Library of Congress. Office for Subject Cataloging Policy

*Linked Data for Cultural Heritage* Ed Jones, Michele Seikel, 2016-07-14 In this book, the Association of Library Collections and Technical Services (ALCTS) gathers a stellar list of contributors to help readers understand linked data concepts by examining practice and projects based in familiar concepts like authority control.

*Photomediations* Kamila Kuc, Joanna Zylinska, 2016-01-10 Photomediations: A Reader offers a radically different way of understanding photography. The concept of photomediations that unites the twenty essays collected here challenges the traditional classification of photography as suspended between art and social practice. Capturing the dynamics of the photographic medium today, it also explores photography's inherent kinship with other media.
