A Critical Appraisal of Karl Olivecrona's Legal Philosophy Torben Spaak, 2014-06-17 This book offers a critical appraisal of Karl Olivecrona's legal philosophy. Based on Olivecrona's critique of the view that law has binding force, the analysis of the concept and function of a legal rule, and the idea that law is a matter of organized force, the book argues that Olivecrona's legal philosophy is a unique contribution to twentieth century legal philosophy. It shows how Olivecrona's philosophy can be used in the assessment of contemporary theories of law, such as those put forward by Hart, Raz, Dworkin, and Alexy. In addition, the book argues that Olivecrona's various discussions of theories defended by key people in the history of legal and political philosophy are highly interesting contributions. They not only increase our understanding of the legal and political philosophy of previous generations, but also enhances our insight into legal-philosophical questions that remain with us today.

How to Ruin Your Education and TV Viewing Spencer D. Gear, 2022-03-31 What will you do as a parent if your fourteen-year-old comes home from school and says, You and the teachers have been telling me Columbus discovered the Americas. You've lied to me because that isn't true. There are no such things as facts, and I decide the meaning of what is written in my textbooks. I'm the one who chooses the interpretation of any writing, including history and the stories of Columbus? How are you going to answer, especially in light of what the Encyclopaedia Britannica states about Columbus? This book examines how historical Jesus scholar John Dominic Crossan has dismantled education, TV viewing (by application), and religious studies with his postmodern deconstruction of the text. His theme is I formulate it here as I see it. Texts and interpretations are out of the mind of Crossan. Using a hypothesis testing technique, the author challenges Crossan's perspective that Jesus's resurrection was an apparition and not a bodily resurrection. Even though he calls on others to First, read the text, that is not what he does. The philosophical crusher has found him out to be contradictory in his assessment of history in his autobiography and his own writings on the historical Jesus.

The Ernest Becker Reader Daniel Liechty, 2017-09-01 Ernest Becker (1924-1974) was an astute observer of society and human behavior during America's turbulent 1960s and 1970s. Trained in social anthropology and driven by a transcending curiosity about human motivations, Becker doggedly pursued his basic research question, What makes people act the way they do? Dissatisfied with what he saw as narrowly fragmented methods in the contemporary social sciences and impelled by a belief that humankind more than ever needed a disciplined, rational, and empirically based understanding of itself, Becker slowly created a powerful interdisciplinary vision of the human sciences, one in which each discipline is rooted in a basic truth concerning the human condition. That truth became an integral part of Becker's emerging social science. Almost inadvertently, he outlined a perspective on human motivations that is perhaps the most broadly interdisciplinary to date. His perspective traverses not only the biological, psychological, and social sciences but also the humanities and educational, political, and religious studies. Ernest Becker is best known for the books written in the last few years before his death from cancer, including the highly praised Pulitzer Prize-winning volume *The Denial of Death* (1974) and *Escape from Evil* (1975). These late works, however, were built on a distinguished body of earlier books, essays, and reviews. The

power and strength of Becker's ideas are fully present in his early works, which underlie his later contributions and give direction for interpreting the development of his ideas. Although Ernest Becker's life and career were cut short, his major writings have remained continually in print and have captured the interest of subsequent generations of readers. The Ernest Becker Reader makes available for the first time in one volume much of Becker's early work and thus places his later work in proper context. It is a major contribution to the ongoing interest in Becker's ideas.

Mumia Abu-Jamal, David Austin, Madison Smartt Bell, Anthony Bogues, John H. Bracey Jr., Rachel Douglas, Laurent Dubois, Claudius K. Fergus, Carolyn E. Fick, Charles Forsdick, Dan Georgakas, Robert A. The Affordable Housing Reader Elizabeth J. Mueller, J. Rosie Tighe, 2022-07-14 This second edition of *The Affordable Housing Reader* provides context for current discussions surrounding housing policy, emphasizing the values and assumptions underlying debates over strategies for ameliorating housing problems experienced by low-income residents and communities of color. The authors highlighted in this updated volume address themes central to housing as an area of social policy and to understanding its particular meaning in the United States. These include the long history of racial exclusion and the role that public policy has played in racializing access to decent housing and well-serviced neighborhoods; the tension between the economic and social goals of housing policy; and the role that housing plays in various aspects of the lives of low- and moderate-income residents. Scholarship and the COVID-19 pandemic are raising awareness of the link between access to adequate housing and other rights and opportunities. This timely reader focuses attention on the results of past efforts and on the urgency of reframing the conversation. It is both an exciting time to teach students about the evolution of United States' housing policy and a challenging time to discuss what policymakers or practitioners can do to effect positive change. This reader is aimed at students, professors, researchers, and professionals of housing policy, public policy, and city planning.
