The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

I Had a Black Dog Matthew Johnstone,2012-03-01 'I Had a Black Dog says with wit, insight, economy and complete understanding what other books take 300 pages to say. Brilliant and indispensable.' - Stephen Fry 'Finally, a book about depression that isn't a prescriptive self-help manual. Johnston's deftly expresses how lonely and isolating depression can be for sufferers. Poignant and humorous in equal measure.' Sunday Times There are many different breeds of Black Dog affecting millions of people from all walks of life. The Black Dog is an equal opportunity mongrel. It was Winston Churchill who popularized the phrase Black Dog to describe the bouts of depression he experienced for much of his life. Matthew Johnstone, a sufferer himself, has written and illustrated this moving and uplifting insight into what it is like to have a Black Dog as a companion and how he learned to tame it and bring it to heel.

Mama Miti Donna Jo Napoli,2012-05-08 “Nelson’s pictures, a jaw-dropping union of African textiles collaged with oil paintings, brilliantly capture the villagers’ clothing and the greening landscape...This is, in a word, stunning.” —Kirkus Reviews (starred review) “Nelson’s (We Are the Ship) breathtaking portraits of Maathai often have a beatific quality; bright African textiles represent fields, mountains, and Maathai’s beloved trees...Napoli (The Earth Shook) creates a vivid portrait of the community from which Maathai’s tree-planting mission grows.” —Publishers Weekly (starred review) “A beautiful introduction for children just learning about the Greenbelt Movement.” —School Library Journal Anne Izard Storytellers’ Choice Award CBC/NCSS Notable Social Studies Trade Book CCBC Choices (Cooperative Children’s Book Council) California Collections NAACP Image Award Nominee Through artful prose and beautiful illustrations, Donna Jo Napoli and Kadir Nelson tell the true story of Wangari Muta Maathai, known as “Mama Miti,” who in 1977 founded the Green Belt Movement, an African grassroots organization that has empowered many people to mobilize and combat deforestation, soil erosion, and environmental degradation. Today more than 30 million trees have been planted throughout Mama Miti’s native Kenya, and in 2004 she became the first African woman to win the Nobel Peace Prize. Wangari Muta Maathai has changed Kenya tree by tree—and with each page turned, children will realize their own ability to positively impact the future.

Montessori from the Start Paula Polk Lillard,Lynn Lillard Jessen,2008-12-18 Based on Dr. Maria Montessori's philosophies for nurturing babies and toddlers, this practical and useful guide is brimming with instructions, anecdotes, and encouragement for raising calm, competent, and confident children—from designing the baby’s bedroom to encouraging life skills such as dressing themselves and working both independently and collaboratively. What can parents do to help their youngest children in their task of self-formation? How does the Montessori method of hands-on learning and self-discovery relate to newborns, infants, and toddlers? This authoritative and accessible book answers these and many other questions. Its comprehensive exploration of the first three years incorporates the furnishings and tools Dr. Montessori created for the care and comfort of babies. From the design of the baby's bedroom to the child-sized kitchen table, from food preparation to clothing and movement, the authors provide guidance for the establishment of a beautiful and serviceable environment for babies and very young children. They also introduce concepts and tasks, taking into account children’s "sensitive periods" for learning such skills as toilet training. Written in a clear, engaging style, Montessori from the Start is a must-have for every new parent.

The Other End of the Leash Patricia McConnell, Ph.D.,2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, The Other End of the Leash is a book that strives to help you connect with your

dog in a completely new way—so as to enrich that most rewarding of relationships.

The Thing About Spring Daniel Kirk,2015-02-17 Spring is in the air! Bear, Bird, and Mouse are all excited that winter snows are melting away, but their friend Rabbit is not. There are too many things about winter that Rabbit adores, and spring just seems to spell trouble. His friends offer an abundance of reasons to love spring and the changing seasons, but will Rabbit listen? Daniel Kirk has written a lively and humorous tale with the gentle message that change can be fun.

Transforming the Workforce for Children Birth Through Age 8 National Research Council,Institute of Medicine,Board on Children, Youth, and Families,Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success,2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.
