*66 Company Book - ELECTRIC HOME APPLIANCES* Serhat Ertan, 2021-05-14 This book is the largest referral for Turkish companies.

**Excess Capacity and Difficulty of Exit** Sumio Saruyama, Peng Xu, 2021-09-16 This book provides cases and analyses of causes and consequences of difficulty in downsizing and exiting in the electronics industry during the “two lost decades” in Japan. Because of excess capacity in the industry, many electronics companies have been required for downsizing and exit since the 1990s. Exploiting corporate financial and segment datasets, it shows empirical evidence of misallocation of internal funds to “zombie” segments—intra-firm businesses suffering losses consecutively. The topics addressed in the book include the failure of Japanese corporate internal control systems, the lack of capital market pressure, employment protection, and misallocation of internal funds to businesses with few prospects. The last two decades indicate that the Japanese corporate governance systems have failed to resolve problems of excess capacity, as did US systems in the 1980s. Zombie lending is no more than one phase of the difficulty of downsizing and exit in response to excess capacity in the banking sector. Supported by both data analyses and rich anecdotal evidence, this book is highly recommended to readers who seek a convincing and comprehensive explanation of Japan's two lost decades from the points of view of difficulty in downsizing and exit. The authors’ analyses have implications not only for accelerating downsizing and exit in corporate Japan, but also for the world economy.

**Samsung Electronics and the Struggle for Leadership of the Electronics Industry**

Anthony Michell,2011-09-29 This book views Samsung Electronics in terms of corporate life cycle as well as product portfolio and strategy. It also examines the issues Samsung faces as it proceeds further into the 21st century. Written from the perspective of an experienced commentator on Korean and global business, this book presents not simply a narrative or an adulatory and uncritical account of Samsung's rise, but a considered analysis of the secrets of success that both business students and CEOs will want to read and consider applying to their own companies.

**Samsung Electronics** Tony Michell,2010-06-28 This book views Samsung Electronics in terms of corporate life cycle as well as product portfolio and strategy. It also examines the issues Samsung faces as it proceeds further into the 21st century. Written from the perspective of an experienced commentator on Korean and global business, this book presents not simply a narrative or an adulatory and uncritical account of Samsung's rise, but a considered analysis of the secrets of success that both business students and CEOs will want to read and consider applying to their own companies.

**Innovation Management** Jin Chen,Gang Zheng,2019-03-22 The key for lasting competitive advantage lies in embracing innovation as a core value and managing it effectively. Innovation Management provides a comprehensive overview of innovation theory and a framework for implementation, intended for business school students of Innovation Management, managers, and practitioners alike. In this new text, authors Jin Chen and Gang Zheng examine innovation from the perspectives of strategy, internal processes, resource management, and organizational culture. Numerous case studies, illustrating both successes and failures in innovation, include Tesla, P&G, Apple, Uber, Google, NVIDIA, Haier Group, Motorola, and Nokia. Starting from a systematic introduction to the types, process and models of innovation, the authors present a strategical management framework that includes models for indigenous innovation, total innovation, open innovation and holistic innovation. They outline the key roles played by management of capital, information and knowledge systems, human resources, and IP rights. Organizational systems that are designed to stimulate innovation within the corporation are detailed, and finally the authors examine the future of innovation management, focusing the need for sustainable innovation that recognized the importance of environmental and ecological concerns.
