Anime Jonathan Clements,2023-08-24 Japanese animation is at the nexus of an international multimedia industry worth over \$23.6 billion a year, linked to everything from manga to computer games, Pokémon and plushies. In this comprehensive guide, Jonathan Clements chronicles the production and reception history of the entire medium, from a handful of hobbyists in the 1910s to the Oscar-winning Spirited Away and beyond. Exploring the cultural and technological developments of the past century, Clements addresses how anime's history has been written by Japanese scholars, and covers previously neglected topics such as wartime instructional animation and work-for-hire for American clients. Founded on the testimonies of industry professionals, and drawing on a myriad of Japanese-language documents, memoirs and books, *Anime: A History* illuminates the anime business from the inside – investigating its innovators, its unsung heroes and its controversies. This new edition has been updated and revised throughout, with full colour illustrations and three new chapters on anime's fortunes among Chinese audiences and subcontractors, 21st century trends in 'otaku economics', and the huge transformations brought about by the rise of global streaming technology.

PHP Solutions David Powers, 2011-05-30 This is the second edition of David Powers' highly-respected PHP Solutions: Dynamic Web Design Made Easy. This new edition has been updated by David to incorporate changes to PHP since the first edition and to offer the latest techniques—a classic guide modernized for 21st century PHP techniques, innovations, and best practices. You want to make your websites more dynamic by adding a feedback form, creating a private area where members can upload images that are automatically resized, or perhaps storing all your content in a database. The problem is, you're not a programmer and the thought of writing code sends a chill up your spine. Or maybe you've dabbled a bit in PHP and MySQL, but you can't get past baby steps. If this describes you, then you've just found the right book. PHP and the MySQL database are deservedly the most popular combination for creating dynamic websites. They're free, easy to use, and provided by many web hosting companies in their standard packages. Unfortunately, most PHP books either expect you to be an expert already or force you to go through endless exercises of little practical value. In contrast, this book gives you real value right away through a series of practical examples that you can incorporate directly into your sites, optimizing performance and adding functionality such as file uploading, email feedback forms, image galleries, content management systems, and much more. Each solution is created with not only functionality in mind, but also visual design. But this book doesn't just provide a collection of ready-made scripts: each PHP Solution builds on what's gone before, teaching you the basics of PHP and database design quickly and painlessly. By the end of the book, you'll have the confidence to start writing your own scripts or—if you prefer to leave that task to others—to adapt existing scripts to your own requirements. Right from the start, you're shown how easy it is to protect your sites by adopting secure coding practices.

PandoraHearts, Vol. 7 Jun Mochizuki, 2014-04-15 The past holds everyone in its thrall, and Oz, Alice, Raven,

Break, and their acquaintances are no exception, especially as recollections of the tragedy of Sablier elude even those who were present. Indeed, with his own body playing host to Jack Vessalius, the hero of Sablier, the likelihood of Oz escaping the past seems nigh impossible. But given a renewed lease on life by Elliot Nightray - the legitimate heir to the Nightray dukedom, of all people - Oz is eager to keep moving forward by learning all that he can about the events that came to pass all those years ago. To this end, he and his friends seek an audience with another of the four great dukes - Duke Rufus Barma. But it is not a glimpse into a hundred-year-old disaster that is revealed to them in the Duke's presence, but rather one into Break's lamentable, shockingly unforgettable past...

PandoraHearts, Vol. 9 Jun Mochizuki,2014-04-15 The incuse on Oz Vessalius's chest ticks onward, but the young heir to one of the four great dukedoms directs his gaze back, seeking the facts behind a centuries-old tragedy.
