Roy Courtnall

Making Master Guitars Roy Courtinall, 1993 Making Master Guitars is a craftsman's handbook about the exciting and challenging pursuit of making classical guitars--a craft that the author reveals to be surprisingly accessible by following his instructions. The book is unique in that it includes nine separate detailed plans of instruments constructed by internationally famous guitar-makers. The author has had the rare opportunity of examining these instruments in detail, and has made many replicas of each one. It is presented in three parts: The Master Makers and Their Guitars, Workshop, Tools, and Materials, and Guitar Construction--The Spanish Method.

Classical Guitar Answer Book Sharon Isbin, 1999 In this update of the Acoustic Guitar Answer Book, Sharon Isbin, the classical guitar virtuoso who heads the Juilliard School Guitar Department, answers 50 essential questions about performing, practicing, and choosing and caring for your guitar. The questions were asked by Acoustic Guitar magazine readers and answered by Isbin in four years of Master Class columns in the magazine. This book collects all this vital information together in an easy reference format - an absolute must for every classical guitar player. Includes new appendices of resources for classical guitarists and students. 88 pages, 9 inch. x 12 inch.
