*The Practice Co - Volume Three* Liz Milani,2020-11-16 In 2012 I began writing (and designing) short devotional pieces. We posted them on Instagram thinking that our friends and family would politely like them. But to our absolute shock, complete strangers liked them, too. A few years on, and here we are. I never dreamed that Pocket Fuel would turn into this practice and lead me to you. I'm forever grateful for it, no matter how rudimentary and humble our beginnings were. Not too long into our Instagram experiment, we found ourselves asking deeper questions around our faith. Everything we thought we knew; thought we had a handle on; thought was secure and for always; was challenged, questioned, and stripped bare. We experienced tragedy at home, and at work. We quit our jobs as Pastors, and started from scratch (faith and vocation) in our mid thirties. But through what felt like the death of all we thought we knew and would be, we found beauty and community. Our faith has a vibrancy that it was once devoid of. And our questions and doubts? I no-longer feel guilty for having them. They are an active part of my faith.

**Bringing Down the House** Ben Mezrich,2002-12-02 The #1 national bestseller, now a major motion picture, 21—the amazing inside story about a gambling ring of M.I.T. students who beat the system in Vegas—and lived to tell how. Robin Hood meets the Rat Pack when the best and the brightest of M.I.T.'s math students and engineers take up blackjack under the guidance of an eccentric mastermind. Their small blackjack club develops from an experiment in counting cards on M.I.T.'s campus into a ring of card savants with a system for playing large and winning big. In less than two years they take some of the world's most sophisticated casinos for more than three million dollars. But their success also brings with it the formidable ire of casino owners and launches them into the seedy underworld of corporate Vegas with its private investigators and other violent heavies.

*Building Versatile Mobile Apps with Python and REST* Art Yudin,2020 Develop versatile iOS apps using Python with RESTful web services. This book will show you how to blend Django, a high-level Python Web framework, with Django REST, the powerful, feature-filled extension, to build iOS mobile apps. Using easy-to-follow examples, you'll begin by building a simple app using the RESTful Web API and iOS. You'll then work with traditional Django to create models and connect your App to the database. You'll also see how to serialize your data and create the RESTful API. The second part of the book introduces Xcode, a programming environment to develop iOS apps. Using Swift, the programming language for iOS, you'll design the actual app. Once you have your back-end in Django and a front-end in Swift, you'll connect them using our RESTful API. This will allow you to log in, browse places of interest, and rate them and leave comments. Guided by step-by-step instructions, Building Versatile Mobile Apps with Python and REST will demonstrate how easy it is to use Python to develop iOS applications. You will: Build Create-Read-Update-Delete functionality using RESTful Web Services ; Incorporate marketing into the design of iOS apps to stand out in the App Store ; Deploy your app to a live server and add it to Apple app store .

**Nantucket** Liza Gershman,Carrie Nieman Culpepper,2020-07-31 - Nantucket style features a high-end island lure and many design creations, and this book's major appeals are for those who love home, fashion, luxury, sailing, surfing, and designer photography- This stunning book features gorgeous photographic portraits and environmental shots of islanders in their homes and leisure pursuits, as well as illustrations of elements that shape signature Nantucket aesthetics. The visuals are complimented with essays on the island customs, activities, and history that helped shape this island's unique culture- Co-authors Liza Gershman and Carrie Culpepper have stepped into the lives of the island's characters, with interviews with various inhabitants, including prominent personalities, such as writer, actor, and creator of TV show Odd Mom Out Jill Kargman, and best-selling novelist Elin Hilderbrand, as well as lifelong residents, descendants of members of families who have been on the island dating back to its Quaker settlement in 1660, and many more- The authors have been long-time visitors of Nantucket. Liza lived there full-time for a year and has been an active member across the island in many projects and groups, so her intimacy with the island and its people is unique. And in the course of researching for various articles about the island, Carrie has gotten to know many stylish and influential islandersNOBODY ACCIDENTALLY HAPPENS UPON NANTUCKET. Nantucket Summer: Classic American style 30 miles out to sea explores how the island's classic New England nautical style is shaped by its rugged landscape, as well as the sport, art, and lifestyle of its influential and everyday inhabitants. The island's tight-knit community of achievers, dreamers, and dropouts has created an enviable aesthetic that's affected in equal measure by the people, its historic gray-shingle homes and the 14-mile-long island itself, its wind, sea, and wild landscape. This stunningly photographed book will feature portraits and environmental shots of summer residents and islanders in their homes and leisure pursuits across the island, as well as watercolor illustrations of elements that shape their Nantucket style.

Spatial Neglect Peter W Halligan,Ian Robertson,2014-01-14 Spatial neglect is a profound clinical problem as well as intriguing scientific problem. In the last ten years, there has been an explosion of interest in this disorder, which as a result is no longer viewed as a single entity, but rather as a number of different disorders. This book is an attempt to bring the reader up to date with the latest advances in understanding neglect, at least insofar as this contributes to better clinical assessment, management and treatment. This is not a book for the specialist researcher in the neuropsychology of neglect and attention. Rather, it is a book aimed at clinicians - student and trained - from all disciplines involved in the assessment, management and treatment of neglect. The book begins with the description of four cases manifesting different types of unilateral neglect. The reader is introduced to different aspects of neglect through these patients. These distinctions include those between personal and extrapersonal neglect, motor versus sensory neglect and many others. The reader is also introduced to other phenomena that are closely related to neglect, including anosognosia and impaired sustained attention. The latest methods of assessment of neglect are also described, as are methods of treatment, again with reference to the four introductory specimen cases.
