Emoticons, Kaomoji, and Emoji Elena Giannoulis, Lukas R.A. Wilde, 2019-07-23 This collection offers a comprehensive treatment of emoticons, kaomoji, and emoji, examining these digital pictograms and ideograms from a range of perspectives to comprehend their increasing role in the transformation of communication in the digital age. Featuring a detailed introduction and eleven contributions from an interdisciplinary group of scholars, the volume begins by outlining the history and development of the field, situating emoticons, kaomoji, and emoji – expressing a variety of moods and emotional states, facial expressions, as well as all kinds of everyday objects—as both a topic of global relevance but also within multimodal, semiotic, picture theoretical, cultural and linguistic research. The book shows how the interplay of these systems with text can alter and shape the meaning and content of messaging and examines how this manifests itself through different lenses, including the communicative, socio-political, aesthetic, and cross-cultural. Making the case for further study on emoticons, kaomoji, and emoji and their impact on digital communication, this book is key reading for students and scholars in sociolinguistics, media studies, Japanese studies, and language and communication.

The Palgrave Handbook of Cross-Cultural Business Negotiation Mohammad Ayub Khan, Noam Ebner, 2018-12-13 Global business management issues and concerns are complex, diverse, changing, and often intractable. Industry actors and policy makers alike rely upon partnerships and alliances for developing and growing sustainable business organizations and ventures. As a result, global business leaders must be well-versed in managing and leading multidimensional human relationships and business networks – requiring skill and expertise in conducting the negotiation processes that these entail. After laying out a foundation justifying the importance of studying negotiation in a global context, this book will detail conventional and contemporary theories regarding international engagement, culture, cultural difference, and cross-cultural interaction, with particular focus on their influence on negotiation. Building on these elements, the book will provide a broad array of country-specific chapters, each describing and analyzing the negotiation culture of businesspeople in a different country around the world. Finally, the book will look ahead, with an eye towards identifying and anticipating new trends and developments in the field of global negotiation. This text will appeal to scholars and researchers in international business, cross-cultural studies, and conflict management who seek to understand the challenges of intercultural communication and negotiation. It will provide trainers and consultants with the insights they need to prepare their clients for intercultural negotiation. Finally, the text will appeal to businesspeople who find themselves heading out to engage with counterparts in another country, or operating in other multinational environments on a regular basis.

Visual Citizenship Catherine Bouko, 2023-10-13 This book explores visual political engagement online – how citizens participate in the dynamism of life in society by expressing their opinions and emotions on various issues of democratic life in image-based social media posts, independently of collective actions. Looking beyond large digital social movements to focus on the everyday, the book provides a well-documented and comprehensive framework of key notions, concrete methods and examples of empirical insights into everyday visual citizenship on social media. It shows how the visual has become ubiquitous in citizens' communication on social media, focusing on how citizens use visual content to express their emotions and opinions on social media platforms when they discuss politics in a large sense. With this book, every reader interested in political communication, visual communication and/or new media is fully equipped to analyse everyday visual citizenship on social media platforms. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons [Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND)] 4.0 license.

Internet-Delivered Therapeutic Interventions in Human Services Jerry Finn, Dick Schoech, 2014-06-03 There has been exponential growth in use of the Internet to deliver therapeutic and supportive human services. Online interventions are known by a variety of names, including online practice, e-therapy and others. All refer to the delivery of services over the Internet through a variety of delivery systems including asynchronous email, video and chat communication, and closed-circuit video conferencing. They include services delivered by professionals such as psychiatrists, social workers, psychologists, counsellors and nurses as well as self-help groups with a therapeutic purpose and supportive services provided by trained volunteers. This book presents the most current research on online practice. Topics include: descriptions of innovative online practice, evaluation studies of online practice with specific disorders, meta-analysis of the effectiveness of online practice, education and training of online practitioners, methods for the delivery of online practice, organizational policy and ethical issues related to online practice, online crisis intervention and hotline services, and considerations for meeting legal and ethical requirements of online practice. This book was originally published as a special issue of the Journal of Technology in Human Services.

