Getting Acquired: How I Built and Sold My SaaS Startup Andrew Gazdecki, 2022-01-11 Andrew Gazdecki knows startups. He founded Bizness Apps as a broke, twenty-something entrepreneur and sold it to a private equity firm before the age of thirty—after going head-to-head with Apple over a blanket App Store policy that threatened to ruin him. He's been a growth consultant for several more multimillion-dollar startups. His companies have been featured in TechCrunch more than a dozen times. Now, he shares his remarkable story in *Getting Acquired: How I Built and Sold My SaaS Startup*. Follow Gazdecki's journey: starting a company at the age of twenty-one and hiring, then leading, over one hundred employees without any real work experience of his own. This honest, personal look behind the scenes reveals both his successes and his mistakes as he labored to build a compelling brand story and catalyze growth on a shoestring budget, almost lost everything, and finally sold the company for millions at the age of twenty-nine.

The \$100 Startup Chris Guillebeau, 2012-05-08 Lead a life of adventure, meaning and purpose—and earn a good living. “Thoughtful, funny, and compulsively readable, this guide shows how ordinary people can build solid livings, with independence and purpose, on their own terms.”—Gretchen Rubin, author of the #1 New York Times bestseller *The Happiness Project* Still in his early thirties, Chris Guillebeau completed a tour of every country on earth and yet he's never held a “real job” or earned a regular paycheck. Rather, he has a special genius for turning ideas into income, and he uses what he earns both to support his life of adventure and to give back. Chris identified 1,500 individuals who have built businesses earning \$50,000 or more from a modest investment (in many cases, \$100 or less), and focused on the 50 most intriguing case studies. In nearly all cases, people with no special skills discovered aspects of their personal passions that could be monetized, and were able to restructure their lives in ways that gave them greater freedom and fulfillment. Here, finally, distilled into one easy-to-use guide, are the most valuable lessons from those who've learned how to turn what they do into a gateway to self-fulfillment. It's all about finding the intersection between your “expertise”—even if you don't consider it such—and what other people will pay for. You don't need an MBA, a business plan or even employees. All you need is a product or service that springs from what you love to do anyway, people willing to pay, and a way to get paid. Not content to talk in generalities, Chris tells you exactly how many dollars his group of unexpected entrepreneurs required to get their projects up and running; what these individuals did in the first weeks and months to generate significant cash; some of the key mistakes they made along the way, and the crucial insights that made the business stick. Among Chris's key principles: If you're good at one thing, you're probably good at something else; never teach a man to fish—sell him the fish instead; and in the battle between planning and action, action wins. In ancient times, people who were dissatisfied with their lives dreamed of finding magic lamps, buried treasure, or streets paved with gold. Today, we know that it's up to us to change our lives. And the best part is, if we change our own life, we can help others change theirs. This remarkable book will start you on your way.

You sit down at your desk to work on an important project, but a notification on your phone interrupts your morning. Later, as you're about to get back to work, a colleague taps you on the shoulder to chat. At home, screens get in the way of quality time with your family. Another day goes by, and once again, your most important personal and professional goals are put on hold. What would be possible if you followed through on your best intentions? What could you accomplish if you could stay focused? What if you had the power to become undistractable? International bestselling author, former Stanford lecturer, and behavioral design expert, Nir Eyal, wrote Silicon Valley's handbook for making technology habit-forming. Five years after publishing *Hooked*, Eyal reveals distraction's Achilles' heel in his groundbreaking new book. In *Indistractable*, Eyal reveals the hidden psychology driving us to distraction. He describes why solving the problem is not as simple as swearing off our devices: Abstinence is impractical and often makes us want more. Eyal lays bare the secret of finally doing what you say you will do with a four-step, research-backed model. *Indistractable* reveals the key to getting the best out of technology, without letting it get the best of us. Inside, Eyal overturns conventional wisdom and reveals:

- Why distraction at work is a symptom of a dysfunctional company culture—and how to fix it
- What really drives human behavior and why time management is pain management
- Why your relationships (and your sex life) depend on you becoming undistractable
- How to raise undistractable children in an increasingly distracting world

Empowering and optimistic, *Indistractable* provides practical, novel techniques to control your time and attention—helping you live the life you really want.

