Redesigning Animation Cinzia Bottini,2018-10-03 The animation studio United Productions of America (UPA) was able to challenge Disney supremacy in the 1950s entertainment market by creating cutting-edge animated cartoons. UPA films express a simplified audiovisual language consisting of stylized layout designs, asymmetrical compositions, colors applied flatly and in contrast with each other, limited animation and a minimalist use of sound effects. UPA artists developed this innovative style by assimilating those aesthetic features already expressed by Modern painters, graphic designers and advertisers. This book considers UPA films as Modern animations, because they synthesize a common minimalist tendency that was occurring in US animation during the 1940s and 1950s. It examines the conditions under which UPA studio flourished and the figure of its executive producer Stephen Bosustow; the influence of Modernist stylistic features of painting, graphic design and poster advertising on UPA animations; and UPA animated cartoons as case studies of a simplified audiovisual language that influenced 1950s-1960s international productions. Key Features Looks at UPA's origins during the 1940s and postwar American stage, and how this influences later Modern movements and styles Learn about the production methods of UPA and its lasting graphic contribution to animation history Discover how UPA audiovisual styles were born from the assimilation of Modern paintings, graphic art, and poster advertising Explores how UPA influenced animation in other parts of the world, including Romania, Russia, and Japan Highlights the impact UPA had on styles with famous international legends like Dušan Vukotić, Fyodor Khitruk, and Osamu Tezuka

When Magoo Flew Adam Abraham,2012-03-09 What do Franklin Roosevelt, Dr. Seuss, the U.S. Navy, and Mr. Magoo have in common? They are all part of the surprising story of the pioneering cartoon studio UPA (United Productions of America). Throughout the 1950s, a group of artists ran a business that broke all the rules, pushing animated films beyond the fluffy fantasy of the Walt Disney Studio and the crash-bang anarchy of Warner Bros. Instead, UPA's films were innovative and graphically bold—the cartoon equivalent to modern art. When Magoo Flew is the first book-length study to chronicle the complete story of this unique American enterprise. The book features cameo appearances by Aldous Huxley, James Thurber, Orson Welles, Judy Garland, Robert Goulet, Jim Backus, Eddie Albert, and Woody Allen, as well as a select filmography of the best of UPA. Ebook Edition Note: The ebook has three images redacted: figures 1, 2, and 51.

Beyond Bagpuss Chris Pallant,2022-06-16 Ivor the Engine, Noggin the Nog, Pingwings, Pogles Wood, Clangers, and Bagpuss - the iconic animations produced by the Canterbury-based Smallfilms studio between 1958 and 1984 - constitute a significant thread of British cultural history. The lasting appeal of the imagined worlds created by Smallfilms is evident in the highly-successful BBC reboot of Clangers (2015-present), which has introduced a whole new audience to the pink moon mice. As well as the shows likely to be familiar to readers, this history expands the Smallfilms story to include those less well-known animated shows that nonetheless played an important part in the studio's history. Through extensive studio access, interviews with many key Smallfilms collaborators, press and audience analysis, Chris Pallant provides a comprehensive and definitive historical record of the studio's work. Beyond Bagpuss is illustrated with 100 images from the Smallfilms archive, including those that have not previously been published.

Think Pink: The Story of DePatie-Freleng Mark Arnold, In 1963, Warner Bros. closed down their long-running cartoon facility that had produced such memorable merrymakers as the Looney Tunes and Merrie Melodies cartoons. Director/producer Friz Freleng and executive David H. DePatie faced unwanted early retirement. A generous parting gesture from a Warner executive allowed Freleng and DePatie to lease the former Warner cartoons studio on California Street in Burbank, complete with equipment and supplies, for a few dollars each year. They teamed up to create animated cartoons for advertising, but not everything behind their enterprise was enchanting. They struggled to keep their small animation studio running against odds and obstacles such as rising costs, heavy competition, outsourcing of labor to other countries, strikes, death, changing directions, and buyouts. They never anticipated how they would soon style a series of cartoon characters that would paint memorable colors over movie animation history. When director Blake Edwards produced The Pink Panther starring David Niven, Peter Sellers, Robert Wagner, Capucine, and Claudia Cardinale, he envisioned a cartoon character of the same name to illustrate the opening credits sequence. Edwards hired Freleng and DePatie, together with artists at their DePatie-Freleng Enterprises studio, to design the animated sequence. The crafty magenta furry feline minced his way into moviegoer's hearts. The inspiration behind the ink was the people that worked at the DePatie-Freleng Enterprises (DFE) animation studio. Their hilarious cartoons caused a generation of moviegoers to rock theaters with laughter. Author Mark Arnold returns you to the nostalgic memories of the exhilarating Pink Panther series and other cartoons DFE created. Discover the craftsmen behind the cartoons in an exciting exploration of the Pink Panther, Inspector Clouseau, Ant and the Aardvark, Cat in the Hat, The Grinch, The Lorax, Doctor Dolittle, Spider-Man, Spider-Woman, Mr. Magoo, The Fantastic Four, Planet of the Apes, Doctor Snuggles, Baggy Pants, The Nitwits, The Barkleys, The Houndcats, The Grump, The Super Six, Super President, Spy Shadow, Hoot Kloot, Blue Racer, Crazylegs Crane, Misterjaw, Tijuana Toads, The Dogfather, The Oddball Couple, Charlie the tuna, David DePatie, Friz Freleng, Blake Edwards, Peter Sellers, and various animators. Over 400 photos and illustrations. Indexed. Appendixes. About the author: Mark Arnold is a comic book and animation historian. He has written for various magazines, including Back Issue, Alter Ego, Hogan's Alley, Comic Book Artist, and Comic Book Marketplace. Studio Ghibli Rayna Denison,2023-02-21 Studio Ghibli: An Industrial History takes us deep into the production world of the animation studio co-founded by Oscar-winning director Hayao Miyazaki. It investigates the production culture at Studio Ghibli and considers how the studio has become one of the world’s most famous animation houses. The book breaks with the usual methods for studying Miyazaki and Ghibli’s films, going beyond textual analysis to unpack the myths that have grown up around the studio during its long history. It looks back at over 35 years of filmmaking by Miyazaki and other Ghibli directors, reconsidering the studio’s reputation for egalitarianism and feminism, re-examining its relationship to the art of cel and CG animation, investigating Studio Ghibli’s work outside of feature filmmaking from advertising to videogames and tackling the studio’s difficulties in finding new generations of directors to follow in the footsteps of Miyazaki and Isao Takahata. By reconstructing the history of Studio Ghibli through its own records, promotional documents and staff interviews, Studio Ghibli: An Industrial History offers a new perspective not just on Ghibli, but on the industrial history of Japanese animation.
