Rédaction de courriels efficaces, suivi de Rédiger avec concision Nathalène Armand, 2011

Dans notre monde moderne, savoir écrire par courriel est devenu un art que tous les employés doivent désormais maîtriser... en plus du reste ! Quel que soit votre domaine, en plus d'être qualifié dans ce que vous faites, vous devez également être en mesure de communiquer efficacement par écrit. C'est bien connu: les paroles s'envolent, mais les écrits restent. Chaque message envoyé est le reflet de votre image professionnelle, tout comme celle de l'entreprise qui vous emploie. Quel ton utiliser ? Comment structurer efficacement votre contenu ? Quelles formules de salutation privilégier ? Quels sont les pièges à éviter ? Ce livre vous fait part des trucs et des astuces qui vous aideront dans les moments où vous aurez à rédiger (rapidement) des courriels. La première section porte spécifiquement sur la rédaction de courriels, alors que la deuxième vous révèle les dix techniques éprouvées pour écrire avec concision. Car pour aller vite, il faut faire court ; mais faire court demande de la pratique. Les exercices proposés vous permettront de parfaire votre technique. Ils ne feront peut-être pas de vous un homme ou une femme de lettres, mais vos courriels seront désormais clairs et efficaces !

A Reference Grammar of French R. E. Batchelor, M. Chebli-Saadi, 2011-07-14 A Reference Grammar of French is a lively, wide-ranging and original handbook on the structure of the French language. It includes new information on register, pronunciation, gender, number, foreign words (Latin, Arabic, English, Spanish, Italian), adjectives and past participles used as nouns, texting, word order, frequency of occurrence of words, and usage with all geographical names. Examples come not only from France, but also from Quebec, Belgium and Switzerland. Readers will appreciate the initial passages illustrating the grammatical features of a given chapter. Also included is a user-friendly introduction to the French language, from its Latin origins to modern times. A full glossary explains any terms that might confuse the less experienced reader, and the index leads the student through the detailed labyrinth of grammatical features. This handbook will be an invaluable resource for students and teachers who want to perfect their knowledge of all aspects of French grammar.

Instigations Ezra Pound, Ernest Fenollosa, 2014-12-04 Ezra Pound (1885 - 1972) was an American poet and harsh critic following World War I. Pound was also a key contributor to the Modernist movement. One of Pound's most famous works is *Instigations* which is a series of essays critiquing a variety of writers and books.

The Chinese Written Character as a Medium for Poetry Ernest Fenollosa, Ezra Pound, Jonathan Stalling, Lucas Klein, 2009-08-25 First published in 1919 by Ezra Pound, Ernest Fenollosa's essay on the Chinese written language has become one of the most often quoted statements in the history of American poetics. As edited by Pound, it presents a powerful conception of language that continues to shape our poetic and stylistic preferences: the idea that poems consist primarily of images; the idea that the sentence form with active verb mirrors relations of natural force. But previous editions of the essay represent Pound's understanding—it is fair to say, his appropriation—of the text. Fenollosa's manuscripts, in the Beinecke Library of Yale University, allow us to see this essay in a different light, as a document of early, sustained cultural interchange between North America and East Asia. Pound's editing of the essay obscured two important features, here restored to view: Fenollosa's encounter with Tendai Buddhism and Buddhist ontology, and his concern with the dimension of sound in Chinese poetry. This book is the definitive critical edition of Fenollosa's important work. After a substantial Introduction, the text as edited by Pound is presented, together with his notes and plates. At the heart of the edition is the first full publication of the essay as Fenollosa wrote it, accompanied by the many diagrams, characters, and notes Fenollosa (and Pound) scrawled on the verso pages. Pound's deletions, insertions, and alterations to Fenollosa's sometimes ornate prose are meticulously captured, enabling readers to follow the quasi-dialogue between Fenollosa and his posthumous editor.

Earlier drafts and related talks reveal the development of Fenollosa's ideas about culture, poetry, and translation. Copious multilingual annotation is an important feature of the edition. This masterfully edited book will be an essential resource for scholars and poets and a starting point for a renewed discussion of the multiple sources of American modernist poetry.

Madame Bovary Gustave Flaubert, 1982-06-01 This exquisite novel tells the story of one of the most compelling heroines in modern literature--Emma Bovary. Madame Bovary has a perfection that not only stamps it, but that makes it stand almost alone; it holds itself with such a supreme unapproachable assurance as both excites and defies judgement. - Henry James Unhappily married to a devoted, clumsy provincial doctor, Emma revolts against the ordinariness of her life by pursuing voluptuous dreams of ecstasy and love. But her sensuous and sentimental desires lead her only to suffering corruption and downfall. A brilliant psychological portrait, Madame Bovary searingly depicts the human mind in search of transcendence. Who is Madame Bovary? Flaubert's answer to this question was superb: Madame Bovary, c'est moi. Acclaimed as a masterpiece upon its publication in 1857, the work catapulted Flaubert to the ranks of the world's greatest novelists. This volume, with its fine translation by Lowell Bair, a perceptive introduction by Leo Bersani, and a complete supplement of essays and critical comments, is the indispensable Madame Bovary.

Gardens, Knowledge and the Sciences in the Early Modern Period Hubertus Fischer, Volker R. Remmert, Joachim Wolschke-Bulmahn, 2016-06-03 This volume focuses on the outstanding contributions made by botany and the mathematical sciences to the genesis and development of early modern garden art and garden culture. The many facets of the mathematical sciences and botany point to the increasingly "scientific" approach that was being adopted in and applied to garden art and garden culture in the early modern period. This development was deeply embedded in the philosophical, religious, political, cultural and social contexts, running parallel to the beginning of processes of scientization so characteristic for modern European history. This volume strikingly shows how these various developments are intertwined in gardens for various purposes.

The Architectural Theory of Viollet-le-Duc Eugene-Emmanuel Viollet-Le-Duc, 1990-03-07 Among

architects and preservationists, the writings of Viollet-le-Duc (1814-1879) have long been considered major resources. They inspired a generation of American architects, including Frank Furness, John Wellborn Root, Louis Sullivan, and Frank Lloyd Wright. In 1894, the critic Montgomery Schuyler observed that Viollet-le-Duc's books have had the strongest influence on this generation of readers. But for the past century, all but one of his works have been out of print in English. These readings carefully selected from the entire range of Viollet-le-Duc's work make available the historical insights and practical principles of one of the most imaginative, and inspiring architectural theorists of the modern era. M.F. Hearn has culled from Viollet-le-Duc's books on architecture the passages in which his major ideas about the theory of architecture are most cogently expressed. Hearn has arranged and interplated the readings in a sequence of topics covering Viollet-le-Duc's views on the architecture of the past, his convictions about the education of architects, his philosophy of method, principles of design, and his guidelines for restoration. The selections are introduced by a biographical essay connected by interpretive commentaries, and followed by a biographical note.

Encyclopedia of French Film Directors Philippe Rège, 2009-12-11 Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges MZli_s, Alice Guy BlachZ and others followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In Encyclopedia of French Film Directors, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age_Jean Renoir and RenZ Clair_to French New Wave artists such as Fran_ois Truffaut and Jean-Luc Godard.
