**Reimagining Characters with Unreal Engine's MetaHuman Creator** Brian Rossney, 2022-12-29 Discover the power of Unreal Engine 5 and the MetaHuman Creator in this illustrated guide to develop realistic digital characters, infusing them with full body and facial animation

**Key Features** Create realistic characters using the MetaHuman Creator using a mixture of preset and custom tools Import your character into Unreal Engine 5 to access more editing options and begin animating it Combine face and body motion capturing to fully animate your digital humans

**Book Description** MetaHuman Creator (MHC) is an online, user-friendly 3D design tool for creating highly realistic digital humans that can be animated within Unreal Engine (UE) and enhanced with motion capture technology. This means that filmmakers and game developers now have access to a high quality, affordable solution that was previously only available to specialist studios. This book will focus on using UE5 and MHC from a filmmaker angle. Firstly, you'll understand how to use the online MHC to create a digital character, changing its facial structure, body type, and clothing. After that, you'll learn all the necessary steps to bring the character into UE5 and set it up for animation. Then, using an iPhone and a webcam to capture face and body movements, you'll mix these motion capture files, refine the animations using the MetaHuman Control Rig, and save these takes to be reused and edited again within the Level Sequencer. On top of that, you'll learn how to create a rendered video file for film production using both the Level Sequencer and a VR Cinematic Camera. By the end of this book, you'll have created your own MetaHuman character, as well as face and body motion capture data, and learned the necessary skills to give your future projects further realism and creative control.

**What you will learn** Create your own bespoke character using MHC Develop custom faces based on real people Utilize Blueprints to take control of your digital character Retarget animations using the Unreal Mannequin Use DeepMotion and Live Link for complete body and face animation Use the Control Rig to refine animations Export and render your character

**Who this book is for** This book is for filmmakers and hobbyists who are planning to make a film using Unreal Engine for the first time, having worked in live action or purely digital media previously, either professionally or as a hobby. No experience with Unreal Engine is required, however it is useful to have some knowledge of 3D development applications and concepts like wireframes, skin weights, transform tools, and motion capture. It is recommended that you have access to an iPhone X (or a later model). Alternatively, you can use a free or paid version of Faceware, along with a basic webcam.

**Creators of Life** Donald Heraldson, 1975

**Animate to Harmony** Adam Phillips, 2014-09-25 Want to create studio-quality work and get noticed? Just coming off Flash and looking for a Toon Boom intro? Are you a traditional pencil-and-paper animator? From scene setup to the final render, learn how to navigate the Toon Boom interface to create animation that can be published on a variety of platforms and formats. Animate to Harmony guides you through Toon Boom's Animate, Animate Pro and Harmony programs, teaching you how to create high-quality 2D animation of all complexities. The main text focuses on features that are common across all three programs while Advanced Techniques boxes throughout the book elaborate on Pro and Harmony features, appealing to all levels of experience with any of the three main Toon Boom products.

**Your Career in Animation (2nd Edition)** David B. Levy, 2021-03-02 A Newly Revised Edition of the Go-To Guide for Any Animation Artist! "Your Career in Animation is the most comprehensive and valuable book on animation careers that you'll ever need." —Bill Plympton, Animator / Producer Whether you want to break into the animation industry or "toon up" to a better career, this comprehensive guide will show you how. A leading animation professional surveys the field and shares the advice of more than one hundred and fifty top talents in the business of making toons— including Brooke Keesling, head of animation talent development at Bento Box, Mike Hollingsworth, supervising director of BoJack Horseman; Andrea Fernandez, art director on The Cuphead Show! PES, Oscar-nominated stop-motion director of Fresh Guacamole; Linda Simensky,

head of content for PBS Kids; Minty Lewis, co-creator of The Great North; Ross Bollinger, YouTube sensation with his Pencilmation channel, and executives from Nickelodeon, Disney TVA, Titmouse, Inc., Frederator, PBS Kids, Netflix, 9 Story Media Group, Cartoon Network; and dozens of others. Learn how to:

- Get the most out of your animation education
- Build a portfolio, reel, and resume
- Keep your skills marketable for years to come
- Network effectively
- Learn from on-the-job criticism
- Cope with unemployment
- Start your own studio or build an indie brand online
- Pitch and sell a show of your own
- And more!