12 Months to \$1 Million Ryan Daniel Moran, 2020-05-05 This is the road map to a seven-figure business . . . in one year or less The word entrepreneur is today's favorite buzzword, and any aspiring business owner has likely encountered an overwhelming number of so-called easy paths to success. The truth is that building a real, profitable, sustainable business requires thousands of hours of commitment, grit, and hard work. It's no wonder why more than half of new businesses close within six years of opening, and fewer than 5 percent will ever earn more than \$1 million annually. *12 Months to \$1 Million*

condenses the startup phase into one fast-paced year that has helped hundreds of new entrepreneurs hit the million-dollar level by using an exclusive and foolproof formula. By cutting out the noise and providing a clear and proven plan, this roadmap helps even brand-new entrepreneurs make decisions quickly, get their product up for sale, and launch it to a crowd that is ready and waiting to buy. This one-year plan will guide you through the three stages to your first \$1 million: • The Grind (Months 0-4): This step-by-step plan will help you identify a winning product idea, target customers that are guaranteed to buy, secure funding, and take your first sale within your first four months. • The Growth (Months 5 - 8): Once you're in business, you will discover how to use cheap and effective advertising strategies to get your product to at least 25 sales per day, so you can prove you have a profitable business. • The Gold (Months 9-12): It's time to establish series of products available for sale, until you are averaging at least 100 sales per day, getting you closer to the million-dollar mark every single day. Through his training sessions at Capitalism.com, Ryan Daniel Moran has helped new and experienced entrepreneurs launch scalable and sustainable online businesses. He's seen more than 100 entrepreneurs cross the seven-figure barrier, many of whom go on to sell their businesses. If your goal is to be a full-time entrepreneur, get ready for one chaotic, stressful, and rewarding year. If you have the guts to complete it, you will be the proud owner of a million-dollar business and be in a position to call your own shots for life.

The Pathless Path Paul Millerd, 2022-01-13 Not all who wander are lost... Paul thought he was on his way. From a small-town Connecticut kid to the most prestigious consulting firm in the world, he had everything he thought he wanted. Yet he decided to walk away and embark on the real work of his life - finding the work that matters and daring to create a life to support that. This Pathless Path is about finding yourself in the wrong life, and the real work of figuring out how to live. Through painstaking experiments, living in different countries, and contemplating the deepest questions about life, Paul pieces together a set of ideas and principles that guide him from unfulfilled and burned out to a life he is excited to keep living. The Pathless Path is not a how-to book filled with "hacks"; instead, it is a vulnerable account of Paul's journey from leaving the socially accepted "default path" towards another, one focused on doing work that matters, finding the others, and defining your own success. This book is an ideal companion for people considering leaving their jobs, embarking on a new path, dealing with the uncertainty of an unconventional path, or looking to improve their relationship with work in a fast-changing world. Reader feedback: "It's a rare book in that it is tangentially about careers and being more focused and productive, but unlike almost every other book I have read

about these topics, I finished this one and felt better about myself and my career.” “The themes are timeless. The content is expertly written. The advice is refreshingly non-prescriptive.” “If you have questioned your own path, or a nagging lack of intention in your choices you need this book. If you have felt a gradual loss of agency in your direction you need this book. You are in the grip of an invisible script that was not written for you.” “The writing is fantastic - Paul's writing is approachably poetic; a quick read that weaves together his own experience moving from a 'default path' overachiever to a 'pathless path' seeker of passion and curiosity, deep research into the history of work and collections of perspectives from years of podcasting, friendship, conferences, and meetings with other 'alternative path' life-livers.

When she first moved from NBC to parent company GE in 1998, she was ignored as a woman in a man's world, treated as an outsider because she didn't have a business background, and ignored as a mere PR person. But CEO Jeff Immelt realized even then that the industrial giant, like so many businesses, had to change fast in order to stay relevant in a world where Google, Facebook, and an explosion of internet companies were transforming how goods and services were marketed, made, and sold. In a deeply personal journey filled with practical takeaways from two plus decades of initiating change at the top levels of one of the largest corporations in the world, Comstock lays out the challenges, opportunities, tools, and practices needed to embrace change, whatever industry you are in, and make it part of every management decision.
