## **Anna Held and the Birth of Ziegfeld's Broadway**

Eve Golden, 2021 Anna Held (1870?-1918), a petite woman with an hourglass figure, was America's most popular musical comedy star during the two decades preceding World War I. In the colorful world of New York theater during La Belle Époque, she epitomized everything that was glamorous, sophisticated, and suggestive about turn-of-the-century Broadway. Overcoming an impoverished life as an orphan to become a music-hall star in Paris, Held rocketed to fame in America. From 1896 to 1910, she starred in hit after hit and quickly replaced Lillian Russell as the darling of the theatrical world. The first wife of legendary producer Florenz Ziegfeld Jr., Held was the brains and inspiration behind his Follies and shared his knack for publicity. Together, they brought the Paris scene to New York, complete with lavish costumes and sets and a chorus of stunningly beautiful women, dubbed The Anna Held Girls. While Held was known for a champagne giggle as well as for her million-dollar bank account, there was a darker side to her life. She concealed her Jewish background and her daughter from a previous marriage. She suffered through her two husbands' gambling problems and Ziegfeld's blatant affairs with showgirls. With the outbreak of fighting in Europe, Held returned to France to support the war effort. She entertained troops and delivered medical supplies, and she was once briefly captured by the German army. Anna Held and the Birth of Ziegfeld's Broadway reveals one of the most remarkable women in the history of theatrical

entertainment. With access to previously unseen family records and photographs, Eve Golden has uncovered the details of an extraordinary woman in the vibrant world of 1900s New York.

Embroidered Stories Edvige Giunta, Joseph Sciorra, 2014-07-29 For Italian immigrants and their descendants, needlework represents a marker of identity, a cultural touchstone as powerful as pasta and Neapolitan music. Out of the artifacts of their memory and imagination, Italian immigrants and their descendants used embroidering, sewing, knitting, and crocheting to help define who they were and who they have become. This book is an interdisciplinary collection of creative work by authors of Italian origin and academic essays. The creative works from thirty-seven contributors include memoir, poetry, and visual arts while the collection as a whole explores a multitude of experiences about and approaches to needlework and immigration from a transnational perspective, spanning the late nineteenth century to the late twentieth century. At the center of the book, over thirty illustrations represent Italian immigrant women's needlework. The text reveals the many processes by which a simple object, or even the memory of that object, becomes something else through literary, visual, performance, ethnographic, or critical reimagining. While primarily concerned with interpretations of needlework rather than the needlework itself, the editors and contributors to Embroidered Stories remain mindful of its history and its associated cultural values, which Italian immigrants brought with them to the United States,

Canada, Australia, and Argentina and passed on to their descendants.

Joseph Anton Hemann (1816-1897) Douglas Carl Fricke, 2015-09-29 At the peak of his career in Cincinnati, Ohio, German-American Joseph A. Hemann provided details for his biographical sketch published in 1876. From this we learn of his early life as a student, his Atlantic crossing to Baltimore, his journey across the Alleghenies, his first teaching job, meeting his life-long mate, becoming a newspaper publisher and finally a banker. He was socially active in the Queen City of the West for almost forty years until a devastating sequence of events drove him out of town. This publication provides both genealogical facts and an expanded biography of Hemann's life as a German immigrant and successful business man in Cincinnati before, during, and after the Civil War. In Section Four, the 19th century German language newspapers of Cincinnati are summarized including graphical images of the mastheads.

Frederick Douglass David W. Blight, 2020-01-07  
\*\*Winner of the Pulitzer Prize in History\*\*  
"Extraordinary...a great American biography" (The New Yorker) of the most important African-American of the nineteenth century: Frederick Douglass, the escaped slave who became the greatest orator of his day and one of the leading abolitionists and writers of the era. As a young man Frederick Douglass (1818–1895) escaped from slavery in Baltimore, Maryland. He was fortunate to have been taught to read by his slave owner mistress, and he would go on to become one of the major literary figures of his time. His very existence gave the

lie to slave owners: with dignity and great intelligence he bore witness to the brutality of slavery. Initially mentored by William Lloyd Garrison, Douglass spoke widely, using his own story to condemn slavery. By the Civil War, Douglass had become the most famed and widely travelled orator in the nation. In his unique and eloquent voice, written and spoken, Douglass was a fierce critic of the United States as well as a radical patriot. After the war he sometimes argued politically with younger African Americans, but he never forsook either the Republican party or the cause of black civil and political rights. In this "cinematic and deeply engaging" (The New York Times Book Review) biography, David Blight has drawn on new information held in a private collection that few other historians have consulted, as well as recently discovered issues of Douglass's newspapers. "Absorbing and even moving...a brilliant book that speaks to our own time as well as Douglass's" (The Wall Street Journal), Blight's biography tells the fascinating story of Douglass's two marriages and his complex extended family. "David Blight has written the definitive biography of Frederick Douglass...a powerful portrait of one of the most important American voices of the nineteenth century" (The Boston Globe). In addition to the Pulitzer Prize, Frederick Douglass won the Bancroft, Parkman, Los Angeles Times (biography), Lincoln, Plutarch, and Christopher awards and was named one of the Best Books of 2018 by The New York Times Book Review, The Wall Street Journal, The Boston Globe, The Chicago Tribune, The San Francisco Chronicle, and

Time.

