Make Time Jake Knapp, John Zeratsky, 2018-09-25 From the New York Times bestselling authors of Sprint comes "a unique and engaging read about a proven habit framework [that] readers can apply to each day" (Insider, Best Books to Form New Habits). "If you want to achieve more (without going nuts), read this book."—Charles Duhigg, author of The Power of Habit Nobody ever looked at an empty calendar and said, The best way to spend this time is by cramming it full of meetings! or got to work in the morning and thought, Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned design sprint, Jake and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. Make Time is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. Make Time isn't about productivity, or checking off more to-dos. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, If only there were more hours in the day..., Make Time will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.

Indistractable Nir Eyal, 2019-09-10 Indistractable provides a framework that will deliver the focus you need to get results. –James Clear, author of Atomic Habits If you value your time, your focus, or your relationships, this book is essential reading. I'm putting these ideas into practice. –Jonathan Haidt, author of The Righteous Mind National Bestseller Winner of the Outstanding Works of Literature (OWL) Award Included in the Top 5 Best Personal Development Books of the Year by Audible Included in the Top 20 Best Business and Leadership Books of the Year by Amazon Featured in The Amazon Book Review Newsletter, January 2020 Goodreads Best Science & Technology of 2019 Finalist You sit down at your desk to work on an important project, but a notification on your phone interrupts your morning. Later, as you're about to get back to work, a colleague taps you on the shoulder to chat. At home, screens get in the way of quality time with your family. Another day goes by, and once again, your most important personal and professional goals are put on hold. What would be possible if you followed through on your best intentions? What could you accomplish if you could stay focused? What if you had the power to become indistractable? International bestselling author, former Stanford lecturer, and behavioral design expert, Nir Eyal, wrote Silicon Valley's handbook for making technology habit-forming. Five years after publishing Hooked, Eyal reveals distraction's Achilles' heel in his groundbreaking new book. In Indistractable, Eyal reveals the hidden psychology driving us to distraction. He describes why solving the problem is not as simple as swearing off our devices: Abstinence is impractical and often makes us want more. Eyal lays bare the secret of finally doing what you say you will do with a four-step, research-backed model. Indistractable reveals the key to getting the best out of technology, without letting it get the best of us. Inside, Eyal overturns conventional wisdom and reveals: • Why distraction at work is a symptom of a dysfunctional company culture—and how to fix it • What really drives human behavior and why time management is pain management • Why your relationships (and your sex life) depend on you becoming indistractable • How to raise indistractable children in an increasingly distracting world Empowering and optimistic, Indistractable provides practical, novel techniques to control your time and

attention—helping you live the life you really want.

*Goodbye, Things: The New Japanese Minimalism* Fumio Sasaki, 2017-04-11 The best-selling phenomenon from Japan that shows us a minimalist life is a happy life. Fumio Sasaki is not an enlightened minimalism expert or organizing guru like Marie Kondo—he's just a regular guy who was stressed out and constantly comparing himself to others, until one day he decided to change his life by saying goodbye to everything he didn't absolutely need. The effects were remarkable: Sasaki gained true freedom, new focus, and a real sense of gratitude for everything around him. In *Goodbye, Things* Sasaki modestly shares his personal minimalist experience, offering specific tips on the minimizing process and revealing how the new minimalist movement can not only transform your space but truly enrich your life. The benefits of a minimalist life can be realized by anyone, and Sasaki's humble vision of true happiness will open your eyes to minimalism's potential.

**Master Your Workday Now!** Michael Linenberger, 2010 Comparable to such classics as Stephen Covey's *The Seven Habits of Highly Effective People*, this new title presents fresh and profound strategies for reaching success in one's workday and life.

*Shadow Work* Craig Lambert, 2015-05-01 With the exception of sleep, humans spend more of their lifetimes on work than any other activity. It is central to our economy, society, and the family. It underpins our finances and our sense of meaning in life. Given the overriding importance of work, we need to recognize a profound transformation in the nature of work that is significantly altering lives: the incoming tidal wave of shadow work. Shadow work includes all the unpaid tasks we do on behalf of businesses and organizations. It has slipped into our routines stealthily; most of us do not realize how much of it we are already doing, even as we pump our own gas, scan and bag our own groceries, execute our own stock trades, and build our own unassembled furniture. But its presence is unmistakable, and its effects far-reaching. Fueled by the twin forces of technology and skyrocketing personnel costs, shadow work has taken a foothold in our society. Lambert terms its prevalence as middle-class serfdom, and examines its sources in the invasion of robotics, the democratization of expertise, and new demands on individuals at all levels of society. The end result? A more personalized form of consumption, a great social leveling (pedigrees don't help with shadow work!), and the weakening of communities as robotics reduce daily human interaction. *Shadow Work* offers a field guide to this new phenomenon. It shines a light on these trends now so prevalent in our daily lives and, more importantly, offers valuable insight into how to counter their effects. It will be essential reading to anyone seeking to understand how their day got so full—and how to deal with the ubiquitous shadow work that surrounds them.

**Duct Tape Parenting** Vicki Hoefle, 2016-10-14 There's a new set of 3Rs for our kids—respect, responsibility, and resilience—to better prepare them for life in the real world. Once developed, these skills let kids take charge, and let parents step back, to the benefit of all. Casting hover mothers and helicopter parents aside, Vicki Hoefle

encourages a different, counter-intuitive-yet much more effective-approach: for parents to sit on their hands, stay on the sidelines, even if duct tape is required, so that the kids step up. Duct Tape Parenting gives parents a new perspective on what it means to be effective, engaged parents and to enable kids to develop confidence through solving their own problems. This is not a book about the parenting strategy of the day-what the author calls Post-It Note Parenting-but rather a relationship-based guide to span all ages and stages of development. Witty, straight-shooting Hoefle addresses frustrated parents everywhere who are ready to raise confident, capable children to go out in the world.

**Making a To-Do List** IntroBooks Team,2019-12-04 When there are too many tasks to do, it is easy to get perplexed. Between the personal obligation and work responsibility, life may get stressful and we can forget the important tasks. Making a to-do list keeps one organized while you do not forget something important. An organized to-do-list can help to prioritize certain tasks and so it is important to rank the activities properly. Keep track of the things to be finished within the deadline and feel more productive. A busy person like an entrepreneur needs to handle several tasks and if he forgets even a single one, there can be problems. By preparing a to-do-list, he may ensure that he focuses on the right tasks and be productive in the meanwhile. New entrepreneurs who break new grounds or learn with trial and error, they need to prepare to-do-list to focus on the important tasks. Around 80% of the population now create to-do-list as it is a powerful tool. But, the list of tasks at hand shouldn't be torture to follow, or rather it shouldn't drain one's energy. Drive out the pattern of negative thoughts and use it to your advantage.

**Dare to Lead** Brené Brown,2018-10-09 #1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned

businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.
