¡Corrido! John Holmes McDowell,2015-09-15 The present compilation of ballads from the Mexican states of Guerrero and Oaxaca documents one of the world's great traditions of heroic song, a tradition that has thrived continuously for the last hundred years. The 107 corridos presented here, gathered during ethnographic research over a period of twenty-five years in settlements on Mexico's Costa Chica and Costa Grande, offer a window into the ethos of heroism among the cultures of Mexico's southwestern coast, a region that has been plagued by recurrent cycles of violence. John Holmes McDowell presents a richly annotated field collection of corridos, accompanied by musical scores and transcriptions and translations of lyrics. In addition to his interpretation of the corridos' depiction of violence and masculinity, McDowell situates the songs in historical and performance contexts, illuminating the Afro-mestizo influence in this distinctive population.

Language Development and Disorders in Spanish-speaking Children Alejandra Auza Benavides,Richard G. Schwartz,2017-06-13 Prominent researchers from the US, Mexico, Chile, Colombia and Spain contribute experimental reports on language development of children who are acquiring Spanish. The chapters cover a wide range of dimensions in acquisition: comprehension and production; monolingualism and bilingualism; typical development, children who are at risk and children with language disorders, phonology, semantics, and morphosyntax. These studies will inform linguistic theory development in clinical linguistics as well as offer insights on how language works in relation to cognitive functions that are associated with when children understand or use language. The unique data from child language offer perspectives that cannot be drawn from adult language. The first part is dedicated to the acquisition of Spanish as a first or second language by typically-developing children, the second part offers studies on children who are at risk of language delays, and the third part focuses on children with specific language impairment, disorders and syndromes.