**Flight of the SkyCricket** Jeremy Gordon  
Grinnell,2023-08-24 In our world, science and mythology are mortal enemies. But what if a world existed where they were the same thing? In this first volume of The Relics of Errus, Flight of the SkyCricket, three sisters-Eli, Anna, and Rose Hoover-stumble through a window in the wine cellar of an old Victorian house and find themselves in Errus, a world where natural disasters give birth to mythological creatures-some harmless, some horrific. Caught up in a quest involving impassable deserts, dangerous jungles, dark mountainous caverns, and a menagerie of dwarfs, fairies, knights, and quirky scientists, they search for the mythical Well of the sea goddess Therra, which seems to be their only way home. Trapped in a world that births fairies from windstorms and dwarfs from earthquakes, everything rests on finding the lost Well... if it even exists. Both the pious and skeptic make their case along the way, but belief may not always be something you choose-sometimes it is something

that happens to you.

**Research Writing in the Information Age** Judith Arnold, Carol Poston, Katie Witek, 1999 Research Writing in the Information Age reflects a unique collaboration: the expertise of a librarian, a classroom teacher, and a rhetorician guides students through the research process. Beginning with invention and exploration, this book integrates current technology, research methods, and evaluation of sources to help students construct cohesive and responsible research papers. Students learn to write in their own voices to an audience whose needs they have been taught to discover. The text covers both APA and MLA styles of documentation, with sample papers in each style, and treats both library and electronic research techniques as integral steps in the process. Research Writing in the Information Age is a collaborative, real-world, user-friendly text designed to teach students contemporary techniques to take them into the next century.

*The Poppy Lady* Heather Johnson, 2023-01-31 Madame Anna Guérin is the fascinating personality behind the title 'The Poppy Lady'. Her idea of the 'Inter-Allied Poppy Day' gave work to women and children in the devastated areas of France, in addition to offering support for First World War veterans. Born in 1878, she was an early feminist, becoming financially independent. During the First World War, and the immediate years after the Armistice, many people knew of Madame Guérin's reputation as a selfless fundraiser for French and American charities. Her speeches inspired many people to make generous donations. Having had her name lost in the mists of time, this is the first biography of Madame E. Guérin. The book follows her extraordinary story as 'The Poppy Lady', a woman born before her time, but confined to anonymity for too long.

**At Sister Anna's Feet** Eileen O'Toole, 2010-04-15 Eileen O'Toole has written a frank and brave memoir about her years as a nun and her fearless decision to leave the convent. Every pre-Vatican II Catholic woman will identify with her story. O'Toole opens the door so all can see behind the walls and into the inner life of the convent. Her story is the stuff of fiction, but all too true. Everyone who reads this book will be greatly moved and cheer for the young nun with the big dreams. Patricia Eisemann, publishing executive Eileen O'Toole has written a true life tale that will make your spirits soar. This is required reading for

anyone looking to keep the faith while making a difference in the here and now. Denis Hamill, author of *Fork in the Road*. Spurred on by her Irish Catholic upbringing in the 1950s, Eileen OToole decided to enter the convent and become a nun at the young age of eighteen. Almost immediately, she ran smack up against rules, regulations, and arcane practices that ran counter to her free-spirited nature. Deciding this life was not for her she tried to escape, not once but three times in the first year. During the second year in the novitiate she was assigned to a mission where she would meet the person who would change her life forever. There, the elderly mother superior, Sister Anna, taught her how to develop her true spiritual self. As the years passed, her work taking care of those who lived in the poverty-stricken Brooklyn neighborhood of her parish and beyond, brought her much joy and solidified her commitment to being a nun. However, all that would change when she was reassigned to a wealthy parish on Long Island. No longer allowed to attend to the poor, her life in the convent became unbearable. She knew the only way she could be true to herself and to the mission instilled in her by Sister Anna was to escape. But the decision was a lot easier than the deed.

