U.S. Marines In Vietnam: Fighting The North Vietnamese, 1967 Maj. Gary L. Telfer, Lt.-Col. Lane Rogers, Dr. V. Keith Fleming Jr., 2016-08-09 This is the fourth volume in an operational and chronological series covering the U.S. Marine Corps' participation in the Vietnam War. This volume details the change in focus of the III Marine Amphibious Force (III MAF), which fought in South Vietnam's northernmost corps area, I Corps. This volume, like its predecessors, concentrates on the ground war in I Corps and III MAF's perspective of the Vietnam War as an entity. It also covers the Marine Corps participation in the advisory effort, the operations of the two Special Landing Forces of the U.S. Navy's Seventh Fleet, and the services of Marines with the staff of the U.S. Military Assistance Command, Vietnam. There are additional chapters on supporting arms and logistics, and a discussion of the Marine role in Vietnam in relation to the

overall American effort.

Brothers in Berets Forrest L. Marion, 2018 The Air Force Special Operations Command (AFSOC) special tactics community is a small, tight-knit brotherhood of proficient and committed warriors, consisting of special tactics officers and combat controllers, combat rescue officers and pararescuemen, and officer and enlisted special operations weathermen. These warriors have consistently proven themselves to be an invaluable force multiplier throughout history in conflicts around the world. This is their story.--Provided by publisher.

A-10s Over Kosovo Phil M. Haun, Christopher E. Haave, Air University Press, 2011 First published in 2003. The NATO-led Operation Allied Force was fought in 1999 to stop Serb atrocities against ethnic Albanians in Kosovo. This war, as noted by the distinguished military historian John Keegan, marked a real turning point . . . and proved that a war can be won by airpower alone. Colonels Haave and Haun have organized firsthand accounts of some of the people who provided that airpower-the members of the 40th Expeditionary Operations Group. Their descriptions-a new wingman's first combat sortie, a support officer's view of a fighter squadron relocation during combat, and a Sandy's leadership in finding and rescuing a downed F-117 pilot-provide the reader with a legitimate insight into an air war at the tactical level and the airpower that helped convince the Serbian president, Slobodan Milosevic, to capitulate.

U.S. Marines In Vietnam: The Landing And The Buildup, 1965 Dr. Jack Shulimson, Maj. Charles M. Johnson, 2016-08-09 This is the second volume in a series of chronological histories prepared by the Marine Corps History and Museums Division to cover the entire span of Marine Corps involvement in the Vietnam War. This volume details the Marine activities during 1965, the year the war escalated and major American combat units were committed to the conflict. The narrative traces the landing of the nearly 5,000-man 9th Marine Expeditionary Brigade and its transformation into the III Marine Amphibious Force, which by the end of the year contained over 38,000 Marines. During this period, the Marines established three

enclaves in South Vietnam's northernmost corps area, I Corps, and their mission expanded from defense of the Da Nang Airbase to a balanced strategy involving base defense, offensive operations, and pacification. This volume continues to treat the activities of Marine advisors to the South Vietnamese armed forces but in less detail than its predecessor volume, *U.S. Marines in Vietnam, 1954-1964; The Advisory and Combat Assistance Era*.

The Fearless Organization Amy C.

Edmondson, 2018-11-14 Conquer the most essential adaptation to the knowledge economy **The Fearless Organization: Creating Psychological Safety in the Workplace for Learning, Innovation, and Growth** offers practical guidance for teams and organizations who are serious about success in the modern economy. With so much riding on innovation, creativity, and spark, it is essential to attract and retain quality talent—but what good does this talent do if no one is able to speak their mind? The traditional culture of “fitting in” and “going along” spells doom in the knowledge economy. Success requires a continuous influx of new ideas, new challenges, and critical thought, and the interpersonal climate must not suppress, silence, ridicule or intimidate. Not every idea is good, and yes there are stupid questions, and yes dissent can slow things down, but talking through these things is an essential part of the creative process. People must be allowed to voice half-finished thoughts, ask questions from left field, and brainstorm out loud; it creates a culture in which a minor flub or momentary lapse is no big deal, and where actual mistakes are owned and corrected, and where the next left-field idea could be the next big thing. This book explores this culture of psychological safety, and provides a blueprint for bringing it to life. The road is

sometimes bumpy, but succinct and informative scenario-based explanations provide a clear path forward to constant learning and healthy innovation. Explore the link between psychological safety and high performance Create a culture where it's "safe" to express ideas, ask questions, and admit mistakes Nurture the level of engagement and candor required in today's knowledge economy Follow a step-by-step framework for establishing psychological safety in your team or organization Shed the "yes-men" approach and step into real performance. Fertilize creativity, clarify goals, achieve accountability, redefine leadership, and much more. The Fearless Organization helps you bring about this most critical transformation.

