Proceedings of the International Conference on Art Design and Digital Technology, ADDT 2022, 16-18 September 2022, Nanjing, China Afizan Bin Azman, Norfadilah Kamarudin, Yi Ji, 2022-12-02 The 2022 International Conference on Art Design and Digital Technology (ADDT 2022) was successfully held on September 16-18, 2022 in Nanjing, China (virtual conference). ADDT 2022 created a forum for idea sharing and research exchange, opened up new perspectives in related fields and broadened the horizons of all participants. In the conference, 150 individuals around the world took part in the conference. Divided into three parts, the conference agenda covered keynote speeches, oral presentations and online Q&A discussion. Firstly, the keynote speakers were each allocated 30-45 minutes to address their speeches. Then in the oral presentations, the excellent papers we had selected were presented by their authors one by one. We are glad to share with you that we've selected a bunch of high-quality papers from the submissions and compiled them into the proceedings after rigorously reviewing them. These papers feature but are not limited to the following topics: Computer Art, Visual Design, Digital Media, Innovative Technology, etc. All the papers have been checked through rigorous review and processes to meet the requirements of publication. We would like to acknowledge all of those who supported ADDT 2022 and made it a great success. In particular, we would like to thank the European Alliance for Innovation (EAI), for the hard work of all its colleagues in publishing this paper volume. We sincerely hope that the ADDT 2022 turned out to be a forum for excellent discussions that enable new ideas to come about, promoting collaborative research.

Slides for Students Gary D. Fisk, 2018-10-16 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. To unleash the full potential of powerpoint presentations, we must do a better job of creating presentations that fit the educational needs of students. Slides for Students does just that. Slides for Students is an open and honest discussion about powerpoint in the classroom. A need exists for thoughtfully designed and implemented classroom instruction that focuses on the learner rather than on the technology. This book was written to translate academic research findings into practical suggestions about powerpoint that educators can use. Divided into two parts, Slides for Students discusses the history of powerpoint, explores academic studies on the topic, and demonstrates how to design slides to best suit educational needs and engage with students to avoid the dreaded death by powerpoint.

Remote Work Revolution Tsedal Neeley, 2021-03-30 LONGLISTED FOR THE FINANCIAL TIMES & MCKINSEY BUSINESS BOOK OF THE YEAR “I often talk about the importance of trust when it comes to work: the trust of your employees and building trust with your customers. This book provides a blueprint for how to build and maintain that trust and connection in a digital environment.” —Eric S. Yuan, founder and CEO of Zoom A Harvard Business School professor and leading expert in virtual and global work provides remote workers and leaders with the best practices necessary to perform at the highest levels in their organizations. The rapid and unprecedented changes brought on by Covid-19 have accelerated the transition to remote working, requiring the wholesale migration of nearly entire companies to virtual work in just weeks, leaving managers and employees scrambling to adjust. This massive transition has forced companies to rapidly advance their digital footprint, using cloud, storage, cybersecurity, and device tools to accommodate their new remote workforce. Experiencing the benefits of remote working—including nonexistent commute times, lower operational costs, and a larger pool of global job applicants—many companies, including Twitter and Google, plan to permanently incorporate remote days or give employees the option to work from home full-time. But virtual work has its challenges. Employees feel lost, isolated, out of sync, and out of sight. They want to know how to build trust, maintain connections without in-person interactions, and a proper work/life balance. Managers want to know how to lead virtually, how to keep their teams motivated, what digital tools they’ll need, and how to keep employees productive. Providing compelling, evidence-based answers to these and other pressing issues, *Remote Work Revolution* is essential for navigating the enduring challenges teams and managers face. Filled with specific actionable steps and interactive tools, this timely book will help team members deliver results previously out of reach. Following Neeley’s advice, employees will be able to break through routine norms to successfully use remote work to benefit themselves, their groups, and ultimately their organizations.

Schein, 2010-07-16 Regarded as one of the most influential management books of all time, this fourth edition of *Leadership and Organizational Culture* transforms the abstract concept of culture into a tool that can be used to better shape the dynamics of organization and change. This updated edition focuses on today's business realities. Edgar Schein draws on a wide range of contemporary research to redefine culture and demonstrate the crucial role leaders play in successfully applying the principles of culture to achieve their organizational goals.
