My Best Coloring Book is an awesome coloring book for fun and learning that inspires hours of enjoyment—at home or in the classroom. It is most suitable for kids age between 1- 5 years, but also suits any child who loves coloring and knowing the basics in a much more fun and exciting way! Letters Every letter is a new territory for your child. The first step is to get to know the letter and practice through the correct pen guidance by simply tracing it. This is followed by a word containing the letter you have just learned. So your child learns to put the letter in a word. Encourage your child to read the word aloud to directly practice the corresponding sound. Finally, your child learns to write the letter freely and independently. Numbers To understand the meaning of numbers, your child starts counting picture elements. Then, just as with letters, he or she will have to trace the numbers. As soon as they become more confident, free writing follows the number you have just learned, with guidelines ensuring that the number is placed at the correct height.

**Beastly Puzzles** Rachel Poliquin,2019-05-07 A truly one-of-a-kind book. What animal is made up of three billiard balls, five feather dusters and dinosaur feet? ... An ostrich, of course! In this book, young readers are asked to guess the animal using a list of unexpected bits and pieces as clues. The concept of this book is inspired by the ways old natural histories explained and illustrated exotic animals. Little-known animals were described as a hodgepodge of parts taken from familiar creatures and vegetation. Beavers, for example, were described as being composed of a flounder, an otter, goose feet, squirrel paws and a rabbit’s front teeth. Tricky, right? Well, not to worry! Opening the gatefold will reveal the animal — and lots of cool facts about it! Are you ready for your first Beastly Puzzle?

We are constantly seeking the best schools, activities, and programs in the hope that they will give our children that extra leg-up in life. We believe that if we want our children to thrive in this world, we must prepare them with every resource available to us. In our eagerness to provide everything our children might need, we have lost sight of the basic fundamentals that they require to flourish. Like planning a house to weather the storm, we must ensure that our children’s foundations are strong. However, in our haste to cover every avenue that promises an advantage, we have unwittingly compromised that foundation. It’s time to review what is working and what isn’t. Supported by case studies and scientific research findings, Brainchild provides keen insights on how to nurture children to reach their full potential.
