Art and Activism in the Age of Systemic Crisis Eliza Steinbock,Bram Ieven,Marijke de Valck,2020-10-07 This book examines how renewed forms of artistic activism were developed in the wake of the neoliberal repression since the 1980s. The volume shows the diverse ways in which artists have sought to confront systemic crises around the globe, searching for new and enduring forms of building communities and reimagining the political horizon. The authors engage in a dialogue with these artistic efforts and their histories - in particular the earlier artistic activism that was developed during the civil rights era in the 1960s and 70s - providing valuable historical insight and new conceptual reflection on the future of aesthetic resilience. This book will be of interest to scholars in contemporary art, history of art, film and literary studies, protest movements, and social movements.

Leading Like Madiba Martin Kalungu-Banda,2006 This is a book about a many-sided man whose legacy is his unquenchable desire to spend himself for the well-being of others. Through a series of stories told by men and women about how Nelson Mandela touched their lives, the book shows what it is that has made him one of the greatest people of our time: the way he has managed to inspire people through ordinary human actions. Here in essence are some of the key qualities of great leadership. Most of the stories in this book are from ordinary men and women. A few came from newspapers, television and magazines. Whether they happened exactly as they are narrated is not important. What is true about these stories is that they are an attempt by people to describe the 'Madiba phenomenon'. They are a way in which people seek to treasure what Mandela has taught the world. Their significance lies in their ability to inspire those that share and listen to them.

Brainchild Shen-Li Lee,2019-10-02 The 21st century is a challenging era and the competition is unyielding. As parents, we feel an urgency to prepare our children to face this world. We are constantly seeking the best schools, activities, and programs in the hope that they will give our children that extra leg-up in life. We believe that if we want our children to thrive in this world, we must prepare them with every resource available to us. In our eagerness to provide everything our children might need, we have lost sight of the basic fundamentals that they require to flourish. Like planning a house to weather the storm, we must ensure that our children's foundations are strong. However, in our haste to cover every avenue that promises an advantage, we have unwittingly compromised that foundation. It's time to review what is working and what isn't. Supported by case studies and scientific research findings, Brainchild provides keen insights on how to nurture children to reach their full potential.

Let's Do Nothing! Tony Fucile,2021-05-04 "A hilarious debut told mainly through the zany artwork. . . . The pictures capture the universality of the moment." — School Library Journal (starred review) Frankie and Sal have already played every sport and board game invented, baked and eaten batches of cookies, and painted a zillion pictures. What's left to do? Nothing! Ten seconds of nothing! Can they do it? With a wink to the reader and a command of visual humor, feature-film animator Tony Fucile demonstrates the Zen-like art of doing nothing . . . oops! Couldn't do it!

The Palace Complex Michał Murawski,2019-03-22 The Palace of Culture and Science is a massive Stalinist skyscraper that was gifted to Warsaw by the Soviet Union in 1955. Framing the Palace's visual, symbolic, and functional prominence in the everyday life of the Polish capital as a sort of obsession, locals joke that their city suffers from a Palace of Culture complex. Despite attempts to privatize it, the Palace remains municipally owned, and continues to play host to a variety of public institutions and services. The Parade Square, which surrounds the building, has resisted attempts to convert it into a money-making commercial center. Author Michał Murawski traces the skyscraper's powerful impact on 21st century Warsaw; on its architectural and urban landscape; on its political, ideological, and cultural lives; and on the bodies and minds of its inhabitants. The Palace Complex explores the many factors that allow Warsaw's Palace to endure as a still-socialist building in a post-socialist city.

The Grouchies Debbie Wagenbach,2021-12-15 iParenting Media Award Mom's Choice Award for Children's Picture Books (Gold) What can you do when the grouchies take hold? How can you keep a bad mood at bay? With funny rhymes and a silly chant, The Grouchies shows kids simple and fun ways to turn around grouchy moods. But most of all, kids will understand how their mood and negativity can affect their family and friends, and really get in the way of having a good day. An extensive Note to Parents further explains the child's experience and provides parents with easy-to-apply tips and tools for helping their kids when a grumpy day comes

along. From the Note to Parents: Everyone feels grouchy sometimes. Young children, as well as adults, are capable of an array of moods that can influence the ways in which situations are interpreted and the actions of other people are perceived. So a grouchy mood can negatively affect how you think or feel about anyone or anything. Grouchiness can be contagious, since people tend to mirror or “catch” the moods of those around them. Thus, a child’s mood can be influenced by the negative disposition of a caregiver. Similarly, a negative mood in a young child can be so powerful that everyone in the house may feel it.
