Take Control of Preview Josh Centers,Adam Engst,2023-05-24 Discover Preview's hidden features for editing images and manipulating PDFs! Version 1.3, updated May 24, 2023 Apple's Preview app is bundled with every Mac and yet many Mac users have only a shallow understanding of what it's capable of. Mac experts Adam Engst and Josh Centers have plumbed Preview's depths to create a cheerful, colorful book that explains dozens of techniques for importing, viewing, editing, and converting images in Preview. It also puts you in control of reading, annotating, manipulating, and encrypting PDFs.n Packed with real-world examples and tips, the book teaches you how to bring files into Preview from a camera, iOS or iPadOS device, or scanner (or just from the Finder). Once you discover Preview's surprisingly capable collection of image-editing tools, you'll soon be editing imported photos by tweaking the exposure, color saturation, sharpness, and more. You can even mark up your images with circles, arrows, and text, plus numerous other shapes. In the second part of the book, Adam and Josh focus on PDFs in Preview, describing how to configure Preview to make reading PDFs as fluid as possible. Love Me, Don't Leave Me Michelle Skeen,2014-09-01 Everyone thrives on love, comfort, and the safety of family, friends, and community. But if you are denied these basic comforts early in life, whether through a lack of physical affection or emotional bonding, you may develop intense fears of abandonment that can last well into adulthood—fears so powerful that they can actually cause you to push people away. If you suffer from fears of abandonment, you may have underlying feelings of anger, shame, fear, anxiety, depression, and grief. These emotions are intense and painful, and when they surface they can lead to a number of negative behaviors, such as jealousy, clinging, and emotional blackmail. In Love Me, Don't Leave Me, therapist Michelle Skeen combines acceptance and commitment therapy (ACT), schema therapy, and dialectical behavioral therapy (DBT) to help you identify the root of your fears. In this book you'll learn how schema coping behaviors—deeply entrenched and automatic behaviors rooted in childhood experiences and fears—can take over and cause you to inadvertently sabotage your relationships. By recognizing these coping behaviors and understanding their cause, you will not only gain powerful insights into your own mind, but also into the minds of those around you. If you are ready to break the self-fulfilling cycle of mistrust, clinginess, and heartbreak and start building lasting, trusting relationships, this book will be your guide.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's

book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Distress to De-Stress Vikas Kakwani,2019-01-10 "I KNOW YOU HAVE STRESS." How do I know? Simple. Because, you are alive. Also, you have picked up this book. Wars, famine and plague were the prime causes of human misery in the centuries gone by. Over the last couple of decades, we have been able to ward off diseases, income levels and life expectancy have increased, and the world has seen its most peaceful time ever. But, instead of being happy and joyful we are stressed — a lot. Why did that happen? The change over the last few years had been rapid, and none of us were ready for it. We embraced everything that the changing world threw at us without realizing the deep impact it had caused. It is time to pause, reflect and take action before stress becomes the plague of this century. Why is stress becoming the cause of misery and ailments in this era? What is stress exactly, and what are its major causes? How does social networking in the virtual world create stress? How can one manage stress to mitigate its effect? All these questions and many more get answered in this book that helps you identify your causes of distress and help you de-stress.
