This books assumes that a kid can read on his own or a parent is willing to read to the kid. It also assumes some parental involvement for little kids. Kids aged 8-10 can work this book on their own.This book is based on the premise that kids find reading factual information a bit boring. However their inquisitive minds are always asking questions and looking for answers. Kids inherently love questions and challenges. I have found that the best way to teach my kid things is to present it in a multiple choice format. When combined with some humor, kids absolutely adore it.In writing this book, all questions are field tested on my 8 year old kid and I have found that he loves these questions.Finally this is a book designed for keeping your kid learning some useful things while in a car or for some reading time alone. Beastly Puzzles Rachel Poliquin,2019-05-07 A truly one-of-a-kind book. What animal is made up of three billiard balls, five feather dusters and dinosaur feet? ... An ostrich, of course! In this book, young readers are asked to guess the animal using a list of unexpected bits and pieces as clues. The concept of this book is inspired by the ways old natural histories explained and illustrated exotic animals. Little-known animals were described as a hodgepodge of parts taken from familiar creatures and vegetation. Beavers, for example, were described as being composed of a flounder, an otter, goose feet, squirrel paws and a rabbit's front teeth. Tricky, right? Well, not to worry! Opening the gatefold will reveal the animal – and lots of cool facts about it! Are you ready for your first Beastly Puzzle?
