The Hiding Places Catherine Robertson,2015-04-02 Rich in myth, mystery, warmth and wit — a touching novel about what it means to be alive. When April Turner's small son is killed by a car, she decides she is no longer entitled to anything but the barest existence. Five years on, she has shed everything and everyone she loves, and expects to be this way for ever. Then a letter arrives from an English solicitor, informing April that she is the last surviving heir to Emphyrean, a long-abandoned country house. At first, April resists. But with the letter comes a map full of tiny mysteries, and she is drawn all the way from New Zealand to the English countryside, and into a small but intriguing circle of people: musician Oran, who remains loyal to his faithless wife; Jack, who lives wild in the woods with a dog; and Sunny, Lady Day, approaching ninety but more vital than others half her age. Sunny knew Emphyrean in its prime, and her stories bring the past to life. But will April be prepared to give up her principles and start coming alive again herself? Secret Games J. Karl Bogartte,2009-12-24 Following The Wolf House, Secret Games is Book II in the ongoing series of prose poems exploring the sense of the marvelous mating of science and erotic metamorphosis as a form of landscape in which the real becomes imaginary, and forces itself into visible nature. An asymmetrical consciousness enlivens the objects that signify your presence, which never fails to cause mystery and trembling in the villages where consciousness itself often comes to breed in awkward splendor.

Peter Pan and the Mind of J. M. Barrie Rosalind Ridley,2016-06-22 What is Peter Pan all about? Many of us realise that there is a bit more to the stories than a simple fantasy about flying away to a wonderful place in which to play, and that there is something psychologically rather dark about the events in the stories. But J. M. Barrie's work has not previously been considered from the perspective of either the science of his time, or the insights of modern cognitive psychology. This book explores the texts of Peter Pan in Kensington Gardens (1906) and Peter and Wendy (1911), and argues that Barrie describes the limited mental abilities of infants and animals in order to illuminate the structure of human adult cognition. Barrie had a well-informed, post-Darwinian perspective on the biological origins of human behaviour. The idea that human consciousness, cognition, culture and sense of moral responsibility could have origins in animal behaviour was deeply shocking to the nineteenth century intelligentsia, and remains controversial in some sections of academia even today. Barrie's work contains many insights into what is now referred to as mental representation and theory of mind, areas of cognitive psychology that have been examined scientifically only in the last few decades. Barrie also reflects on the nature of consciousness in a way that parallels modern interests. As books with a complex scientific undercurrent, Barrie's Peter Pan stories rank alongside Lewis Carroll's Alice in Wonderland and Alice through the Looking Glass, which engage with complex issues of mathematics and logic, and Charles Kingsley's The Water-Babies, which explores the implications of evolution for human society.

In the Shadow of a Conflict Bill Derman,Randi Kaarhus,2013-05-14 Zimbabwe has cast a powerful regional and international shadow since it became independent in 1980 and more recently, through

the crises of the first decade of the twenty-first century. The 2000s were a decade of combined political, economic and social crises in Zimbabwe following what had been a relatively successful twenty years of independence since 1980. The scale, depth and severity of the crises evolving since 2000 have been as dramatic as they have been unexpected. While there has been substantial coverage of the internal consequences of Zimbabwe's crises less attention has been paid to its regional and cross-border consequences. In explaining the ongoing processes stemming from the crises, this book looks at three neighboring countries - Mozambique, South Africa and Zambia - to depict how, over time, they have experienced and interpreted events in Zimbabwe, how they have dealt with Zimbabweans entering their territories, and how they have or have not formulated policies and developed practices to cope with the arrival of new and mainly undocumented Zimbabwean immigrants.
