Madagascar (Travel Companion) Sara LeHoullier,2010-08-15 Why should you visit Madagascar? Sara LeHoullier is itching to tell you. Armed with a love of rice with ambiguous meat chunks, a stomach of steel, a firm grasp on multiple dialects of the Malagasy language, and lots of mosquito repellent, Sara explores both on and off the beaten path revealing a truly unique side on the world's 4th largest island. Sara not only makes friends with the lemurs and chameleons, but treks through the national parks, tries to decide which beach is the prettiest (not an easy task), and most importantly, talks to as many people as possible, collecting proverbs, stories, and always friends. In this fantastic hybrid between a travel guide and a travelogue, follow Sara as she transverses the country where she lived for nearly three years and discover hidden places, intriguing characters, and insight into traveling through Madagascar.

The Men Who Flew the Mosquito Martin W. Bowman,2004-02-19 The twin-engined Mosquito was one of the classic aircraft of the Second World War. Famously wooden-built, its graceful lines and powerful performance have made it into an airborne icon. Its operational versatility as a fighter, low level bomber and reconnaissance aircraft was unsurpassed. In this book we get the firsthand crew accounts of a selection of the actions and missions that the 'Mossie' undertook. These include audacious raids on Nazi HQs and Gestapo jails -real precision attacks carried out by ace fliers.

Malaria in Colonial South Asia Sheila Zurbrigg, 2019-08-28 This book highlights the role of

acute hunger in malaria lethality in colonial South Asia and investigates how this understanding came to be lost in modern medical, epidemic, and historiographic thought. Using the case studies of colonial Punjab, Sri Lanka, and Bengal, it traces the loss of fundamental concepts and language of hunger in the inter-war period with the reductive application of the new specialisms of nutritional science and immunology, and a parallel loss of the distinction between infection (transmission) and morbid disease. The study locates the final demise of the 'Human Factor' (hunger) in malaria history within pre- and early post-WW2 international health institutions – the International Health Division of the Rockefeller Foundation and the nascent WHO's Expert Committee on Malaria. It examines the implications of this epistemic shift for interpreting South Asian health history, and reclaims a broader understanding of common endemic infection (endemiology) as a prime driver, in the context of subsistence precarity, of epidemic mortality history and demographic change. This book will be useful to scholars and researchers of public health, social medicine and social epidemiology, imperial history, epidemic and demographic history, history of medicine, medical sociology, and sociology.

Mosquito Mayhem Martin W. Bowman, 2010-11-20 "This is the book that puts the flesh on the bones of its reputation as one of the best aircraft of the Second World War." —Pennant Magazine The flak started about four or five minutes before the target and immediately it was apparent that it was intense and extremely accurate. Oboe entailed the pilot flying dead straight and level for ten minutes on the attack run. Suddenly a tremendous flash lit up the sky about 50 yards ahead of our nose and exactly at our altitude. Within a tenth of a second we were through the cloud of dirty yellowish-brown smoke and into the blackness beyond. I shall never forget the spontaneous reaction of both my pilot and myself. We turned our heads slowly and looked long and deep into one another's eyes—no word was spoken—no words were needed. The Mosquito was probably World War II's most versatile combat

aircraft. This book contains hundreds of firsthand accounts from many of the two-man crews who flew in them; pilots and navigators. It portrays the dramatic experiences of flying in its many roles as pathfinder, night fighter, reconnaissance aircraft, precision bombing and low-level ground attack aircraft. It describes many of the RAF's most audacious raids on prime but difficult targets where carpet bombing by heavy bombers was likely to be ineffective and cause unnecessary casualties to civilians. It is a remarkable record of the aircraft and the men that flew them.
