Twins to the Tops Eric Gilbertson, Matthew Gilbertson, 2018-07-31 Ten pickets later, we found ourselves on the roof of North America. Yeeeahhhh! I roared at the top of my lungs. I yelled so loud that I actually knocked the wind out of myself for five minutes. At that moment, we were the highest people standing on solid ground in the continent (excerpt from Denali report). The quest to reach the most expansive vista of each country and explore the most remote parts of the world motivated the Gilbertson twins to be the first to climb the highest mountain in all twenty-three North American countries. From the windswept glaciers of Alaska and the Yukon, to the tropical

jungles of Central America, to the razor-grass-covered volcanoes of the Caribbean, Matthew and Eric share the stories and experiences that paved their way through their trip reports and itineraries. They were born and raised in Appalachian Kentucky and later educated at the Massachusetts Institute of Technology, where they joined its famous Outing Club. In this book, they share how they achieved their quest for the summits with both budget consciousness and strategic efficiency in just nine trips! This book is for those who share a thirst for travel, the outdoors, and the mountains. It chronicles a subset of the Gilbertson twins overall goal to climb the 195 world country high points. Stay tuned for more books in the Twins to the Tops series coming soon. For more information, visit our website, <http://www.countryhighpoints.com/>. Advance praise for Twins to the Tops The Gilbertsons strike again! A great resource for mountaineering in North America (Dan Walker, former president, MIT Outing Club). Twins to the Tops is an inspiring read and an effort worthy of a world record (David Rush, 50+ time Guinness World Record breaker). Those boys never stop walking. I reckon these old Kentucky hills was a good place to start (Tony Smith, Appalachian author of These Old Hills).

Antigua, Barbuda & Montserrat Travel Adventures KC. Nash, 2009-07-15 These have long been the type of islands that tourists delighted in "discovering." Seemingly untouched by modern times, they seemed like the "old" Caribbean "small, intimate hotels, pristine beaches, uncluttered roads, with acres of cane fields and rainforests dominating the landscape. You still find hints of the old laid-back islands here, especially in the delightful plantation inns on both islands. These small hotels, built around historical buildings and sugar mills, still have a colonial charm. They are furnished with Caribbean antiques and emphasize the old-fashioned standards of warm, personalized service. So it is possible to sample both the charm of the old world and the activities of the new. Here is a uniquely detailed guide to these islands, excerpted from our much larger Leeward Islands guide. Maps, photos, complete information on all the places to stay, the restaurants, what to see and do.

Managing Crises in Tourism Acolla Lewis-Cameron, Leslie-Ann Jordan, Sherma Roberts, 2021-10-19 This book examines the dilemma of overdependence on tourism in Caribbean countries and territories, and the need for a resilient path to address the industry's vulnerability in the face of natural disasters. The chapters in the book question how tourism resilience is understood and practiced in Caribbean small island developing states (SIDS) and the factors that inform, undermine, or indeed redefine the sustainable resilience agenda for these territories. With its overreliance on tourism and vulnerability to climate, the Caribbean region finds itself susceptible and in need of an innovative approach in order to survive economically. Contributors to this volume touch on all three sustainability pillars and spanning across many tourism sector considerations, such as product development, stakeholder management, hotel management, marketing and entrepreneurship. By spanning the geography of the Anglophone and Spanish Caribbean this book offers a smorgasbord of conceptual and applied perspectives to researchers in the area of tourism resilience in SIDS. It also presents strategic considerations to public and private sector practitioners in implementing measures to strengthen the competitive positioning of their destinations as they contend with the dynamism of the external and internal environments.

Plantations of Antigua: the Sweet Success of Sugar (Volume 2) Agnes C. Meeker MBE, 2018-10-19 Sugar. It sits there, dormant, nestled in a small bowl or serving-size packet, waiting to be spooned into a cup of coffee or tea, spread across some cereal, or dropped into a recipe for cake, pie, or other scrumptious treat in the making. It is so readily available, so easy to use, and so irresistibly tasty. But few people stop to realize the enormous economic, social, political, even military upheaval this simple-looking, widely popular food enhancer has caused in many parts of the world. In the seventeenth and eighteenth centuries, even into the nineteenth century and early decades of the twentieth, sugar cane was a preeminent crop upon which economies succeeded or failed, societies grew, and money flowed like . . . well, sugar! A region particularly impacted by sugar was the volcanic islands of the Caribbean—virgin soil enriched by crushed coral and limestone and blessed by unlimited sunshine.

The result was soil so rich for planting that the necklace of island colonies and small nation-states became a massive source of the world's supply of sugar. Antigua's 108 square miles, an island of undulating hills and indented coastline, fell into this category.
