Globalization, Consumption and Popular Culture in East Asia Tai Wei Lim, Wen Xin Lim, Xiaojuan Ping, Hui-Yi Tseng, 2016-09-02 This book aims to provide comprehensive empirical and theoretical studies of expanding fandom communities in East Asia through the commodification of Japanese, Korean and Chinese popular cultures in the digital era. Using a multidisciplinary approach including political economy, East Asian studies, political science, international relations concepts and history, this book focuses on a few research objectives. In terms of methodology, it is an area studies approach based on interpretative work, observation studies, policy and textual analysis. First, it aims to examine the closely intertwined relationship between the three major stakeholders

in the iron triangle of production companies, consumers and states (i.e., role of government in policy promotion). Second, it studies the interpenetration, adaptation, innovation and hybridization of exogenous Western culture with traditional popular cultures in (North) East Asia. Third, it studies the influence of popular cultures and how cultural products resonate with a regional audience through collective consumption, contents reflective of normative values, the emotive and cognitive appeal of familiar images and social learning as well as peer effect found in fan communities. It then examines how consumption contributes to soft cultural influence and how governments leverage on its comparative advantages and cultural assets for commercial success and in the process augment national (cultural) influence. These questions will be discussed and analyzed and contextualized through the case studies of J-pop (Japanese popular culture), K-pop (Korean popular culture or Hallyu) and Chinese popular culture (including Mando-pop and Taiwanese popular culture).

Copyright and Fan Productivity in China

Tianxiang He, 2017-10-13 This book takes a unique approach to mitigate the problem of massive online copyright infringement and justify fan activities. It argues for a cooperative approach that encourages copyright owners to exert a degree of control over their fan creators. In contrast to the current approach, which treats fan utilizations as theft, this book suggests that the copyright owners and the lawmakers should instead distinguish between fan creators and commercial

pirates, allowing them unleash their potential. This book offers a clear and comprehensive account of the fascinating aspects of legal problems created by fan activities in China, Japan and the United States, offering a valuable guide for students, practitioners, academics and entrepreneurs whose work involves or who are interested in cutting-edge legal issues in the creative industry. Tianxiang He introduces us to the world of fandom inhabited by 'fan-subbers', fan-dubbers', 'mash-uppers', and 'fan-fictionists' against the backdrop of copyright law and policy in China. His work is engaging in that it not merely describes the law, but also the political dimension where copyright and state media control converge into a reality where being an artist or a fan is not that straightforward. -- Prof. Anselm Kamperman Sanders, Institute for Globalization and International Regulation (IGIR), Faculty of Law, Maastricht University The tension between copyright holders and fan communities has been increasingly salient yet underexplored. This timely, insightful and deeply engaging book not only fills a niche, but also covers a country that has been rarely examined in this context. The book advances a promising model for the two groups to cooperate. It also explores complex issues concerning political culture, media regulation and civic engagement in China. A must read for anybody interested in copyright law, cultural production, digital technology or Chinese information policy. -- Prof. Peter K. Yu, Professor of Law and Director, Center for Law and Intellectual Property, Texas A&M University School of Law
