Dawn Apgar, PhD, LSW, ACSW

Virginia Apgar Xina M. Uhl, Melanie Ann Apel, 2019-12-15 Prior to the development of a simple test called the Apgar score, many newborn babies missed receiving the urgent care they needed at birth. Dr. Virginia Apgar came up with the Apgar score to help these newborns by rating them in a number of different health areas. The savior of countless young lives, Virginia Apgar is hailed as a legend, a trailblazer, and an inventor. Readers delve into the riveting story of a medical legend who inspired women doctors to succeed at a time when society did not value the contributions of women in the work force.

Virginia Wouldn't Slow Down!: The Unstoppable Dr. Apgar and Her Life-Saving Invention Carrie A. Pearson, 2023-08-07 A delightful and distinctive picture book about Dr. Virginia Apgar, who invented the eponymous test for evaluating newborn health that's used worldwide every day. The Apgar Score is known the world over: a test given to babies to determine their health moments after they are born. Less well-known is the story of the brilliant, pioneering woman who invented it. Born at the turn of the twentieth century, Virginia "Ginny" Apgar soared above what girls were expected to do—or not do. She wasn't quiet, she wore all sorts of outfits, she played the sports she wanted to—and she pursued the career she chose, graduating near the top of her class at Columbia University and becoming only the second board-certified female anesthesiologist in the United States. The simple five-step test she

created—scribbled on the back of a piece of paper in answer to a trainee’s question—became the standard and continues to impact countless newborn babies’ lives today. Ginny adored science, hated cooking, drove fast, made her own violins, earned a pilot’s license, and traveled the world. Here, Carrie Pearson’s jaunty storytelling and Nancy Carpenter’s playful illustrations capture the energy and independence of a woman who didn’t slow down for anything—and changed newborn care forever.

Virginia Apgar Melanie Apel, 2003-12-15 Profiles a woman anesthesiologist who was a pioneer in medicine, graduating from medical school at a time when few women attended college and going on to develop the Apgar score for measuring a newborn's physical condition at birth.
