Magnetic Reconnection Walter Gonzalez, Eugene Parker, 2016-02-22 This book provides an overview of recent research highlights in the main areas of application of magnetic reconnection (MR), including planetary, solar and magnetospheric physics and astrophysics. It describes how research on magnetic reconnection, especially concerning the Earth's magnetosphere, has grown extensively due to dedicated observations from major satellite missions such as Cluster, Double Star and Themis. The accumulated observations from these missions are being supplemented by many theoretical and modelling efforts, for which large scale computer facilities are successfully being used, and the theoretical advances are also covered in detail. Opening with an introductory discussion of some fundamental issues related to magnetic reconnection, subsequent chapters address

topics including collisionless magnetic reconnection, MHD structures in 3D reconnection, energy conversion processes, fast reconnection mediated by plasmoids, rapid reconnection and magnetic field topology. Further chapters consider specific areas of application such as magnetospheric dayside and tail reconnection, comparative reconnection in planetary systems and reconnection in astrophysical systems. The book offers insight into discussions about fundamental concepts and key aspects of MR, access to the full set of applications of MR as presently known in space physics and in astrophysics, and an introduction to a new related area of study dealing with the annihilation of quantum magnetic fluxes and its implications in the study on neutron star activity. The book is aimed primarily at students entering the field, but will also serve as a useful reference text for established scientists and senior researchers.

Destructiones modorum significandi und ihre Destruktionen Ludger Kaczmarek, 1994-05-25 Die Sprach- und Zeichentheorie des späten 13. und frühen 14. Jahrhunderts ist in den letzten Jahren in wachsendem Maße Gegenstand inhaltlich-systematischer Auseinandersetzungen und historischer Bewertungen geworden. Dies gilt neben den modistischen Schulen auch und gerade für ihre eher nominalistisch-konzeptualistisch ausgerichteten Gegner. Mit wachsender Kenntnis der

Texte und ihrer Autoren bedarf manches ältere Urteil heute der Korrektur und Neubewertung. Die *Destructiones modorum significandi*, in der Inkunabelzeit mehrfach anonym gedruckt und später sowohl Peter von Ailly als auch Thomas Maulfeit zugeschrieben, werden hier erstmalig auf der Grundlage der zwei bekannten Handschriften kritisch ediert. Sie werfen ein Schlaglicht auf Auseinandersetzungen der Zeit, die um Status und Erkenntniswert von Zeichen und Bedeutung geführt wurden und zeigen dabei Zeichen- und Sprachtheorie, Logik, grammatische Repräsentationsversuche und philosophische Psychologie in ihrer für das 14. Jahrhundert kennzeichnenden Vernetzung. Eine Einleitung führt in das historische Umfeld der Schrift ein und arbeitet die wissenschaftliche Diskussion um den Text und seinen möglichen Autor auf. Autoritäten- und Exemplaregister sowie ein vollständiges Verzeichnis der Wortformen erschließen den Text.

Christmas Tidings Louise Bachelder, 1984

Can Music Make You Sick? Sally Anne Gross, George Musgrave, 2020-09-29 "Musicians often pay a high price for sharing their art with us. Underneath the glow of success can often lie loneliness and exhaustion, not to mention the basic struggles of paying the rent or buying food. Sally Anne Gross and George Musgrave raise important questions – and we need to listen to what the musicians have to tell us about their working conditions and their mental health." Emma Warren (Music Journalist and Author). "Singing is crying for grown-ups. To create great songs or play them with meaning music's creators reach far into emotion and fragility seeking the communion we demand of it. However, music's toll on musicians can leave deep scars. In this important book, Sally Anne Gross and George Musgrave investigate the relationship between the wellbeing music brings to society and the wellbeing of those who create. It's a much needed reality check, deglamorising the romantic image of the tortured artist." Crispin Hunt (Multi-Platinum Songwriter/Record Producer, Chair of the Ivors Academy). It is often assumed that creative people are prone to psychological instability, and that this explains apparent associations between cultural production

and mental health problems. In their detailed study of recording and performing artists in the British music industry, Sally Anne Gross and George Musgrave turn this view on its head. By listening to how musicians understand and experience their working lives, this book proposes that whilst making music is therapeutic, making a career from music can be traumatic. The authors show how careers based on an all-consuming passion have become more insecure and devalued. Artistic merit and intimate, often painful, self-disclosures are the subject of unremitting scrutiny and data metrics. Personal relationships and social support networks are increasingly bound up with calculative transactions. Drawing on original empirical research and a wide-ranging survey of scholarship from across the social sciences, their findings will be provocative for future research on mental health, wellbeing and working conditions in the music industries and across the creative economy. Going beyond self-help strategies, they challenge the industry to make transformative structural change. Until then, the book provides an invaluable guide for anyone currently making their career in music, as well as those tasked with training and educating the next generation.