**Anna** William Loizeaux, 1993 Several weeks after Anna's death, William Loizeaux began a journal, a chronicle of dates and anniversaries, of memories and remembrances. *Anna: A Daughter's Life* is at once an effort to recreate her life and to measure his grief, to find reasons to go on while knowing the past would not let go its hold. Who can make

sense of the death of a child? Where is the design to the enormity of that loss? Anna's death tore a hole in the fabric of her parents' lives, forcing them to confront what had seemed unimaginable.

Women, Collecting, and Cultures Beyond Europe

Arlene Leis,2022-11-04 This book examines collecting around the world and how women have participated in and formed collections globally. The edited volume builds on recent research and offers a wider lens through which to examine and challenge women's collecting histories. Spanning from the seventeenth century to the twenty-first (although not organized chronologically) the research herein extends beyond European geographies and across time periods; it brings to light new research on how artificialia and naturalia were collected, transported, exchanged, and/or displayed beyond Europe. *Women, Collecting and Cultures Beyond Europe* considers collections as points of contact that forged transcultural connections and knowledge exchange. Some authors focus mainly on collectors and what was collected, while others consider taxonomies, travel, patterns of consumption, migration, markets, and the after life of things. In its broad and interdisciplinary approach, this book amplifies women's voices, and aims to position their collecting practices toward new transcultural directions, including women's relation to distinct cultures, customs, and beliefs as well as exposing the challenges women faced when carving a place for themselves within global networks. This study will be of interest to scholars working in collections and collecting,

conservation, museum studies, art history, women's studies, material and visual cultures, Indigenous studies, textile histories, global studies, history of science, social and cultural histories.

**Rendezvous at the Russian Tea Rooms** Paul Willetts, 2015-10-01 *Rendezvous at the Russian Tea Rooms* provides the first comprehensive account of what was once hailed by a leading American newspaper as the greatest spy story of World War II. This dramatic yet little-known saga, replete with telephone taps, kidnappings, and police surveillance, centres on the furtive escapades of Tyler Kent, a handsome, womanising 28-year-old Ivy League graduate, who doubles as a US Embassy code clerk and Soviet agent. Against the backdrop of London high society during the so-called Phoney War, Kent's life intersects with the lives of the book's two other memorably flamboyant protagonists. One of those is Maxwell Knight, an urbane, endearingly eccentric MI5 spyhunter. The other is Anna Wolkoff, a White Russian fashion designer and Nazi spy whose outfits are worn by the Duchess of Windsor and whose parents are friends of the British royal family. Wolkoff belongs to a fascist secret society called the Right Club, which aims to overthrow the British government. Her romantic entanglement with Tyler Kent gives her access to a secret correspondence between President Roosevelt and Winston Churchill, a correspondence that has the potential to transform the outcome of the war.

**Nuclear Forces** Silvan S. Schweber, 2012-06-18 "A highly readable account . . . tracing the future Nobel laureate through his formative years and up

to the eve of World War II" (The Wall Street Journal). On the fiftieth anniversary of Hiroshima, Nobel-winning physicist Hans Bethe called on his fellow scientists to stop working on weapons of mass destruction. What drove Bethe, the head of Theoretical Physics at Los Alamos during the Manhattan Project, to renounce the weaponry he had once worked so tirelessly to create? That is one of the questions answered by *Nuclear Forces*, a riveting biography of Bethe's early life and development as both a scientist and a man of principle. As Silvan Schweber follows Bethe from his childhood in Germany, to laboratories in Italy and England, and on to Cornell University, he shows how these differing environments were reflected in the kind of physics Bethe produced. Many of the young quantum physicists in the 1930s, including Bethe, had Jewish roots, and Schweber considers how Liberal Judaism in Germany helps explain their remarkable contributions. A portrait emerges of a man whose strategy for staying on top of a deeply hierarchical field was to tackle only those problems he knew he could solve. Bethe's emotional maturation was shaped by his father and by two women of Jewish background: his overly possessive mother and his wife, who would later serve as an ethical touchstone during the turbulent years he spent designing nuclear bombs. Situating Bethe in the context of the various communities where he worked, Schweber provides a full picture of prewar developments in physics that changed the modern world, and of a scientist shaped by the unprecedented moral dilemmas those developments in turn created. Praise for *Nuclear*

Forces “Schweber’s account of Hans Bethe’s life . . . reveals the origins of a charismatic scientist, grounded in the importance of his parents and his Jewish roots . . . [Schweber] recreates the social world that shaped the character of the last of the memorable young scientists who established the field of quantum mechanics.” –Publishers Weekly “Nuclear Forces is a carefully researched, historically and biographically insightful account of the development of a profession and of one of its leading representatives during a century in which physics and physicists played key roles in scientific, cultural, political, and military developments.” –David C. Cassidy, author of A Short History of Physics in the American Century
