Diagnostic Interviewing Michel Hersen, Samuel M. Turner, 2013-03-09 Perhaps the most difficult milestone in a young clinician's career is the completion of the first interview. For the typical trainee, the endeavor is fraught with apprehension and with some degree of dread. If the interview goes well, there is considerable rejoicing; if it goes badly, much consternation results. Irrespective of the amount of preparation that has taken place before the interview, the neophyte will justifiably remain nervous about this endeavor. Thus, the first edition of *Diagnostic Interviewing* was devoted to providing a clear outline for the student in tackling a large variety of patients in the interview setting. In consideration of the positive response to the first edition of *Diagnostic Interviewing*, published in 1985, we and our editor at Plenum Press, Eliot Werner, decided that it was time to update the material. However, the basic premise that a book of this nature needs to encompass theoretical rationale, clinical description, and the pragmatics of how to once again has been followed. And, as in the case of the first edition, this second edition does not represent the cat's being skinned in yet another way. Quite to the contrary, we still believe that our students truly need to read the material covered herein with considerable care, and once again the book is dedicated to them. We are particularly concerned that

in the clinical education of our graduate students, interviewing has been given short shrift.

Banksters, Bosses, and Smart Money Timothy Messer-Kruse, 2004 *Banksters, Bosses, and Smart Money* uncovers the causes of one city's economic collapse by tracing the interlocking directorships, political machines, and insider deals that made quick fortunes for the well-connected while jeopardizing the savings of tens of thousands of depositors. It documents how the power of the city's financial elites continued even after the calamitous bank crash of 1931, skewing the liquidation of insolvent banks in their favor and shielding those responsible from criminal prosecution.

International Investment Protection of Global Banking and Finance Arif H. Ali, David L. Attanasio, 2021-09-14 *Global banking and finance* is a complex and specialized field with sector-specific investment forms, subject to distinctive legal and regulatory frameworks and unique types of political risk. This comprehensive guide to international investment protection in the finance and banking sector, written by acknowledged experts in the field of investor-State arbitration, provides the first in-depth discussion of how international investment law applies to investors and investments in the sector. Featuring expert guidance on the key legal protections for cross-border banking and finance investments, with complete and up-to-date coverage

of investor-State cases, the analysis crystallizes a set of field-specific legal principles for the sector. In particular, the authors address the following practical aspects of investment protection in the banking and finance sector: how sector-specific forms of investment, such as loans and derivatives, impact the dispute resolution process; types of political risk that cross-border investments in the sector are likely to encounter; distinctive adverse sovereign measures that underlie disputes in the sector, including those from sovereign debt defaults and banking sector bailouts; specific treaty provisions, such as jurisdictional carve-outs and targeted exclusions; remedies available for violations of international investment protections; how monetary damages may be assessed for injury to banking and finance sector investments; the scope of financial services chapters included in certain free trade agreements; the protections available under domestic foreign investment laws; and alternative sources of protection such as political risk insurance and investment contracts. International disputes practitioners and academics, in-house counsel in the finance and banking industries, and arbitrators addressing banking and finance disputes will welcome this book for its practical guidance. With strategies for investors as well as for sovereign States to navigate the intricacies of the investment protection system, the authors' comprehensive analysis will help ensure appropriate international protection for banking and finance sector investments, both when establishing investments and when resolving disputes.

The book lays the groundwork for the future consolidation of international investment protection as a critical tool to manage the political risk confronting global banking and finance.