Active Collections Elizabeth Wood, Rainey Tisdale, Trevor Jones, 2017-11-07 In recent years, many museums have implemented sweeping changes in how they engage audiences. However, changes to the field's approaches to collections stewardship have come much more slowly. Active Collections critically examines existing approaches to museum

collections and explores practical, yet radical, ways that museums can better manage their collections to actively advance their missions. Approaching the question of modern museum collection stewardship from a position of tough love, the authors argue that the museum field risks being constrained by rigid ways of thinking about objects. Examining the field's relationship to objects, artifacts, and specimens, the volume explores the question of stewardship through the dissection of a broad range of issues, including questions of quality over quantity, emotional attachment, dispassionate cataloging, and cognitive biases in curatorship. The essays look to insights from fields as diverse as forest management, library science, and the psychology of compulsive hoarding, to inform and innovate collection practices. Essay contributions come from both experienced museum professionals and scholars from disciplines as diverse as psychology, education, and history. The result is a critical exploration that makes the book essential reading for museum professionals, as well as those in training.

Faces of Music Bonzai, David Goggin, 2005-09 On September 29, 1967, Mr. Bonzai attended his very first recording session at the invitation of John Lennon. The location was London's EMI Studios, now Abbey Road, and the song was I Am the Walrus. In attendance were George, Paul, Ringo, producer George Martin, and engineer Ken Scott. This privileged session with the most influential rock band in history set the stage for a life exploring the world of music and recording. In 1980, Mr.

Bonzai settled in Hollywood to begin this collection of photographs and words of wisdom and wit. 'Mr. Bonzai takes you through the inner sanctums of the recording industry to meet artists, producers, and engineers who have shaped modern music.' --Phil Ramone, Producer (Billy Joel, Paul Simon, Frank Sinatra) 'In brilliant words and images, Mr. Bonzai digs deeply into the fine art of making music.' --Ray Manzarek, The Doors 'A master of modern music photojournalism, Mr. Bonzai is the future of the past.' --Mark Mothersbaugh, Devo 'Closed Session obviously means 'C'mon in!' to Mr. Bonzai.' --Chris Stone, founder of Record Plant Recording Studios 'I laughed, I cried, I evolved into a higher life form.' --Weird Al Yankovic 'We used Mr. Bonzai's photos to open the film Laurel Canyon because he has such a striking eye for musicians at work in their environments.' --Catherine Hardwicke, production designer of Laurel Canyon, director of Thirteen and Lords of Dogtown 'Part of the art of Mr. Bonzai is the ability to be invisible.... see... he's doing it now...' --Graham Nash, singer, songwriter, photographer

A Pig's Tale Ralph Sutherland, Harold Sherrick, 2021-03-12 In that hot summer of '69 two longhaired music freaks created an underground LP record album of unreleased tracks by one of their music gods and put it out on the streets of Los Angeles. No one had ever been crazy enough to do such an audacious thing before. The god's official record label was not amused but the music fans were thrilled. Were these guys pirates or heroes? It was so much fun the first time, they soon

pressed up even more records of forbidden musical fruit. They were on a roll. The following year, in 1970, one of the culprits put The Pig image in a circular logo with the name, Trade Mark of Quality. TMQ and Pigman were born! With a cast of outrageous characters, here is the story of Trade Mark of Quality aka TMQ aka The Pig, the first bootleg record label of it's kind, spawning many later imitators. From the end of the 60's to the mid 70's, TMQ and Pigman lead the way, trotting down a muddy trail, feeding the habits and needs of music addicts around the world. Who were these fellow travelers? Carl? The Greek? Merlin? Hans? Rob Snout? Casper? Sheldon? The Blue Hasslebeast? and Ol' Fred? (Not to mention, The Brooklyn Boys, The Record Suits and The Feds!) What was the connection between TMQ and the Viet Nam war, revolutionaries, guns, pot and the moon landing? It's all here! Included in A Pig's Tale is not only the Trade Mark of Quality and Pigman saga, but reproductions of all the rubber stamped and illustrated album jackets from every genuine TMQ record release, including the earliest releases from '69 right up to the last titles in 1976. Everything you ever wanted to know about the real TMQ label is here: A complete discography of artists and track listings, sources of recordings, catalogue numbers, master tape and record matrix info, colored vinyl pressings, record labels, graphics, photos, vintage news clippings, articles and more, all collected together, at last, in one volume.