Dusk F. Sionil José,2013-03-20 With Dusk (originally published in the Philippines as Po-on), F. Sionil Jose begins his five-novel Rosales Saga, which the poet and critic Ricaredo Demetillo called the first great Filipino novels written in English. Set in the 1880s, Dusk records the exile of a tenant family from its village and the new life it attempts to make in the small town of Rosales. Here

commences the epic tale of a family unwillingly thrown into the turmoil of history. But this is more than a historical novel; it is also the eternal story of man's tortured search for true faith and the larger meaning of existence. Jose has achieved a fiction of extraordinary scope and passion, a book as meaningful to Philippine literature as *One Hundred Years of Solitude* is to Latin American literature. The foremost Filipino novelist in English, his novels deserve a much wider readership than the Philippines can offer.--Ian Buruma, *New York Review of Books* Tolstoy himself, not to mention Italo Svevo, would envy the author of this story.--Chicago Tribune

A Boy in Hiding Stan Rubens, 2006 A poignant, true-survival story of a young boy who hid underground for four years in Holland during World War II. *A Boy In Hiding* sheds a light on the difficult road that lay ahead for Anne Frank-had she survived. Now, sixty years later, Rubens gives a voice to the young boy, who-despite the hardship and difficulties he encountered, never lost his positive view of life.

Austin to ATX Joe Nick Patoski, 2019-01-23 In this gonzo history of the "City of the Violet Crown," author and journalist Joe Nick Patoski chronicles the modern evolution of the quirky, bustling, funky, self-contradictory place known as Austin, Texas. Patoski describes the series of cosmic accidents that tossed together a mashup of outsiders, free spirits, thinkers, educators, writers, musicians, entrepreneurs, artists, and politicians who would foster the atmosphere, the vibe, the slightly off-kilter zeitgeist that allowed Austin to become the home of both Armadillo World Headquarters and Dell Technologies.

Patoski's raucous, rollicking romp through Austin's recent past and hipster present connects the dots that lead from places like Scholz Garten—Texas' oldest continuously operating business—to places like the Armadillo, where Willie Nelson and Darrell Royal brought hippies and rednecks together around music. He shows how misfits like William Sydney Porter—the embezzler who became famous under his pen name, O. Henry—served as precursors for iconoclasts like J. Frank Dobie, Bud Shrake, and Molly Ivins. He describes the journey, beginning with the search for an old girlfriend, that eventually brought Louis Black, Nick Barbaro, and Roland Swenson to the founding of the South by Southwest music, film, and technology festival. As one Austinite, who in typical fashion is simultaneously pursuing degrees in medicine and cinematography, says, "Austin is very different from the rest of Texas." Many readers of Austin to ATX will have already realized that. Now they will know why.

Two Sides of a Barricade Christian

Scholl,2012-01-01 Two Sides of a Barricade argues that to construct global democracy, conflict and dissent must be taken seriously. Christian Scholl explores the political significance of the confrontations within four sites of interaction: bodies, space, communication, and law. Each site of struggle provides a different entry point to understand the influence of protester and police tactics on each other. At the same time, the four sites of struggle allow a comprehensive analysis of how the contestation of global hegemonic forces during summit protests trigger a preemptive shift in social control through increased deployment of biopolitical forms of power.

More Brilliant than the Sun Kodwo Eshun, 2020-02-04 The classic work on the music of Afrofuturism, from jazz to

jungle *More Brilliant than the Sun: Adventures in Sonic Fiction* is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, *More Brilliant than the Sun* is one of the key works to stake a claim for the generative possibilities of Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka kode9.

Underground Suelette Dreyfus, Julian

Assange, 2012-01-05 Suelette Dreyfus and her co-author, WikiLeaks founder Julian Assange, tell the extraordinary true story of the computer underground, and the bizarre lives and crimes of an elite ring of international hackers who took on the establishment. Spanning three continents and a decade of high level infiltration, they created chaos amongst some of the world's biggest and most powerful organisations, including NASA and the US military. Brilliant and obsessed, many of them found themselves addicted to hacking and phreaking. Some descended into drugs and madness, others ended up in jail. As riveting as the finest detective novel and meticulously researched,

Underground follows the hackers through their crimes, their betrayals, the hunt, raids and investigations. It is a gripping tale of the digital underground.

This story is told through a combination of stories, songs, myths and memories from over 200 voices of five generations, woven with a wealth of archival material.

The Social Unconscious Earl Hopper,2003 The social unconscious and its manifestations in group analysis are the focus of this important new book of Earl Hopper's selected papers. Drawing on sociology, psychoanalysis and group analysis, he argues that groups and their participants are constrained unconsciously by social, cultural and political facts and forces.