Arbitration in Egypt Ibrahim Shehata, 2021-10-05 Egypt, and in particular the Cairo Regional Centre for International Commercial Arbitration (CRCICA), has clearly cemented its status as a preferred seat for arbitration cases in both the Middle East–North Africa (MENA) region and the African continent. To assist parties with a need or desire to arbitrate disputes arising in these regions – whether commercial or investment – this incomparable book, the first in-depth treatment in any language of arbitration practice under Egyptian law, provides a comprehensive overview of the arbitration process and all matters pertaining to it in Egypt, starting with the arbitration agreement and ending with the recognition and enforcement of the arbitral award. Citing more than 2,500 cases – both awards and arbitral-related court judgments – the book’s various chapters examine in detail how Egypt’s arbitration law, based on the UNCITRAL model law, encompasses such internationally accepted arbitral provisions and aspects as the following: application of the New York Convention; concept of arbitrability; choice of applicable law; formation of the arbitral tribunal; selection, rights, duties, liability, and challenge of arbitrators; arbitral procedures; evidence and experts and burden of proof; form and content of arbitral awards; annulment and enforcement procedures; interaction between Sharia law

and arbitration; role of Egypt's Technical Office for Arbitration (TOA); and judicial fees. Special issues such as third-party funding and public policy as well as particular areas of dispute such as construction, sports, real estate, labor and employment, tax, competition, intellectual property, and technology transfer are all covered. The author offers practical guidelines tailored to arbitration in these specific areas of law. An added feature is the many figures and other visuals that accompany the text. For whoever is planning to or is currently practicing arbitration in the Middle East, this matchless book gives arbitrators, in-house counsel and arbitration practitioners everything that is needed to answer any question likely to arise. This book should be on the shelf of every practitioner and academic wishing to comprehend arbitration in Egypt as construed by the Egyptian Courts. Review/Testimonial: "The book is an excellent contribution to understand and assess Egyptian international arbitration law and practice and invaluable guide for lawyers, arbitrators and academics working on arbitration cases connected to Egypt for three main reasons: First, a case law perspective that adds considerable value to the book. The author examines not only the text of laws but also the case law. On every issue, Mr Shehata quotes the positions of Egyptian courts, especially those of the Egyptian Cassation Court. With more than 2,500 cases cited, the book is a precious source to discover the Egyptian decisions originally only in Arabic. Through an analysis and commentary of a great number of decisions rendered by various

levels of Egyptian courts, the book offers the most reliable source with regard to the interpretation and the application of the Law No. 27 of 1994 and the international conventions by Egyptian courts. Second, a complete and far-reaching analysis. The book covers all aspects of the arbitration process from the arbitration agreement to the enforcement of arbitral awards. It includes the specific arbitration sectors such as sport arbitration, construction arbitration and investment arbitration. This coverage makes the book one of the reference work on the whole regime of arbitration in Egypt. Third, an up-to-date study, which takes into account rule changes and up-to-date developments on new trends, such as third-party funding, optional clauses, virtual hearings, the use of tribunal secretaries and issues of ethics in arbitration." The Jacksonian Conservatism of Rufus P. Ranney David M. Gold, 2017 In *The Jacksonian Conservatism of Rufus P. Ranney*, David M. Gold works with the public record to reveal the contours of the life and work of one of Ohio's most intriguing legal figures.

Criminal Law Paul H. Robinson, 1997 In his student treatise, noted authority Paul Robinson uses the Model Penal Code, realistic hypotheticals, and lucid explanations to describe the existing rules of American criminal law. (In fact, professors consistently remark on how well written and clear Robinson's

text is.) He explains the reasoning behind those rules, The interrelation among them, and their application. Robinson gives the MPC's position on each topic, along with the most common deviations from it. Rather than viewing each rule in isolation, he examines each part of criminal law as a piece of a machine for determining criminal liability. The six parts of the book define those interrelationships: Introduction General Principles in the Definition of Offenses Principles of Imputation General Defenses Inchoate Liability Specific Offenses Since lawyers who know the reasoning of the drafters have a powerful advantage in arguing for a particular interpretation of a code provision, Robinson points students to important bibliographic sources at the end of each section. Each chapter starts with a hypothetical based on a real case. Throughout the chapter, Robinson refers back To The hypothetical, using it as a vehicle to analyze and clarify abstract concepts. Numerous footnotes, case references, and bibliographies make this text a lasting research tool. For a meaningful exploration of this fascinating area of study, you can depend on Paul Robinson's Criminal Law . Be sure to recommend this vital work to your next criminal law class.
