Reflections of the Heart Deborah DeMoss Smith,2008-05-05 Do our animal companions understand us? How can we understand them? Reflections of the Heart gives us Sharon Callahan's thought-provoking perspective on animal-human relationships. Definitely a most illuminating read for all animal lovers. -David Frei, cohost of The Westminster Kennel Club Dog Show Thanks to Deborah DeMoss Smith, readers of Reflections of the Heart will be touched and healed profoundly by animal intuitive Sharon Callahan's life and work, just as we have been-along with the hundreds of friends, family, veterinary clients, and patients to whom we've introduced her. -Bob Goldstein, D.V.M., and Susan Goldstein, Earth Animal and the Healing Center for Animals A gold mine of inspiration, compassion, and love. Anyone who loves animals will love them even more after reading this wonderful collection of stories. Deborah DeMoss Smith knows just how to reconnect us with the magic, splendor, and awe of our animal kin through Sharon Callahan's intuitive experience. -Marc Bekoff, Professor of Biology, University of Colorado, Boulder, and coauthor of The Ten Trusts (with Jane Goodall) Jerry, a tabby cat distressed by a beloved family member's departure for college. Jupiter, a macaw parrot who yearned to live among his own kind. Rudy, a border collie whose grave illness did not stop him from keeping his profound promise to the young girl who loved him. All of these animals spoke with their human companions through the extraordinary gift of animal intuitive Sharon Callahan. Now award-winning journalist Deborah DeMoss Smith relates these and many other true, inspirational tales of the human and animal lives Callahan has touched. Reflections of the Heart illustrates how the sometimes puzzling behavior of animals often mirrors our own actions and feelings. These stirring accounts offer a window into the emotional, mental, and spiritual lives of our animal companions-and remarkable insight into the special bond between animals and people.

Eisler's Encyclopedia of Environmentally Hazardous Priority Chemicals Ronald Eisler,2007-08-08 Thousands of inorganic and organic chemicals and their metabolites enter the biosphere daily as a direct result of human activities. Many of these chemicals have serious consequences on sensitive species of natural resources, crops, livestock, and public health. The most hazardous of these were identified by a panel of environmental specialists from the U.S. Fish and Wildlife Service; these chemicals are the focus of this encyclopedia. For each priority group of chemicals, information is presented on sources, uses, physical and chemical properties, tissue concentrations in field collections and their significance, lethal and sublethal effects under controlled conditions. This includes effects on survival, growth, reproduction, metabolism, carcinogenicity, teratogenicity, and mutagenicity - and proposed regulatory criteria for the protection of sensitive natural resources, crops, livestock, and human health. Taxonomic groups of natural resources covered include terrestrial and aquatic plants and invertebrates, fishes, amphibians, reptiles, birds, and mammals. * The only product that centers on the most hazardous environmental chemicals to sensitive natural resources * The only single volume compendium on the subject, allowing ease in consulting * Written by a noted national and international authority on chemical risk assessment to living organisms

Tamed and Untamed Sy Montgomery,Elizabeth Marshall Thomas,2017-09-18 Extraordinary new insights into the minds and lives of our fellow creatures from two of the world’s top animal authors, Elizabeth Marshall Thomas and Sy Montgomery. A Mail on Sunday “Critic's Pick” Best Read of the Year In their writing and in their lives and in their remarkable friendship, Liz and Sy break down false barriers and carry us closer to our fellow creatures.”—from the foreword by Vicki Constantine Croke, author of *Elephant Company* **Tamed and Untamed**□a collection of essays penned by two of the world's most celebrated animal writers, Sy Montgomery and Elizabeth Marshall Thomas□explores the minds, lives, and mysteries of animals as diverse as snails, house cats, hawks, sharks, dogs, lions, and even octopuses. Drawing on stories of animals both wild and domestic, the two authors, also best friends, created this book to put humans back into the animal world. The more we learn about what other animals think and do, they explain, the more we understand ourselves as animals, too. Writes Montgomery, “The list of attributes once thought to be unique to our species□from using tools to waging war□is not only rapidly shrinking, but starting to sound less and less impressive when we compare them with other animals’ powers.” With humor, empathy, and introspection, Montgomery and Thomas look into the lives of all kinds of creatures□from man’s best friend to the great white shark□and examine the ways we connect with our fellow species. Both authors have devoted their lives to sharing the animal kingdom’s magic with others, and their combined wisdom is an indispensable contribution to the field of animal literature. The book contains a foreword by Vicki Constantine Croke, author of the bestseller *Elephant Company*.
