Independent Music and Digital Technology in the Philippines Monika E. Schoop,2017-04-21 Since the turn of the century, the impact of digital technologies on the promotion, production and distribution of music in the Philippines has both enabled and necessitated an increase in independent musical practices. In the first in-depth investigation into the independent music scene in the Philippines, Monika E. Schoop exposes and portrays the as yet unexplored restructurings of the Philippine music industries, showing that digital technologies have played an ambivalent role in these

developments. While they have given rise to new levels of piracy, they have also offered unprecedented opportunities for artists. The near collapse of the transnational recording industry in the Philippines stands in stark contrast to a thriving independent music scene in the county's national capital region, Metro Manila, which cuts across musical genres and whose members successfully adjust to a rapidly evolving industry scenario. Independent practices have been facilitated by increased access to broadband Internet, the popularity of social media platforms and home recording technology. At the same time, changing music industry structures often leave artists with no other option but to operate independently. Based on extensive fieldwork online and offline, the book explores the diverse and innovative music production, distribution, promotion and financing strategies that have become constitutive of the independent music scene in twenty-first-century Manila.

All You Need to Know About the Music Business Donald S. Passman,2023-10-24 Dubbed “the industry bible” by the Los Angeles Times, All You Need to Know About the Music Business by veteran music lawyer Donald Passman is the go-to guide for everyone in the music business through ten editions, over thirty years, and over a half a million copies sold. Now with updates explaining why musicians have more power today than ever in history; discussion of the mega-million-dollar sales of artists’ songs and record catalogs; how artist access to streaming media, and particularly TikTok, has completely reshaped the music business; the latest on music created by AI; and a full update of the latest numbers and trends. For more than thirty years, All You Need to Know About the Music

Business has been universally regarded as the definitive guide to the music industry. Now in its eleventh edition, Passman leads novices and experts alike through what has been the most profound change in the music business since the days of wax cylinders and piano rolls: streaming. For the first time in history, music is no longer monetized by selling something—it's monetized by how many times a listener streams a song. And also, for the first time, artists can get their music to listeners without a record company gatekeeper, creating a new democracy for music. The "industry bible" (Los Angeles Times), now updated, is essential for anyone in the music business—musicians, songwriters, lawyers, agents, promoters, publishers, executives, and managers—and the definitive guide for anyone who wants to be in the business. So, whether you are—or aspire to be—in the music industry, veteran music lawyer Passman's comprehensive guide is an indispensable tool. He offers timely information about the latest trends, including the reasons why artists have more clout than ever in history, the massive influence of TikTok, the mega million dollar sales of artists' songs and record catalogs, music in Web3 and the Metaverse, music created by AI, and a full update of the latest numbers and practices.
