Religious Violence in the Ancient World Jitse H. F. Dijkstra,Christian R. Raschle,2020-10-01 Much like our world today, Late Antiquity (fourth-seventh centuries CE) is often seen as a period rife with religious violence, not least because the literary sources are full of stories of Christians attacking temples, statues and 'pagans'. However, using insights from Religious Studies, recent studies have demonstrated that the Late Antique sources disguise a much more intricate reality. The present volume builds on this recent cutting-edge scholarship on religious violence in Late Antiquity in order to come to more nuanced judgments about the nature of the violence. At the same time, the focus on Late Antiquity has taken away from the fact that the phenomenon was no less prevalent in the earlier Graeco-Roman world. This book is therefore the first to bring together scholars with expertise ranging from classical Athens to Late Antiquity to examine the phenomenon in all its complexity and diversity throughout Antiquity.

Who governs Britain? Sam Warner,2023-04-25 Providing fresh insights from the archival record, Who governs Britain? revisits the 1970-74 Conservative government to explain why the Party tried – and failed – to reform the system of industrial relations. Designed to tackle Britain’s strike problem and perceived disorder in collective bargaining, the Industrial Relations Act 1971 established a formal legal framework to counteract trade union power. As the state attempted to disengage from and ‘depoliticise’ collective bargaining practices, trade union leaders and employers were instructed to discipline industry. In just three-and-a-half years, the Act contributed to a crisis of the British state as industrial unrest engulfed industry and risked undermining the rule of law. Warner explores the power dynamics, strategic errors and industrial battles that destroyed this attempt to tame trade unions and ultimately brought down a government, and that shape Conservative attitudes towards trade unions to this day.

Verification and Adjustment of Regional Regression Models for Urban Storm-runoff Quality Using Data Collected in Little Rock, Arkansas C. Shane Barks,1995
Roger Williams and the Creation of the American Soul John M. Barry,2012-12-24 A revelatory look at the separation of church and state in America—from the New York Times bestselling author of The Great Influenza For four hundred years, Americans have fought over the proper relationships between church and state and between a free individual and the state. This is the story of the first battle in that war of ideas, a battle that led to the writing of the First Amendment and that continues to define the issue of the separation of church and state today. It began with religious persecution and ended in revolution, and along the way it defined the nature of America and of individual liberty. Acclaimed historian John M. Barry explores the development of these fundamental ideas through the story of Roger Williams, who was the first to link religious freedom to individual liberty, and who created in America the first government and society on earth informed by those beliefs. This book is essential to understanding the continuing debate over the role of religion and political power in modern life.

Getting the books **151655** now is not type of challenging means. You could not unaccompanied going similar to book deposit or library or borrowing from your friends to entre them. This is an entirely easy means to specifically acquire lead by on-line. This online publication 151655 can be one of the options to accompany you in the manner of having further time.
