Online Security for the Business Traveler Deborah Gonzalez, 2014-08-23 Whether attending conferences, visiting clients, or going to sales meetings, travel is an unavoidable necessity for many businesspeople. Today's high-tech enabled businessperson travels with electronic devices such as smartphones, tablets, laptops, health sensors, and Google Glass. Each of these devices offers new levels of productivity and efficiency, but they also become the weak link in the security chain: if a device is lost or stolen during travel, the resulting data breach can put the business in danger of physical, financial, and reputational loss. Online Security for the Business Traveler provides an overview of this often overlooked problem, explores cases highlighting specific security issues, and offers practical advice on what to do to ensure business security while traveling and engaging in online activity. It is an essential reference guide for any travelling business person or security professional. Chapters are organized by travel stages for easy reference, including planning, departure, arrival, and returning home Touches on the latest technologies that today's business traveler is using Uses case studies to highlight specific security issues and identify areas for improved risk mitigation

No Fear Allowed Laura Herring, 2015-08-04 This business leader's biography is "an honest book, a rare insight into the truth of what entrepreneurs face every day" (Maxine Clark, founder, Build-A-Bear Workshop; founding member, PROSPER Women Entrepreneurs). In No Fear Allowed, Laura Herring traces her story from psychologist to entrepreneur and then business leader, sharing her experience as the Founder and Chairwoman of IMPACT Group, a global company she grew to almost fifty million dollars. Filled with straight talk from the frontlines of corporate America that can benefit anyone in business, no matter what level, this inspiring read reminds us that whether you're an entrepreneur, an intrapreneur in a corporate setting, or simply a lover of great business biographies, "No Fear Allowed" is not just a phrase. It's a battle cry! "An amazing, heartfelt personal story of overcoming failure after failure on the road to triumph . . . Her lessons learned at the end of each chapter are worth the price of the book alone." —Sandra Yancey, founder and CEO, eWomenNetwork

*Small Boats, Weak States, Dirty Money* Martin N. Murphy,2009 Many believe that pirates and other water-bound terrorists present a significant threat to international maritime security. Testing the validity of this claim, Martin N. Murphy scrutinizes recent incidents of maritime terrorism and locates the commonalities between pirates and maritime terrorists that enable them to commit their extensive crimes. Murphy's research opens up surprising sites of contact between pirates and wider criminal networks, organizations that pursue their corrupt agendas not only on sea but also on land. It is these relationships, Murphy argues, that bring about the destabilization of states and regions in which piracy occurs. Murphy's most significant revelation is the way in which maritime criminality may disguise insurgent and terrorist activity, allowing such actors greater freedom to maneuver. Although these acts currently rank as a low-level threat, piracy feeds off of political upheaval. Before they can evolve into a truly powerful and dangerous force, however, maritime terrorists and insurgents will have to overcome significant operational and technical issues. They must also capture the attention of an international audience by committing atrocities at sea that are as devastating as those committed on land.

*The Gray Rhino* Michele Wucker, 2016-04-05 The #1 English-language bestseller in China--the book that is shaping China's planning and policy for the future. A gray rhino is a highly probable, high impact yet neglected threat: kin to both the elephant in the room and the improbable and unforeseeable black swan. Gray rhinos are not random surprises, but occur after a series of warnings and visible evidence. The bursting of the housing bubble in 2008, the devastating aftermath of Hurricane Katrina and other natural disasters, the new digital technologies that upended the media world, the fall of the Soviet Union...all were evident well in advance. Why do leaders and decision makers keep failing to address obvious dangers before they spiral out of control? Drawing on her extensive background in policy formation and crisis management, as well as in-depth interviews with leaders from around the world, Michele Wucker shows in *The Gray Rhino* how to recognize and strategically counter looming high impact threats. Filled with persuasive stories, real-world examples, and practical advice, *The Gray Rhino* is essential reading for managers, investors, planners, policy makers, and anyone who wants to understand how to profit by avoiding getting trampled.