The Theory and Practice of Motion Design R. Brian Stone,Leah Wahlin,2018-06-19 This collection offers an expansive, multiplatform exploration of the rapidly-expanding area of motion design and motion graphics, taking into account both theoretical questions and creative professional practice. Spanning interaction design, product interfaces, kinetic data visualizations, typography, TV and film title design, brand building, narrative storytelling, history, exhibits and environments, editors R. Brian Stone and Leah Wahlin offer an interdisciplinary range of academic essays and professional interviews that together form a dialogue between motion design theory and professional practice. Written for both those critically engaged with motion design as well as those working or aspiring to work professionally in the field, the book features a range of international contributors and interviews with some of the best-known designers in the field, including Kyle Cooper, Karin Fong, and Daniel Alenquer. The Theory and Practice of Motion Design seeks to illuminate the diverse, interdisciplinary field of motion design by offering a structured examination of how motion design has evolved, what forces define our current understanding and implementation of motion design, and how we can plan for and imagine the future of motion design as it unfolds. An accompanying online resource site, www.motionresource.com, contains visual representations of the examples described in the text.

Human Geography and Professional Mobility Weronika A. Kusek,Nicholas Wise,2019-10-08 This book explores an innovative set of critical narratives, accounts and engagements by different authors about their professional mobility and how that relates to the discipline and their life experiences. Human Geography and Professional Mobility seeks to encourage, influence, and help students understand geographic concepts based on critical reflections, international experiences, and practical insight laid out in stories of real people, real geographers, and real college faculty, that students can relate to. This volume is less theoretical and more personal insight-based, wherein first-hand and personal accounts of practical experiences are explored, which renders the text supplementary reading for human geography, population geography, world geography, and migration/mobility classes. With critical navigation of spaces in response to several geographical questions, this book offers a novel perspective on professional mobility of geographers which will be of interest to students and academics in the fields of geography, tourism, sociology, and anthropology.

The Winter of Our Disconnect Susan Maushart,2011-01-20 The wise and hilarious story of a family who discovered that having fewer tools to communicate with led them to actually communicate more. When Susan Maushart first announced her intention to pull the plug on her family's entire armory of electronic weaponry for six months-from the itchy-bitziest iPod Shuffle to her son's seriously souped-up gaming PC-her three kids didn't blink an eye. Says Maushart: Looking back, I can understand why. They didn't hear me. For any parent who's ever IM-ed their child to the dinner table, this account of one family's self-imposed exile from the Information Age will leave you LOLing with recognition. But it will also make you think. The Winter of Our Disconnect challenges readers to examine the toll that technology is taking on their own family connections, and to create a media ecology that instead encourages kids-and parents-to thrive. Indeed, as a self-confessed single mom who slept with her iPhone, Maushart knew her family's exile from Cyurbia wasn't going to be any easier for her than for her three teenagers, ages fourteen, fifteen, and eighteen. Yet they all soon discovered that the rewards of becoming unplugged were more rich and varied than any cyber reality could ever be.

Animation Under the Swastika Rolf Giesen,J.P. Storm,2012-07-27 Among their many idiosyncrasies, Adolf Hitler and Joseph Goebbels, the Nazi minister of propaganda, remained serious cartoon aficionados throughout their lives. They adored animation and their influence on German animation after World War II continues to this day. This study explores Hitler and Goebbels' efforts to establish a German cartoon industry to rival Walt Disney's and their love-hate relationship with American producers, whose films they studied behind locked doors. Despite their ambitious dream, all that remains of their efforts are a few cartoon shorts--advertising and puppet films starring dogs, cats, birds, hedgehogs, insects, Teutonic dwarves, and other fairy-tale ensemble. While these pieces do not hold much propaganda value, they perfectly illustrate Hannah Arendt's controversial description of those who perpetrated the Holocaust: the banality of evil.