Also included are invaluable resources such as animation schools, societies, film festivals, events, Web sites, and publications. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. **Tradigital Animate CC** Stephen Brooks, 2016-11-03 Learn how to bridge the gap between the traditional animation principles and digital software. Tradigital Flash: 12 Principles of Animation in Adobe Flash brings the essentials of traditional animation and Adobe Flash together. The early masters of animation created a list of 12 principles which are important for anyone who wants to create interesting and believable animation. Digital animation continues to make incredible technological advancements that give animators the capability to produce visually stunning work. New technology, however, also has a tendency to create an environment where animators are so focused on adapting to the new workflow that they tend to dismiss these fundamental animation principles... which often leads to poor and lifeless character animation. Tradigital Flash helps you focus on these principles while using the program's wide array of features to create believable animation, consistently. Tradigital Flash joins three other Tradigital books covering Maya, Blender, and 3ds Max. This new volume in the series approaches the topic in a different way, giving readers both a practical look at the software, and providing a theoretical understanding of the genre. Learn a new principle in each chapter, the Flash tools most related to it and how to put it all together. A plethora of examples demonstrate the good methods which animators should use in Flash, how to avoid the bad ones and ways to create a workflow that works for you. An easy-to-follow approach with examples throughout the book that build on each other, showing how the principles act together. A companion website [www.rubberonion.com/tradigital-animate](http://www.rubberonion.com/tradigital-animate) features more examples, downloadable FLA resource files, video tutorials.

Directing Animation David B. Levy, 2010-11-02 Both experienced and aspiring animation professionals will find Directing Animation a comprehensive and entertaining guide to understanding the director's creative role in managing the entire animation process. An animation director doesn't simply direct animation. He or she directs people who animate and must be equally able to relate to the crew, producers, writers, creators, and clients. Readers will learn how to:

- direct commercials, TV series, feature films, and Web features and series
- land their first big directorial break
- create realistic schedules and pipelines
- assemble the best crew for any job
- motivate animators and crew members
- give constructive feedback and notes
- maintain good relationships with producers, creators, writers, and network executives.

In addition to over eighty photographs and illustrations, Directing Animation includes insider tips and firsthand experience from animators, directors, and producers, revealing the best ways to manage the production process while creating a workplace that is both efficient and fun. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. **The Flash Animator** Sandro Corsaro, 2002-06-11 Intrigued by digital animation? Know a little bit about Macromedia Flash but are ready to take it to the next level? *The Flash Animator* will teach you how to create traditional-looking animations faster, cheaper, and with more delivery options. Sandro Corsaro helps you to develop a solid understanding of the principles of traditional animation, and then guides you step by step through bringing those principles to life with Flash. Topics range from creating basic ball bounces to managing complex character design, sound, and optimization issues. Interviews with numerous experts in the animation industry--complete with beautiful artwork and insights from feature-film animators and Web pioneers--are included to inspire you along your Flash animation path. Interviewees include: Iwao Takamoto, creator of Scooby Doo; Brad Abelson, Storyboard Artist, *The Simpsons*; Joe Shields, *Joe Cartoon*; Tom Winkler, *Doodie.com*; And many other influential animators. The CD contains all source files for the book's examples, exclusive animation files, and bonus Macromedia Flash cartoons. There is also an in-depth audio interview with Iwao Takamoto.

**Animated 'Worlds'** Suzanne Buchan, 2007-02-20 What do we mean by the term animation when we are discussing film? Is it a technique? A style? A way of seeing or experiencing a world that has little relation to our own lived experience of the world? In *Animated Worlds*, contributors reveal the astonishing variety of worlds animation confronts us with. Essays range from close film analyses to phenomenological and cognitive approaches, spectatorship, performance, literary theory, and digital aesthetics. Authors include Vivian Sobchack, Richard Weihe, Thomas Lamarre, Paul Wells, and Karin Wehn.

*Digital Animation* Andrew Chong, 2007-12-03 *Basics Animation 02: Digital Animation* takes a comprehensive look at the history of the medium, its growth and development over the last 50 years.
