Turkish Waters and Cyprus Pilot Rod and Lucinda Heikell,2018-12-31 *Turkish Waters and Cyprus Pilot* covers the entire coast of Turkey from the Black Sea down the Aegean coast and around to the Syrian border. The coasts, ports and marinas of the island of Cyprus are also described. There are few more beautiful cities in the world that it is possible to sail into the heart of, but that is what the authors were able to do in Istanbul while researching this, the tenth edition. Their research also took them south as far as Göçek and to Cyprus. Much has changed, with new marinas completed and more under construction, but much has also stayed the same, namely the warmth and hospitality of the people you encounter. This new edition includes all the latest information and marina developments, with new plans and photos, many of which were taken by the authors. *Turkish Waters and Cyprus Pilot* is considered the essential companion to sailing these waters.

As If Silent and Absent Ehud R. Toledano, 2007-07-12 This groundbreaking book reconceptualizes slavery through the voices of enslaved persons themselves, voices that have remained silent in the

narratives of conventional history. Focusing in particular on the Islamic Middle East from the late eighteenth to the early twentieth century, Ehud R. Toledano examines how bonded persons experienced enslavement in Ottoman societies. He draws on court records and a variety of other unexamined primary sources to uncover important new information about the Africans and Circassians who were forcibly removed from their own societies and transplanted to Middle East cultures that were alien to them. Toledano also considers the experiences of these enslaved people within the context of the global history of slavery. The book looks at the bonds of slavery from an original perspective, moving away from the traditional master/slave domination paradigm toward the point of view of the enslaved and their responses to their plight. With keen and original insights, Toledano suggests new ways of thinking about enslavement.

Words in Space and Time Tomasz Kamusella, 2021-11-30 With forty-two extensively annotated maps, this atlas offers novel insights into the history and mechanics of how Central Europe's languages have been made, unmade, and deployed for political action. The innovative combination of linguistics, history, and cartography makes a wealth of hard-to-reach knowledge readily available to both specialist and general readers. It combines information on languages, dialects, alphabets, religions, mass violence, or migrations over an extended period of time. The story first focuses on Central Europe's dialect continua, the emergence of states, and the spread of writing technology from the tenth century onward. Most maps concentrate on the last two centuries. The main storyline opens with the emergence of the Western European concept of the nation, in accord with which the ethnolinguistic nation-states of Italy and Germany were founded. In the Central European view, a

“proper” nation is none other than the speech community of a single language. The Atlas aspires to help users make the intellectual leap of perceiving languages as products of human history and part of culture. Like states, nations, universities, towns, associations, art, beauty, religions, injustice, or atheism—languages are artefacts invented and shaped by individuals and their groups.
