adjunct professor for Board Game Design and has been invited to speak about game design at PAX, GenCon, Metatopia, and the Game Developers Conference. Isaac Shalev is a game designer, author, and educational games consultant. He has designed tabletop titles including Seikatsu, Waddle, and Show & Tile. Bloomsbury CPD Library: Supporting Children with Special Educational Needs and Disabilities Cherryl Drabble, Bloomsbury CPD Library, 2016-09-22 According to the most recent SEND Code of Practice, every teacher is a teacher of children with special educational needs and disabilities, and yet teachers often receive little or no training in this area. Despite their best

intentions they are therefore often ill-equipped to rise to the challenge of helping their students achieve the best possible educational outcomes. This comprehensive resource will equip primary and secondary teachers and SENDCos with the training and skills they need to fully support children with SEND in mainstream classrooms. Cherryl Drabble draws on her vast experience as a CPD leader, NQT mentor and her many years of working with SEND to share guidance, practical activities and strategies for evaluating and strengthening your practice and that of your colleagues. The book provides a set of ready-to-use training plans, accompanied by PowerPoint slides available to download online for free, so you can train your colleagues in this essential area and ensure the best support possible for students with SEND across your school. In total, the book offers over 50 hours of CPD, equating to a cost of less than 50p per hour of training!
