In addition to techniques for hiking and mountain biking special to desert conditions, Grubbs tells how to prepare your vehicle for remote desert roads and how to avoid getting stuck in sand or busting a tire. He discusses navigating in the desert, dry camping skills, and techniques for minimum impact on this starkly beautiful but fragile environment. There are tips for dealing with desert heat-and cold-and other challenges (sharp spiny plants and venomous snakes are easy to avoid with a little preparation and know-how). But just in case, Grubbs troubleshoots the worst-case scenarios. Throughout, he gives an understanding of desert climate and seasons, and the unique plants and creatures at home in it.
