Shook One Charlamagne Tha God,2019-09-03 Charlamagne Tha God, New York Times bestselling author of *Black Privilege* and always provocative cohost of *Power 105.1's The Breakfast Club*, reveals his blueprint for breaking free from your fears and anxieties. Being "shook" is more than a rap lyric for Charlamagne, it's his mission to overcome. While it may seem like he's ahead of the game, he is actually plagued by anxieties, such as the fear of losing his roots, the fear of being a bad dad, and the fear of being a terrible husband. In the national bestseller *Shook One*, Charlamagne chronicles his journey to beat those fears and shows a path that you too can take to overcome the anxieties that may be holding you back. Ironically, Charlamagne's fear of failure—of falling into the life of stagnation or crime that caught up so many of his friends and family in his hometown of Moncks Corner—has been the fuel that has propelled him to success. However, even after achieving national prominence as a radio personality, Charlamagne still found himself paralyzed by anxiety and distrust. Here, in *Shook One*, he is working through these problems—many of which he traces back to cultural PTSD—with help from mentors, friends, and therapy. Being anxious doesn't serve the same purpose anymore. Through therapy, he's figuring out how to get over the irrational fears that won't take him anywhere positive. Charlamagne hopes *Shook One* can be a call to action: Getting help is your right. His second book "cements the radio personality's stance in making sure he's on the right side of history when it comes to society's growing focus on mental health, while helping remove the negative stigma" (Billboard).

This indispensable guide features exclusive and highly informative interviews with insiders across multiple genres, including Tim Wipperman, "the publisher's publisher" in Nashville, Grammy-nominee J.P. Saxe ("If the World Was Ending") and Grammy-winner Debbie Hupp ("You Decorated My Life"), R&B mega-producers/writers for Rihanna, Carl Sturken and Evan Rogers, Grammy-winner and composer of instrumental music Art Munson, jingle writer Jim Andron, and Grammy- and Emmy-winning children's songwriters Michael Silversher and Patty Silversher. "This is a wonderful book that offers superb advice to songwriters, new and experienced. Molly Leikin gives you solid, practical information, whether you are writing and composing for yourself or the whole world. Listen to her advice. This book may well be your ticket to songwriting success!" —Philip Lee Williams, award-winning novelist and poet

Corporate Restructuring Michael Pomerleano,William Shaw,2005 In light of the periodic financial crises of the late 1990s, there has been a growing recognition of the need for a strategy to avoid and mitigate the severity of crises in the corporate sector, requiring the complementary efforts of policymakers, regulators, lawyers, insolvency experts and financiers. This publication examines the issue of corporate restructuring, drawing on case studies of corporate crises in Indonesia, Korea, Malaysia and Thailand among others; and discusses a range of topics including the key role of governments in securing an enabling legal system, effective out-of-court workouts, supportive tax regimes, policy and regulatory initiatives to address systemic corporate problems.

Blockchain & Decentralized Finance Andrew Walker,2022-10-07 Blockchain technology and the invention of smart-contracts running on it have given rise to Decentralized Finance. At the time of its birth, DeFi was seen as a response to the 2008 crisis and a hope to democratize finance. By eliminating the role of intermediaries and fluidifying property through tokenization, finance would become accessible to all. To overcome all the obstacles it faced (volatility, security issues, distrust etc.), DeFi had to find original ways to develop, by leveraging sociologically diverse communities of enthusiastic developers, users and investors from all over the world. In particular, it has distinguished itself in the fields of communication, marketing and community building through an original use of social networks and messaging tools. We have specifically emphasized these latter aspects, based on our professional experience and interviews with experts working in the field. It appears that DeFi is potentially interesting for companies. Indeed, Blockchain technology is generalizable to many other areas of economic activity beyond finance. Moreover, the DeFi communities foreshadow the communities of entrepreneurs and users/consumers of the future Web3.0. DeFi is the manifestation of a new era of the Internet. Due to key elements of blockchain and smart contracts, the value of data could be wrested from the hands of Internet giants, that control the ad market, and be restituted to businesses and consumers. Through the direct relationship with the consumer, this technology is becoming a powerful tool for optimizing business operations, reducing costs and creating value. Businesses will have to reconsider relationship with their customers, in a spirit of community and direct interaction with them (which blockchain allows, i.e. through remuneration of the user/customer). However, if blockchain technology is mature, its use is still too amateurish. In this context, it is crucial to rely on recognized professionals, because a hasty implementation can lead to serious risks for the reputational and financial integrity of companies. Experts we have interviewed have emphasized this key issue. On the one hand, a business with significant capital can invest heavily in Web3.0 and can develop its own blockchain solutions to stay ahead of its competitors. On the other hand, a small business cannot do the same. With less technical and financial capital, the small business is currently only able to implement technologies that are not very advanced and whose utilization carries risks. But the situation may change rapidly in the future. Get this book and you will learn more on blockchain and decentralized finance.

Accounting and Finance Innovations Nizar Alsharari,2021-12-22 The world is currently experiencing the advent of new information technologies with dynamic changes, which can be considered as one of the greatest business threats today.
